Description: The Office of Workers' Compensation Program (OWCP) administers the Longshore and Harbor Workers' Compensation Act. This Act provides benefits to workers inquired in maritime employment on the navigable waters of the United States or in an adjoining area customarily used by an employer in loading, unloading, repairing, or building a vessel. Under section 14(g) of the Act, the employer or its insurance carrier must file a report of the compensation paid to a claimant at the time final payment is made. BILLING CODE 4510-29-P

DEPARTMENT OF LABOR

Employment Standards Administration; Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR part 1, Appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be

impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedeas decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, NW., Room S-3014, Washington, DC 20210.

Modification to General Wage Determination Decisions

The number of the decisions listed to the Government Printing Office document entitled "General Wage Determinations Issued Under the Davis-Bacon and Related Acts" being modified are listed by Volume and State. Dates of publication in the **Federal Register** are in parentheses following the decisions being modified.

Atomic Safety and Licensing Board; Before Administrative Judges: Ann Marshall Young, Chair, Dr. Peter S. Lam, Thomas D. Murphy; In the Matter of Connecticut Yankee Atomic Power Company (Haddam Neck Plant)

January 27, 2003.

Notice of Evidentiary Hearing and Opportunity To Make Limited Appearance Statements

This Atomic Safety and Licensing Board hereby gives notice that, beginning on Monday, March 10, 2003, it will convene an evidentiary hearing in New Britain, Connecticut, to receive testimony and exhibits and to allow the cross-examination of witnesses on certain matters at issue in this proceeding. In addition, the Board gives notice that, in accordance with 10 CFR 2.715(a), it will also entertain oral limited appearance statements from members of the public, as specified in Section B below.

This proceeding involves certain challenges of Intervenor Citizens Awareness Network (CAN) to a license amendment request by Connecticut Yankee Atomic Power Company (CYAPCO or Connecticut Yankee), seeking approval of a License Termination Plan (LTP) for its Haddam Neck Plant. (Intervenor Connecticut Department of Public Utility Control (CDPUC) has settled all its admitted contentions with CYAPCO, but continues to participate in the proceeding as an interested state.) On January 31, 2001, this Licensing Board was established to preside over this proceeding. 66 FR 9111 (Feb. 6, 2001). By Memorandum and Order dated July 9, 2001, the Licensing Board granted CAN's and CDPUC's requests for a hearing, and on July 12, 2001, issued a Notice of Hearing. 66 FR 37494 (July 18, 2001).

At the evidentiary hearing, the Board will receive evidence on CAN's challenges to the adequacy of certain aspects of the LTP to assure the protection of the public health and safety, relating to Connecticut Yankee's site characterization and methodology for detection and cleanup of transuranic, hard-to-detect-nuclide, and "hot particle" contamination; and to its dose modeling calculation methodology.
