[NAFTA-6506]

**Motorola, Incorporated,  
Semiconductor Products Sector,  
Bipolar Manufacturing Center,  
Including Workers of the Facilities  
Workgroup, Mesa, AZ; Amended  
Certification Regarding Eligibility To  
Apply for NAFTA-Transitional  
Adjustment Assistance**

In accordance with Section 250(a), Subchapter D, Chapter 2, Title II, of the Trade Act of 1974, as amended (19 U.S.C. 2273), the Department of Labor issued a Certification of Eligibility to Apply for NAFTA-Transitional Adjustment Assistance on September 24, 2002, applicable to all workers of Motorola, Incorporated, Semiconductor Products Center, BiPolar Manufacturing Center, Mesa, Arizona. The notice was published in the **Federal Register** on October 10, 2002 (67 FR 36160).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. The workers produced sensor wafers. Information provided by the subject firm shows that although workers employed in the Facilities Workgroup or in "Site Services" were not employees of the BiPolar Manufacturing Center, they maintained plant facilities and supported production at the facility.

Based on this information, the Department is amending the certification to include workers of the Facilities Workgroup engaged in employment related to the production of pressure sensor wafers at the subject firm.

The intent of the Department's certification is to include all workers of the subject firm who were adversely affected by the shift in production of pressure sensor wafers to Canada.

The amended notice applicable to NAFTA-6506 is hereby issued as follows:

All workers of Motorola, Incorporated, Semiconductor Products Center, BiPolar Manufacturing Center, Mesa, Arizona, engaged in the production of sensor pressure wafers, and including workers in the Facilities Workgroup at the site who became totally or partially separated from employment on or after August 26, 2001, through September 24, 2004 are eligible to apply for NAFTA-TAA under Section 250 of the Trade Act of 1974.

Signed at Washington, DC this 16th day of May 2003.

[NAFTA-5163]

**Tyco Electronics, Fiber Optics  
Division, Glen Rock, PA; Notice of  
Revised Determination on Remand**

The United States Court of International Trade (USCIT) remanded to the Department of Labor for further consideration and investigation of the negative determination on reconsideration on remand in *Former Employees of Tyco Electronics, Fiber Optics Division v. U.S. Secretary of Labor* (Court No. 02-00152).

The Department's initial denial of NAFTA-Transitional Adjustment Assistance (NAFTA-5163) for the workers of Tyco Electronics, Fiber Optics Division, Glen Rock, Pennsylvania, issued on September 28, 2001 and published in the **Federal Register** on October 19, 2001 (66 FR 53252), was based on the finding that criteria (3) and (4) were not met. The investigation concluded that imports from Canada or Mexico did not contribute importantly to workers' separations, and that the predominant cause of the worker separations was a domestic transfer of production to an affiliated facility in Harrisburg, Pennsylvania.

On January 22, 2002, the Department issued a Notice of Negative Determination Regarding Application for Reconsideration for NAFTA-5163 and published the determination in the **Federal Register** on February 5, 2002 (67 FR 5299).

The petitioners alleged in the request for reconsideration that plant production was shifted to an affiliated plant located in Mexico. Information provided by the company at that time showed that any production shifted from the subject plant to Mexico during the relevant period was negligible. That information suggested that an overwhelming (over 98%) portion of plant production was transferred to Harrisburg, Pennsylvania during the relevant period.

The petitioners appealed to the U.S. Court of International Trade, and on voluntary remand, the Department

requested company-wide sales figures of the article(s) produced at the subject plant and a list of the major declining customers of the subject plant. The figures for the Fiber Optics Division showed increases in sales from 1999 to 2000 and decreases in sales from the January through September 2001 period from the corresponding 2000 period.

Because the company reported declining sales at the Fiber Optics Division during the relevant period, the Department conducted a survey of the subject firm's major declining customers regarding their purchases of fiber optic cable assemblies, components, and value-added enclosures during 1999, 2000, January through September 2001, and January through September 2000.

The surveys revealed that none of the major declining customers increased imports of the relevant articles from Canada or Mexico during the relevant period.

On the current, court-ordered remand, the Department requested and obtained new and additional information and clarification from the company regarding plant production shifts to Mexico. Upon careful review of the new data, it has been determined more than a negligible portion of production was shifted to Mexico during the relevant period.

**Conclusion**

After careful review of the additional facts obtained on the current remand, I conclude that there was a shift of production to Mexico that contributed importantly to the worker separations and sales or production declines at the subject facility. In accordance with the provisions of the Trade Act, I make the following certification:

All workers of Tyco Electronics, Fiber Optics Division, Glen Rock, Pennsylvania who became totally or partially separated from employment on or after July 27, 2000, through two years from the issuance of this revised determination, are eligible to apply for NAFTA-TAA under Section 250 of the Trade Act of 1974.

Signed at Washington, DC this 25th day of June, 2003.

## NUCLEAR REGULATORY COMMISSION

### Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

**AGENCY:** Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of the OMB review of information collection and solicitation of public comment.

**SUMMARY:** The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it

displays a currently valid OMB control number.

1. *Type of submission, new, revision, or extension:* Revision.

2. *The title of the information collection:* DOE/NRC Form 742, "Material Balance Report" and NUREG/BR-0007, "Instructions for the Preparation and Distribution of Material Status Reports".

3. *The form number if applicable:* DOE/NRC Form 742.

4. *How often the collection is required:* DOE/NRC Form 742 is submitted annually following a physical inventory of nuclear materials.

5. *Who will be required or asked to report:* Persons licensed to possess specified quantities of special nuclear or source material.

6. *An estimate of the number of annual responses:* 200.

7. *The estimated number of annual respondents:* 200 licensees.

8. *An estimate of the total number of hours needed annually to complete the requirement or request:* 1,000 hours.

9. *An indication of whether Section 3507(d), Pub. L. 104-13 applies:* N/A.

10. *Abstract:* Each licensee authorized to possess special nuclear material totaling more than 350 grams of contained uranium-235, uranium-233, or plutonium, or any combination thereof, and any licensee authorized to possess 1,000 kilograms of source material is required to submit DOE/NRC Form 742. Reactor licensees required to submit DOE/NRC Form 742, and facilities subject to 10 CFR part 75, are required to submit DOE/NRC Form 742C. The information is used by NRC to fulfill its responsibilities as a participant in US/IAEA Safeguards Agreement and bilateral agreements with Australia and Canada, and to satisfy its domestic safeguards responsibilities.
