SUPPLEMENTARY INFORMATION:

I. Background

The Federal Coal Mine Health and Safety Act of 1969, as amended, 30 U.S.C. 923 (b) and 20 CFR 725.544 (c), and the Federal Employees' Compensation Act, 5 U.S.C. 8129(b) and 20 CFR 10.430-10.441, provide for the recovery, waiver, compromise, or termination of overpayment of benefits to beneficiaries. The OWCP-20 collects information used to ascertain the financial condition of the beneficiary who has been overpaid to determine if the concealment or improper transfer of assets, and to identify and consider present and potential income and current assets for enforced collection proceedings. The form also provides a means for the beneficiary to explain why he/she is not at fault for the overpayment. If this information were not collected, Black Lung and FECA would have little basis to decide on collection proceedings. This information collection is currently approved for use through October 31, 2003.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

The Department of Labor seeks approval for the extension of this information collection in order to carry out its responsibility under the law to resolve overpayments under the Acts.

Bureau of Labor Statistics

Proposed Collection; Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c) (2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed revision of the "Consumer Price Index Housing Survey." A copy of the proposed information collection request

(ICR) can be obtained by contacting the individual listed below in the Addresses section of this notice.

DATES: Written comments must be submitted to the office listed in the Addresses section below on or before June 16, 2003.

ADDRESSES: Send comments to Amy A. Hobby, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room 4080, 2 Massachusetts Avenue, NE., Washington, DC 20212, telephone number (202) 691-7628 (this is not a toll free number).

FOR FURTHER INFORMATION CONTACT: Amy A. Hobby, BLS Clearance Officer, telephone number (202) 691-7628. (See Addresses section).

SUPPLEMENTARY INFORMATION:

I. Background

The Consumer Price Index (CPI) is the timeliest instrument compiled by the U.S. Government that is designed to measure changes in the purchasing power of the urban consumer's dollar. The CPI is used most widely as a measure of inflation, and serves as an indicator of the effectiveness of Government economic policy. It also is used as a deflator of other economic series, that is, to adjust other series for price changes and to translate these series into inflation-free dollars.

II. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Action

This request addresses the continuation of the current Housing sample collection, and new construction

units added yearly. The Housing sample continues utilizing Computer-Assisted Data Collection (CADC) technology. Field representatives use hand-held pen computers and electronically transmit collected data back to Washington, DC.

Type of Review: Revision.

NUCLEAR REGULATORY COMMISSION

[Docket No. 40-8027]

Sequoyah Fuels Corp.; Notice of Receipt of Amendment Request and Opportunity To Request a Hearing

I. Introduction

The U. S. Nuclear Regulatory Commission (NRC) has received, by letter dated January 28, 2003, a request from Sequoyah Fuels Corp. (SFC) for approval of a license amendment to Materials License SUB-1010, to address clean up and reclamation of the SFC site.

The SFC facility, located near Gore, Oklahoma, operated from 1970 to 1993, converting uranium oxide (yellowcake) to uranium hexafluoride, a step in the production of nuclear reactor fuel. From 1987 to 1993, the facility was also used to convert depleted uranium hexafluoride to uranium tetrafluoride. The facility is currently licensed only to possess radioactive material. Originally, the license only permitted possession of source material. However, in a Staff Requirements Memorandum to SECY-02-0095, dated July 25, 2002, the Commission concluded that some of the waste at the SFC site could properly be classified as byproduct material as defined in section 11e.(2) of the Atomic Energy Act of 1954 as amended (AEA).

In response to a request from SFC, on December 11, 2002, NRC amended the license to allow possession of 11e.(2) byproduct material, in addition to source material.

In its reclamation plan, SFC proposes to build a disposal cell on the site and put the radioactive waste in that cell. The cell is designed to meet the requirements, in 10 CFR part 40, appendix A, for disposal of 11e.(2) byproduct material. SFC also requested permission to dispose of source material wastes in the cell, under the guidance in Attachment 1 to NRC Regulatory Issue Summary 2000-23 (November 30, 2000).

The staff will review SFC's request for conformance with 10 CFR Parts 20 and 40, using NUREG-1620, "Standard Review Plan for the Review of a

Reclamation Plan for Mill Tailings Sites Under Title II of the Uranium Mill Tailings Radiation Control Act" and other applicable agency regulations and guidance. If NRC approves SFC's request, the approval will be documented in an amendment to SFC's license. However, before approving the request, NRC will need to make the findings required by the AEA and NRC regulations. These findings will be documented in a Technical Evaluation Report and an Environmental Impact Statement.

II. Opportunity To Request a Hearing

The NRC hereby provides notice that this is a proceeding on an application for an amendment of a license falling within the scope of Subpart L, "Informal Hearing Procedures for Adjudications in Materials and Operator Licensing Proceedings" of NRC's rules and practice for domestic licensing proceedings in 10 CFR part 2. Pursuant to § 2.1205(a), any person whose interest may be affected by this proceeding may file a request for a hearing in accordance with § 2.1205(d). A request for a hearing must be filed within 30 days of the publication of this **Federal Register** notice.

The request for a hearing must be filed with the Office of the Secretary, either:

(1) By delivery to the Rulemaking and Adjudications Staff of the Office of the Secretary of the Commission at One White Flint North, 11555 Rockville Pike, Rockville, MD 20852, between 7:45 a.m. and 4:15 p.m., Federal workdays; or

(2) By mail or telegram addressed to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Rulemaking and Adjudications Staff. Because of continuing disruptions in the delivery of mail to United States Government offices, it is requested that requests for hearing also be transmitted to the Secretary of the Commission either by means of facsimile transmission to 301-415-1101, or by e-mail to hearingdocket@nrc.gov.

In accordance with 10 CFR 2.1205(f), each request for a hearing must also be served, by delivering it personally or by mail, to:

(1) The applicant, Sequoyah Fuels Corporation, P.O. Box 610, Gore, Oklahoma, Attention: Mr. John Ellis; and

(2) The NRC staff, by delivery to the Office of the General Counsel, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852, between 7:45 a.m. and 4:15 p.m., Federal workdays, or by mail addressed to the
