

In addition to one complete version of the comment that includes any information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket and EPA Dockets. If you submit the copy that does not contain CBI on disk or CD ROM, mark the outside of the disk or CD ROM clearly that it does not contain CBI. Information not marked as CBI will be included in the public docket and EPA Dockets without prior notice. If you have any questions about CBI or the procedures for claiming CBI, please consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

II. Background

A. What Action is the Agency Taking?

The Agency has issued a RED for the pesticide active ingredient dinocap. Under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended in 1988, EPA is conducting an accelerated reregistration program to reevaluate existing pesticides to make sure they meet current scientific and regulatory standards. The RED for dinocap consists of a voluntary cancellation of all products registered in the U.S. Because the registrant, Dow AgroSciences, LLC, has expressed interest in retaining existing tolerances for apples and grapes for import purposes, the RED presents only a dietary risk assessment for those uses and specifically addresses the data requirements for support of the import

tolerances. The RED also provides background information on the pesticide registration, reregistration and tolerance reassessment, an overview of the uses and health effects associated with dinocap and a summary of what data are required to support the tolerances on apples and grapes imported into the U.S., in the absence of a U.S. registration.

The reregistration program is being conducted under congressionally mandated time frames, and EPA recognizes both the need to make timely reregistration decisions and to involve the public. Therefore, EPA is issuing this RED for dinocap as a final document with a 30-day public comment period that is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the RED. If any comment significantly affects this RED, EPA will amend the RED by publishing the amendment in the **Federal Register**.

B. What Is the Agency's Authority for Taking This Action?

The legal authority for this RED falls under FIFRA, as amended in 1988 and 1996. Section 4(g)(2)(A) of FIFRA directs that, after submission of all data concerning a pesticide active ingredient, "the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration," before calling in product-specific data on individual end-use products, and either reregistering products or taking "other appropriate regulatory action."

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the appropriate docket ID number.

Certain types of information will not be placed in EPA's Dockets. Information claimed as CBI and other information whose disclosure is restricted by statute, which is not included in the official public docket, will not be available for public viewing in EPA's electronic public docket. C. How and to Whom Do I Submit Comments?

You may submit comments electronically, by mail, or through hand delivery/courier. To ensure proper receipt by EPA, identify the appropriate docket ID number in the subject line on the first page of your comment. Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments. If you wish to submit CBI or information that is otherwise protected by statute, please follow the instructions in Unit I.D. Do not use EPA Dockets or e-mail to submit CBI or information protected by statute.

1. *Electronically.* If you submit an electronic comment as prescribed in this unit, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment. Also include this contact information on the outside of any disk or CD ROM you submit, and in any cover letter accompanying the disk or CD ROM. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. EPA's policy is that EPA will not edit your comment, and any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

i. *EPA Docket.* Your use of EPA's electronic public docket to submit comments to EPA electronically is EPA's preferred method for receiving comments. Go directly to EPA Dockets at <http://www.epa.gov/edocket/> and follow the online instructions for submitting comments. Once in the system select "search," and then key in docket ID number OPP-2003-0184. D. How Should I Submit CBI to the Agency?

Do not submit any information that you consider to be CBI electronically through EPA's electronic public docket or by e-mail. You may claim information that you submit to EPA as CBI by marking any part or all of that information as CBI (if you submit CBI on disk or CD ROM, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM as CBI the specific information that is CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

In addition to one complete version of the comment that includes any information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket and EPA's electronic public docket. If you submit the copy that does not contain CBI on disk or CD ROM, mark the outside of the disk or CD ROM clearly that it does not contain CBI. Information not marked as CBI will be included in the public docket and EPA's

electronic public docket without prior notice. If you have any questions about CBI or the procedures for claiming CBI, please consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

II. Background

What Action is the Agency Taking?

This notice announces receipt by the Agency of requests from Syngenta Protection Crop, Inc. and Helm Agro US, Inc. to cancel the registration of 14 pesticide products registered under section 3 or 24(c) of the Federal Insecticide, Fungicide, and Rodenticide

Act (FIFRA). The 14 registrations constitute all registrations held by Syngenta Crop Protection, Incorporated and Helm Agro US, Incorporated of products containing *S*-ethyl hexahydro-1H-azepine-1-carbothioate (molinate). These requests are submitted pursuant to section 6(f) of FIFRA.

On June 2, 2003, Syngenta Crop Protection, Inc., and on August 7, 2003, Helm Agro US, Inc. submitted a letter to EPA requesting cancellation, effective June 30, 2008, of the registrations of all their molinate products, and to modify the terms and conditions of its molinate

registration until the cancellation is effective. Syngenta and Helm also requested that the Administrator waive the 180-day waiting period under FIFRA section 6(f)(1)(C)(ii).

Molinate (*S*-ethyl hexahydro-1H-azepine-1-carbothioate) is a thiocarbamate herbicide registered for use primarily for the control of water grass in rice. Rice is grown in California and the south central/south eastern states of Arkansas, Louisiana, Missouri, Texas, and Tennessee. The registrations subject to the requests for cancellation are listed in Table 1 of this unit:

At the close of the comment period, EPA intends to issue an order granting these cancellation requests, unless the Agency receives substantive comments within the comment period that would merit its further review of these requests, or the requests have been withdrawn. Users of these pesticides or anyone else desiring the retention of a registration should send in their comments to EPA. In addition, they may wish to contact the applicable registrant directly.

Table 2 of this unit includes the name and address of record for the registrants of the products in Table 1 of this unit:

TABLE 2.—REGISTRANTS REQUESTING VOLUNTARY CANCELLATION

EPA Company number	Company name and address
100	Syngenta Crop Protection, Inc., P.O. Box 18300, Greensboro, NC 27419-8300
74530	Helm Agro US, Inc., Nordkanalstrasse 28 D-20097, Hamburg, Germany

A. Modification of the Terms and Conditions of the Molinate Registrations

The 2002 sales level of the molinate active ingredient will be the maximum amount that Syngenta and Helm will sell or distribute in 2004, 2005, and 2006. Syngenta and Helm may not sell or distribute any more than 75% of the 2002 sales levels in the year 2007, and sell or distribute more than 50% of the 2002 sales levels in the year 2008.

Syngenta and Helm will provide annual production/sales reports to the Agency beginning in the year 2004 through 2009. Syngenta and Helm will also provide inventory reports for the years 2007, 2008, and 2009. These

reports will be submitted by September 30 of each year to the Chemical Review Manager for molinate.

Failure by either registrant to comply with the sale or distribution limits contained in the molinate registration constitutes grounds for immediate cancellation of the registration without opportunity for a hearing.

III. What Is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register** and provide a 30-day period in which the public may comment before the Agency may act on the request for voluntary cancellation. In the case of minor agricultural uses, section 6(f)(1)(c) of FIFRA provides for a 180-day comment period under certain circumstances. In this case, both molinate registrants requested that EPA waive the 180-day comment period. Accordingly, pursuant to section 6(f)(1)(c)(ii) of FIFRA, EPA is waiving the 180-day comment period, and will provide interested parties 30 days to comment on the action.

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**, postmarked before October 17, 2003. This written withdrawal of the request for cancellation will apply only to the applicable FIFRA section 6(f)(1) request listed in this notice. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling. The withdrawal request must also include a commitment to pay any reregistration fees due, and to fulfill any applicable unsatisfied data requirements. Any person, including the registrant, who wants to support the continued registration of molinate, must fulfill all outstanding data gaps. In addition, EPA must find that molinate is eligible for reregistration.

V. Provisions for Disposition of Existing Stocks

The Agency intends to issue a cancellation order following the consideration of all comments received during the comment period, unless the comments warrant further review of this

request. Any cancellation order issued in response to this request will have an expected effective date of June 30, 2008.

After that date, Syngenta and Helm may not sell or distribute any molinate products except as detailed in the cancellation order as follows. Syngenta and Helm will be permitted to distribute the molinate active ingredient in 2009 for the purposes of facilitating usage by August 31, 2009. No use of products containing molinate will be permitted after the 2009 growing season (August 31, 2009).
