

Transmittal No. 03-07

**Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act**

**Annex
Item No. vii**

(vii) Sensitivity of Technology:

1. The JAVELIN anti-tank missile system provides a man-portable, medium anti-tank capability to infantry, scouts, and combat engineers. JAVELIN is comprised of two major tactical components; a reusable Command Launch Unit (CLU) and a missile sealed in a disposable launch tube assembly. The CLU incorporates an integrated day/night sight and provides target engagement capability in adverse weather and countermeasure environments. The CLU may also be used in the stand-alone mode for battlefield surveillance and target detection. JAVELIN's key technical feature is the use of fire-and-forget technology that allows the gunner to fire and immediately take cover. Additional special features are the top attack and/or direct fire modes (for targets under cover), integrated day/night sight, advanced tandem warhead, imaging infrared seeker, target lock-on before launch, and soft launch from enclosures or covered fighting positions. If the software was compromised, it could result in a loss of sensitive technology, revealing the performance capabilities of the JAVELIN Missile System. Reverse engineering of the software would require a substantial effort. While the JAVELIN system is Unclassified, Secret disclosure is required in order to employ, operate, and train on the system.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that Norway can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

Office of the Secretary

Defense Science Board

AGENCY: Department of Defense.

ACTION: Notice of advisory committee meeting.

SUMMARY: The Defense Science Board Task Force on Integrated Fire Support in the Battlespace will meet in closed session on June 4–5, 2003; July 9–10, 2003; September 10–11, 2003; October 8–9, 2003; November 5–6, 2003; and December 10–11, 2003, at locations to be determined. The Task Force will apply the methodology developed in the 2001 Precision Targeting Summer Study to broadly develop the system of systems required to provide truly integrated fire support.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At these meetings, the Defense Science Board Task Force will assess: the adequacy of current and proposed munitions with respect to speed, accuracy, lethality, cost, etc., to meet the spectrum of threats; Intelligence Surveillance and Reconnaissance (ISR) techniques and mechanisms to meet the needs of tactical and operational battlefield forces; the adequacy of battlefield command and control and integration techniques for tactical, operational, and strategic forces operating on the battlefield; the current impediments to a fully integrated Air, Land and Sea fire support; and the need for predictive engagement tools and derived intelligence products to guide the battlefield commander in use of forces to shape the outcome to the desired effect.

In accordance with section 10(d) of the Federal Advisory Committee Act, Pub. L. 92–463, as amended (5 U.S.C. App. II), it has been determined that these Defense Science Board Task Force meetings concern matters listed in 5 U.S.C. 552b(c)(1) and that, accordingly, the meetings will be closed to the public.

Dated: April 17, 2003.

Defense Science Board

AGENCY: Department of Defense.

ACTION: Notice of advisory committee meeting.

SUMMARY: The Defense Science Board Task Force on Seabasing will meet in closed session on May 27, 2003, at Strategic Analysis Inc., 3601 Wilson Boulevard, Arlington, VA. The Task Force will assess how seabasing of expeditionary forces can best serve the nation's defense needs through at least the first half of the 21st century.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At this meeting, the Defense Science Board Task Force will examine the broadest range of alternatives for seabasing of expeditionary forces and be guided by: the expected naval environment for the next 20–50 years; the role of naval forces in enabling access for joint forces through the world's littorals; assets and technologies needed to establish a robust and capable Enhanced Networked Seabase; the timing of the acquisition of the technologies, platforms and systems which replace the legacy systems; and the function of new hardware and opportunities to reallocate functionality to improve effectiveness, or efficiency, or economy.

In accordance with section 10(d) of the Federal Advisory Committee Act, Pub. L. 92–463, as amended (5 U.S.C. App. II), it has been determined that this Defense Science Board Task Force meeting concerns matters listed in 5 U.S.C. 552b(c)(1) and that, accordingly, the meeting will be closed to the public.

Dated: April 17, 2003.

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.
SUMMARY: The Leader, Regulatory Management Group, Office of the Chief Information Officer, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before June 23, 2003.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and

Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Regulatory Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: April 21, 2003.

John D. Tressler,
Leader, Regulatory Management Group, Office of the Chief Information Officer.
