Title: Wholesale Contracts for the Purchase and Sale of Electric Power.

OMB Control Number: 0572-0089.

Type of Request: Extension of a currently approved information collection.

Abstract: Most RUS financed electric systems are cooperatives and are organized in a two-tiered structure. Retail customers are members of the distribution system that brings electricity to their homes and business. Distribution cooperatives, in turn, are members of power supply cooperatives, also known as generation and transmission cooperatives (G&T's) that generate or purchase power and transmit the power to the distribution systems.

For a distribution system a lien on the borrower's assets generally represents adequate security. However, since most G&T revenues flow from its distribution members, RUS requires, as a condition of a loan or loan guarantee to a G&T that long-term requirements wholesale power contract to purchase their power from the G&T at rates that cover all the G&T's expenses, including debt service and margins.

RUS Form 444 is the standard form of the wholesale power contract. Most borrowers adapt this form to meet their specific needs. The contract is prepared and executed by the G&T and each member and by RUS.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 6 hours per response.

Respondents: Small business or other for-profit; not-for-profit organizations.

Estimated Number of Respondents: 110.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 660 hours.

Copies of this information collection can be obtained from MaryPat Daskal, Program Development and Regulatory Analysis, at (202) 720-7853; FAX: (202) 720-4120.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Dated: November 5, 2003.

Curtis M. Anderson,

Deputy Administrator as Acting Administrator, Rural Utilities Service.
