

intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. *Filing and Service of Responsive Documents*—Any filings must bear in all capital letters the title “COMMENTS”, “PROTEST”, or “MOTION TO INTERVENE”, as applicable, and the Project Number of the particular application to which the filing refers. A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

p. *Agency Comments*—Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by the agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

q. Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site as <http://www.ferc.gov> under the “e-filing link.”

Notice of Application for Amendment of License and Soliciting Comments, Motions To Intervene, and Protests

August 26, 2003.

Take notice that the following application has been filed with the Commission and is available for public inspection:

a. *Type of Application*: Request for Temporary Variance of Minimum Flow Requirement.

b. *Project No*: 10440–085.

c. *Date filed*: August 15, 2003.

d. *Applicant*: Alaska Power and Telephone Company.

e. *Name of Project*: Black Bear Lake Hydroelectric Project.

f. *Location*: Black Bear Lake on Prince of Wales Island in southeast Alaska in Prince of Wales-Outer Ketchikan Borough.

g. *Filed Pursuant to*: 18 CFR 4.200.

h. *Applicant Contact*: Glen Martin, P.O. Box 222, Port Townsend, WA 98368.

i. *FERC Contact*: John K. Novak, john.novak@ferc.gov, (202)–502–6076.

j. *Deadline for filing comments, motions to intervene and protest*: September 29, 2003.

The Commission's Rules of Practice and Procedure require all interveners filing documents with the Commission to serve a copy of that document on each person in the official service list for the project. Further, if an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. *Description of Application*: The licensee is requesting a temporary waiver of the minimum flow requirements as set forth in Article 405 of the project license. Article 405 requires monthly minimum flows ranging from 9 cubic feet per second (cfs) to 24 cfs; for August and September the flow requirement is 17 cfs and 24 cfs, respectively. As a result of drought conditions in Southeast Alaska and Prince of Wales Island caused by lower than normal snow pack and minimal rainfall during the spring and summer months, the licensee has not been able to maintain the required August flows even though Black Bear Lake has been drawn down greater than the 15 feet allowed under the license. Currently the licensee has reduced flows to 4.5 cfs and requests approval to continue this release through the remainder of August, until inflow to Black Bear Lake increases. However, prolonged drought conditions may necessitate a continuation of reduced flow. The licensee has consulted with the appropriate resource agencies, and these agencies are in agreement with the licensee's mode of operation during this drought.
