

This notice is not intended to solicit orders from the general public for single copies or small orders of this volume. This publication will be available for purchase from the Superintendent of Documents, United States Printing Office, Washington, DC 20402, at a later time.

Rider orders for Volume I should be placed on Standard Form #1 and should specify GAO Requisition No. 4-00051. Agency orders for Volume I must be received by GPO no later than January 7, 2004. GPO will not accept rider requisitions for Volume I after this date, and agencies will have to purchase additional copies from the Superintendent of Documents. All rider requisitions must be submitted to GPO through each agency's Washington, D.C. headquarters printing procurement office. In compiling an agency's total order, GAO suggests that the needs of legal offices, finance and accounting offices, contracting offices, law libraries, federal depositories, Inspector General and Chief Financial Officer offices, field and regional offices, and any other elements of an agency that might use this publication be considered.

As with the second edition of Principles, we are publishing the third edition in loose-leaf format. We plan four volumes with annual updates. The updates will only be published electronically. Users should retain copies of their five volumes of the second edition until each volume is revised. We will not revise Volume III of the second edition, which we issued in November 1994. Volume III addresses functions that the GAO Act of 1996 transferred to the Executive Branch.

SUPPLEMENTARY INFORMATION:

I. Background

In the **Federal Register** of October 10, 2003 (68 FR 58894 and 68 FR 58974), FDA issued two interim final rules to implement sections 305 (Registration of Food Facilities) and 307 (Prior Notice of Imported Food) of the Bioterrorism Act. The registration interim final rule requires domestic and foreign facilities that manufacture/process, pack, or hold food for human or animal consumption in the United States to register with FDA by December 12, 2003. The prior notice interim final rule requires the submission to FDA of prior notice of food, including animal feed, that is imported or offered for import into the United States beginning on December 12, 2003.

We examined the economic implications of these interim rules as required by the Regulatory Flexibility Act (5 U.S.C. 601-612) and determined that they would have a significant economic impact on a substantial number of small entities.

In compliance with section 212 of the Small Business Regulatory Enforcement Fairness Act (Public Law 104-121), we are making available these SECGs that explain the requirements of these regulations.

FDA is issuing these SECGs as level 2 guidance consistent with FDA's good guidance practices regulation (21 CFR 10.115(c)(2)). These SECGs restate, in simplified format and language, FDA's current requirements for Registration of Food Facilities and Prior Notice of Imported Food. As guidance, these documents are not binding on either FDA or the public. FDA notes, however, that the regulations that serve as the
