SUMMARY: This document amends the Department of Veterans Affairs (VA) adjudication regulations concerning presumptive service connection for certain diseases by adding cirrhosis of the liver to the list of diseases for which entitlement to service connection is presumed for former prisoners of war (POWs). The intended effect is to make it easier for former POWs to obtain compensation benefits for cirrhosis based on scientific and medical research showing a higher risk of death from cirrhosis in former WWII POWs than in the general population.

DATES: Effective Date: July 18, 2003.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; amendments.

SUMMARY: On February 18, 2003, the EPA promulgated amendments to the national emission standards for hazardous air pollutants (NESHAP) for chemical recovery combustion sources at kraft, soda, sulphite, and stand-alone semichemical pulp mills, as a direct final rule with a parallel proposal. We received timely adverse comment on certain provisions of the direct final rule, but our withdrawal notice was not printed in the **Federal Register** before the May 19, 2003 effective date of the provisions. This action amends the subpart MM rule by deleting the provisions which were the subject of adverse comment. We are also amending portions of the subpart MM rule added by the February 18, 2003 direct final rule to correct a typographical error and a cross-referencing error.

DATES: These amendments are effective July 18, 2003.
