# National Environmental Performance Track 2005 Directory of Members

Please Note: The facility names listed in this directory were taken from the applications submitted for Performance Track membership. If you see information regarding your facility that you would like changed, please contact the Performance Track Information Center at 1-888-339-PTRK. Changes will be reflected in the member listings on the Performance Track website and in future editions of the printed Member Directory.

This directory identifies the 351 members of the U.S. Environmental Protection Agency's (EPA) National Environmental Performance Track program as of April, 2005. For the most current listing, please visit the member directory online at [www.epa.gov/performance-track/particip](http://www.epa.gov/performance-track/particip).

Launched in June, 2000, Performance Track recognizes and rewards facilities that voluntarily exceed minimum regulatory requirements. These facilities are setting the pace in demonstrating ways to increase protection of public health and the environment.

Any facility, large or small, public or private, in the United States and its territories may apply for membership in Performance Track. To be eligible for membership, facilities must have:

- A comprehensive, independently assessed Environmental Management System (EMS);
- A record of sustained compliance with environmental laws;
- A commitment to continual environmental improvement; and
- A community outreach component.

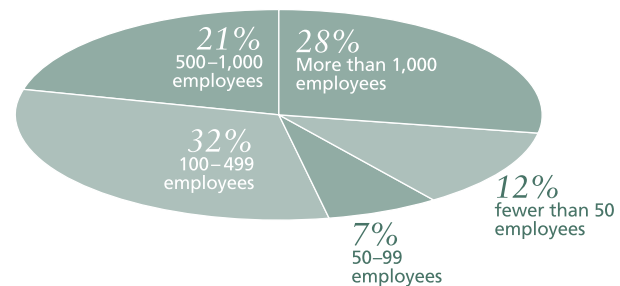

Current members are located in 46 states and Puerto Rico. Members represent many industry sectors, as shown in the chart at right. Forty-six companies and organizations have two or more facilities in Performance Track.

The program accepts applications twice a year, from February 1 to April 30 and from August 1 to

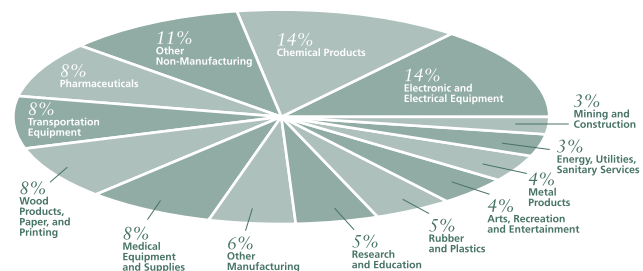

October 31. An online application form is available at [www.epa.gov/performance-track/apps/app.htm](http://www.epa.gov/performance-track/apps/app.htm).

For more information on the program, visit Performance Track's website at [www.epa.gov/performance-track](http://www.epa.gov/performance-track) or call toll free (888) 339-PTRK.

## Size of Performance Track Facilities

## Distribution of Performance Track Members Across Sectors

## Performance Track Network Partners

Through the Performance Track Network, EPA works with trade associations and other membership-based organizations that are striving for environmental excellence. This partnership ensures that top environmental performers receive information about Performance Track and are given the opportunity to apply. The 22 members of the Performance Track

Network listed in this directory are actively promoting Performance Track to their members. For more information on becoming a Network partner, visit [www.epa.gov/performancecetrack/partners/trade.htm](http://www.epa.gov/performancecetrack/partners/trade.htm) or call Kevin Easley at (202) 566-2873.

# Performance Track Corporate Leaders

In 2005, Performance Track designated the first Performance Track Corporate Leaders to recognize companies that demonstrate an exceptional corporate-wide commitment to environmental stewardship and continuous improvement. The new designation recognizes companies that have multiple facilities in

Performance Track and whose policies and behavior at the corporate level demonstrate a commitment to environmental excellence. EPA will designate a select number of Performance Track Corporate Leaders each year for a five-year membership.

*The first three Performance Track Corporate Leaders, selected by EPA and announced in early 2005 are:*

**Baxter Healthcare Corporation**

**Johnson & Johnson**

**Rockwell Collins**
