

reaction of cellulose with nitric acid. INC is used as a film-former in coatings, lacquers, furniture finishes, and printing inks. The scope of this order does not include explosive grade nitrocellulose, which has a nitrogen content of greater than 12.2percent.

INC is currently classified under Harmonized Tariff Schedule of the United States (HTS) item number 3912.20.0000. While the HTS classification number is provided for convenience and Customs purposes, the written description remains dispositive as to the scope of the product coverage.

Initiation of Antidumping Duty Changed Circumstances Review

Pursuant to section 751(b)(1) of the Act, the Department will conduct a changed circumstances review upon receipt of information concerning, or a request from an interested party for a review of, an antidumping duty order which shows changed circumstances sufficient to warrant a review of the order. The information submitted by Inabata/Troon regarding a change in ownership of the nitrocellulose business division of NEC shows changed circumstances sufficient to warrant a review. See 19 CFR 351.216(c).

In antidumping duty changed circumstances reviews involving a successor-in-interest determination, the Department typically examines several factors including, but not limited to, changes in: (1) management; (2) production facilities; (3) supplier relationships; and (4) customer base. See *Brass Sheet and Strip from Canada: Notice of Final Results of Antidumping Administrative Review*, 57 FR 20460, 20462 (May 13, 1992) (*Canadian Brass*). While no single factor or combination of factors will necessarily be dispositive, the Department generally will consider the new company to be the successor to the predecessor company if the resulting operations are essentially the same as those of the predecessor company. See, e.g., *Industrial Phosphoric Acid from Israel: Final Results of Changed Circumstances Review*, 59 FR 6944, 6945 (February 14, 1994), and *Canadian Brass*, 57 FR 20460. Thus, if the record evidence demonstrates that, with respect to the production and sale of the subject merchandise, the new company operates as the same business entity as the predecessor company, the Department may assign the new company the cash deposit rate of its predecessor. See, e.g., *Fresh and Chilled Atlantic Salmon from Norway: Final Results of Changes Circumstances Antidumping Duty Administrative Review*, 64 FR 9979, 9980 (March 1, 1999). Although Inabata/Troon

submitted information indicating that, with respect to subject merchandise, it operates in the same manner as its predecessor, Green Tree argues that the operations of Inabata/Troon and its predecessor differ in a number of respects, and the differences affect the production cost and sales price of subject merchandise.

Concerning Inabata/Troon's request that the Department conduct an expedited antidumping duty changed circumstances review, the Department has determined that it would be inappropriate to expedite this action by combining the preliminary results of review with this notice of initiation, as permitted under 19 CFR 351.221(c)(3)(ii). Because of the parties' differing views and the Department's need for additional information, which we will address in a questionnaire to be issued in the near future to Inabata/Troon, the Department finds that expedited action is impracticable. Therefore, the Department is not issuing the preliminary results of its antidumping duty changed circumstances review at this time.

The Department will publish in the **Federal Register** a notice of preliminary results of antidumping duty changed circumstances review, in accordance with 19 CFR 351.221(b)(4) and 19 CFR 351.221(c)(3)(i). This notice will set forth the factual and legal conclusions upon which our preliminary results are based and a description of any action proposed based on those results. Pursuant to 19 CFR 351.221(b)(4)(ii), interested parties will have an opportunity to comment on the preliminary results of review. In accordance with 19 CFR 351.216(e), the Department will issue the final results of its antidumping duty changed circumstances review not later than 270 days after the date on which the review is initiated.

During the course of this antidumping duty changed circumstances review, we will not change the cash deposit requirements for the merchandise subject to review, unless a change is determined to be warranted pursuant to the final results of this review.

This notice of initiation is in accordance with sections 751(b)(1) of the Act and 19 CFR 351.221(b)(1) of the Department's regulations.

Dated: May 8, 2003.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 051303C]

Gulf of Mexico Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Gulf of Mexico Fishery Management Council will convene a public meeting.

DATES: The meeting will be held on June 5-6, 2003.

ADDRESSES: These meetings will be held at the New Orleans Airport Plaza Hotel and Conference Center, 2150 Veterans Boulevard, Kenner, LA; telephone: 504-467-3111.

Council address: Gulf of Mexico Fishery Management Council, 3018 U.S. Highway 301 North, Suite 1000, Tampa, FL 33619.

FOR FURTHER INFORMATION CONTACT: Wayne E. Swingle, Executive Director, Gulf of Mexico Fishery Management Council; telephone: (813) 228-2815.

SUPPLEMENTARY INFORMATION:

Council

June 5

8:30 a.m.—Convene.

8:40 a.m.—12 noon—Receive public testimony on the draft environmental impact statement (DEIS) for the Essential Fish Habitat (EFH) Generic Amendment. The amendment contains alternatives for specifying EFH, habitat areas of particular concern (HAPCs), and impacts of fishing on EFH.

1:30 p.m.—4:30 p.m.—Receive comments on the DEIS for the EFH Generic Amendment.

4:00 p.m.—5:30 p.m.—Section by section review and revision of DEIS.

June 6

8:30 a.m.—12 noon—Continue section by section review and revision of DEIS.

1:30 a.m.—2:30 p.m.—Continue section by section review and revision of DEIS.

2:30 p.m.—3 p.m.—Other Business.

Although non-emergency issues not contained in the agenda may come before the Council for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act (MSFCMA), those issues may not be the subject of formal Council action during this meeting. Council action will be restricted to those issues specifically

identified in this notice and any issues arising after publication of this notice that require emergency action under section 305 (c) of the MSFCMA, provided the public has been notified of the Council's intent to take final action to address the emergency. A copy of the agenda can be obtained by calling (813) 228-2815.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Anne Alford at the Council (see **ADDRESSES**) by May 30, 2003.

Dated: May 13, 2003.

Richard W. Surdi,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

National Estuarine Research Reserve System

AGENCY: Office of Ocean and Coastal Resource Management (OCRM), National Ocean Service (NOS), National Oceanic and Atmospheric Administration, Department of Commerce.

ACTION: Notice of public meeting in Rockport, Texas on the site selection process for the nomination of a candidate site for the National Estuarine Research Reserve System.

DATES: Wednesday, June 11, 2003 at 2 p.m.

ADDRESSES: Saltwater Pavilion, 810 Seabreeze Drive, Rockport Beach Park, Rockport, Texas 78383.

SUMMARY: In accordance with section 315 of the Coastal Zone Management Act of 1972, as amended, the State of Texas and the National Oceanic and Atmospheric Administration (NOAA) intend to conduct a public meeting on June 11, 2003 in Rockport, Texas as part of NOAA's site selection process for the nomination of a candidate site for the National Estuarine Research Reserve System (Reserve System).

SUPPLEMENTARY INFORMATION: The mission of the Reserve System is to promote stewardship of the nation's estuaries through science and education using a system of protected areas. NOAA has developed a classification

scheme and typology of national estuarine areas that places the coastlines of the United States into biogeographic regions and subregions. Reserves are selected to represent these biogeographic regions and subregions and the wide range of coastal and estuarine habitats found in the United States.

Site selection criteria for a new reserve are based on environmental representativeness; value for research, monitoring, education, interpretation, and stewardship; acquisition and accessibility considerations; and coastal management considerations. The site ultimately designated will be used by researchers, educators, and the general public to study estuarine ecology and resource management issues that can aid in coastal policymaking and management decisions.

During the past year, the State of Texas in consultation with NOAA has undertaken a process to identify a site that adequately represents the major estuarine characteristics of a coastal ecosystem in the western Gulf of Mexico. An estuary located in Texas would be the first site to represent the Western Gulf Subregion of the Louisianian Biogeographic Region (Galveston to Mexico).

After consideration of several possible sites along the Texas coast, the Texas National Estuarine Research Reserve Site Selection Committee and Site Evaluation Subcommittee have selected Mission/Aransas Estuary located on the central Texas coast as a candidate site for nomination as a potential reserve. The public meeting is being held to provide details and solicit comments on this proposed site.

At the public meeting, the University of Texas at Austin Marine Science Institute will provide an overview of the Reserve System Program, the Texas site selection process, a physical description of the proposed site, and an open question and answer period.

Following the public meeting, a site nomination document will be finalized based on existing research documents and literature, and comments received from NOAA, the Texas Site Selection Committee and Site Evaluation Subcommittee, and the general public. The final site selection document will then be sent to the Governor of Texas for approval. If approved, the Governor will forward the site selection package and a nomination letter to NOAA for final clearance. A draft and final Environmental Impact Statement and Management Plan must be prepared prior to final site designation.

The public meeting will be held on Wednesday, June 11, 2003 at 2 p.m. at

the Saltwater Pavilion, 810 Seabreeze Drive within the Rockport Beach Park, Rockport, Texas 78383. Interested parties who wish to comment on the site selection are invited to attend.

FOR FURTHER INFORMATION CONTACT: Paul Montagna, University of Texas at Austin Marine Science Institute at (361) 749-6779 or paul@utmsi.utexas.edu; or Nathalie Peter, Project Manager, Estuarine Reserves Division, Office of Ocean and Coastal Resource Management, NOAA, at (301) 713-3155, extension 119, or nathalie.peter@noaa.gov.

Federal Domestic Assistance Catalog Number 11.420 (Coastal Zone Management) Research Reserves.

Dated: May 9, 2003.

Jamison S. Hawkins,

Acting Assistant Administrator, Ocean Services and Coastal Zone Management, National Oceanic and Atmospheric Administration.

[I.D. 051303B]

New England Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce

ACTION: Notice of public meetings.

SUMMARY: The New England Fishery Management Council (Council) is scheduling a public meeting of its Enforcement Oversight Committee and Advisory Panel and a Joint Meeting of its Herring Oversight and Advisory Panel in June, 2003 to consider actions affecting New England fisheries in the exclusive economic zone (EEZ). Recommendations from these groups will be brought to the full Council for formal consideration and action, if appropriate.

DATES: The meetings will be held on June 2 and June 3, 2003. See **SUPPLEMENTARY INFORMATION** for specific dates and times.

ADDRESSES: The meetings will be held in Portsmouth, NH and Portland, ME. See **SUPPLEMENTARY INFORMATION** for specific locations.

Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.
