

Public Comment Policy: MMS's practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. If you wish your name and/or address to be withheld, you must state this prominently at the beginning of your comment. MMS will honor this request to the extent allowable by law; however, anonymous comments will not be considered. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

BILLING CODE 4310-MR-P

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

Central Valley Project Improvement Act, Water Management Plans

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of availability.

SUMMARY: The following Water Management Plans are available for review:

- Carpinteria Water District
- Kern Tulare Water District
- Montecito Water District
- Rag Gulch Water District

To meet the requirements of the Central Valley Project Improvement Act of 1992 (CVPIA) and the Reclamation Reform Act of 1982, the Bureau of Reclamation (Reclamation) developed and published the Criteria for Evaluating Water Management Plans (Criteria). Note: For the purpose of this announcement, Water Management Plans (Plans) are considered the same as Water Conservation Plans. The above entities have developed a Plan, which Reclamation has evaluated and preliminarily determined to meet the requirements of these Criteria. Reclamation is publishing this notice in order to allow the public to comment on the preliminary determinations. Public comment on Reclamation's preliminary (*i.e.*, draft) determination is invited at this time.

DATES: All public comments must be received by January 12, 2004.

ADDRESSES: Please mail comments to Bryce White, Bureau of Reclamation, 2800 Cottage Way, Sacramento, California 95825, or contact at (916) 978-5208 (TDD: 978-5608), or e-mail at bwhite@mp.usbr.gov.

FOR FURTHER INFORMATION CONTACT: To be placed on a mailing list for any subsequent information, please contact Bryce White at the e-mail address or telephone number above.

SUPPLEMENTARY INFORMATION: We are inviting the public to comment on our preliminary (*i.e.*, draft) determination of Plan adequacy. Section 3405(e) of the CVPIA (title 34 Pub. L. 102-575), requires the "Secretary of the Interior to establish and administer an office on Central Valley Project water conservation best management practices that shall * * * develop criteria for evaluating the adequacy of all water conservation plans developed by project contractors, including those plans required by section 210 of the Reclamation Reform Act of 1982." Also, according to section 3405(e)(1), these criteria must be developed "* * * with the purpose of promoting the highest level of water use efficiency reasonably achievable by project contractors using best available cost-effective technology and best management practices." These criteria state that all parties (Contractors) that contract with Reclamation for water supplies (municipal and industrial contracts over 2,000 acre-feet and agricultural contracts over 2,000 irrigable acres) must prepare Plans that contain the following information:

1. Description of the District
2. Inventory of Water Resources
3. Best Management Practices (BMPs) for Agricultural Contractors
4. BMPs for Urban Contractors
5. Plan Implementation
6. Exemption Process
7. Regional Criteria
8. Five-Year Revisions

Reclamation will evaluate Plans based on these criteria. A copy of these Plans will be available for review at Reclamation's Mid-Pacific (MP) Regional Office located in Sacramento, California, and the local area office. Our practice is to make comments, including names and home addresses of respondents, available for public review. Individual respondents may request that Reclamation withhold their home address from public disclosure, and we will honor such request to the extent allowable by law. There also may be circumstances in which Reclamation would elect to withhold a respondent's identity from public disclosure, as allowable by law. If you wish us to

withhold your name and/or address, you must state this prominently at the beginning of your comments. We will make all submissions from organizations, businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses available for public disclosure in their entirety. If you wish to review a copy of these Plans, please contact Mr. White to find the office nearest you.

Dated: November 14, 2003.

Donna E. Tegelman,

Regional Resources Manager, Mid-Pacific Region, Bureau of Reclamation.

BILLING CODE 4310-MN-P

INTERNATIONAL TRADE COMMISSION

[Investigation No. TA-421-4]

Certain Ductile Iron Waterworks Fittings From China

Determination

On the basis of information developed in the subject investigation, the United States International Trade Commission determines, pursuant to section 421(b)(1) of the Trade Act of 1974,¹ that certain ductile iron waterworks fittings² from the People's Republic of China are being imported into the United States in such increased quantities or under such conditions as to cause market disruption to the domestic producers of like or directly competitive products.³

Background

Following receipt of a petition, on September 5, 2003, on behalf of McWane, Inc.,⁴ Birmingham, AL, the Commission instituted investigation No. TA-421-4, *Certain Ductile Iron Waterworks Fittings from China*, under section 421(b) of the Act to determine

¹ 19 U.S.C. 2451(b)(1).

² The products subject to this investigation are cast pipe or tube fittings of ductile iron (containing 2.5 percent carbon and over 0.02 percent magnesium or magnesium and cerium, by weight) with mechanical, push-on (rubber compression) or flanged joints attached. Included within this definition are fittings of all nominal diameters and of both full-bodied and compact designs. The imported products are provided for in statistical reporting number 7307.19.3070 of the Harmonized Tariff Schedule of the United States (HTS).

³ Commissioners Koplán and Lane determine that certain ductile iron waterworks fittings from China are being imported into the United States in such increased quantities as to cause market disruption to the domestic producers of like products.

⁴ McWane operates three subsidiaries that produce the subject products including: Clow Water Systems Co., Coshocton, OH; Tyler Pipe Co., Tyler, TX; and Union Foundry Co., Anniston, AL.
