NATIONAL SCIENCE FOUNDATION

Advisory Committee for Computer and Information Science and Engineering; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting:

Name: Advisory Committee for Computer and Information Science and Engineering—(1115).

Date and Time: April 25, 2003: 8 a.m. to 3:30 p.m.

Place: National Science Foundation, 4201 Wilson Blvd., room 1235, Arlington, VA 22203.

Type of Meeting: Open.

Contact Person: Gwen Barber-Blount, Office of the Assistant Director, Directorate for Computer and Information Science and Engineering, National Science Foundation, 4201 Wilson Blvd., Suite 1105, Arlington, VA 22230. Telephone: (703) 292-8900.

Minutes: May be obtained from the contact person listed above.

Purpose of Meeting: To advise NSF on the impact of its policies, programs and activities on the CISE community. To provide advice to the Assistant Director/CISE on issues related to long range planning, and to form ad hoc subcommittees to carry out needed studies and tasks.

Agenda: Report from the Assistant Director. Discussion of Information Technology Research. CISE Research Education Themes and Cyber Infrastructure.

Dated: March 14, 2003.

Susanne Bolton,

Committee Management Officer.

[FR Doc. 03-6905 Filed 3-21-03; 8:45 am]

BILLING CODE 7555-01-M

NATIONAL SCIENCE FOUNDATION

Advisory Committee for Environmental Research and Education; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting:

Name: Advisory Committee for Environmental Research and Education (9487).

Dates: April 16, 2003, 8:30 a.m.-5 p.m. and April 17, 2003, 9 a.m.-2:30 p.m.

Place: Stafford I, RM 1235, National Science Foundation, 4201 Wilson Blvd., Arlington, VA.

Type of Meeting: Open.

Contact Person: Dr. Margaret Cavanaugh, Office of the Director, National Science Foundation, Suite 1205, 4201 Wilson Blvd., Arlington, Virginia 22230. Phone 703-292-8002.

Minutes: May be obtained from the contact person listed above.

Purpose of Meeting: To provide advice, recommendations, and oversight concerning support for environmental research and education.

Agenda:

April 16—

Update on "rollout" of ACERE "Synthesis" report

Update on recent NSF environmental activities

Discussion of potential ACERE mini-reports

Panel presentations and discussion of Synthesis: Economics and Environment

April 17—

Meeting with the Director

Continued discussion of topics from previous day

AC-ERE Task Group Meetings and Reports

Dated: March 18, 2003.

Susanne Bolton,

Committee Management Officer.

[FR Doc. 03-6906 Filed 3-21-03; 8:45 am]

NATIONAL SCIENCE FOUNDATION

Advisory Committee for Polar Programs; Notice of Meeting

In accordance with Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting:

Name: Office of Polar Programs Advisory Committee (1130).

Date/Time: May 29, 2003; 8 a.m. to 5 p.m., May 30, 2003; 8 a.m. to 3 p.m.

Place: National Science Foundation, 4201 Wilson Blvd., Room: 555, Stafford II, Arlington, VA 22230.

Type of Meeting: Open.

Contact Person: Altie Metcalf, Office of Polar Programs (OPP), National Science

Foundation, 4201 Wilson Boulevard, Arlington, VA 22230. (703) 292-8030.

Minutes: May be obtained from the contact person listed above.

Purpose of Meeting: To advise NSF on the impact of its policies, programs and activities on the polar research community; to provide advice to the Director of OPP on issues related to long range planning, and to form ad hoc subcommittees to carry out needed studies and tasks.

Agenda: Discussion of NSF-wide initiatives and long-range planning.

Dated: March 18, 2003.

Susanne Bolton,

Committee Management Officer.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-395]

South Carolina Electric & Gas Company; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of South Carolina Electric & Gas Company (the licensee) to withdraw its June 27, 2002, application for proposed amendment to Facility Operating License No. NPF-12 for the Virgil C. Summer Nuclear Station, Unit No. 1, located in Fairfield County, South Carolina.

The proposed amendment would have added an Allowed Outage Time to Table 3.3-3, Engineered Safety Features Actuation System Instrumentation, Action 16.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on July 23, 2002 (67 FR 48221). However, by letter dated February 25, 2003, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated June 27, 2002, and the licensee's letter dated February 25, 2003, which withdrew the application for license amendment. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams/html>.

Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737 or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 18th day of March 2003.

For the Nuclear Regulatory Commission.

Karen R. Cotton,

Project Manager, Section 1, Project Directorate II, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

[FR Doc. 03-6951 Filed 3-21-03; 8:45 am]

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 04008155]

Finding of No Significant Impact Related to H.C. Starck, Inc.'s Amendment Request To Authorize Decommissioning of Its Coldwater, Michigan Facilities

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) is issuing a license amendment of Source Material License No. STB-1161 to authorize decommissioning of the H.C. Starck, Inc. facilities in Coldwater, Michigan, and has prepared an Environmental Assessment in support of this action. Based upon the Environmental Assessment, the NRC has concluded that a Finding of No Significant Impact is appropriate, and therefore, an Environmental Statement is unnecessary.

II. EA Summary

The EA was prepared to evaluate the environmental impacts of the proposed amendment to H.C. Starck, Inc. Source Material No. STB-1161, to authorize H.C. Starck to remediate residual thorium contamination resulting from licensed activities at their facilities at 460 Jay Street, Coldwater, Michigan. H.C. Starck, Inc. has been licensed for the possession and use of thorium-232 at their facilities in Coldwater, Michigan, since 1973. The H.C. Starck facilities consist of six primary structures: A main production plant, Jolter Building, Former Polymer Building, a wastewater pretreatment building, and two pole-barn storage buildings. The facility is in a rural area of southern Michigan about two miles southwest of downtown Coldwater. Branch County is largely agricultural with farms occupying 70 percent of the

land. Non-residential land use in the vicinity of the Starck site primarily consists of agricultural, industrial, commercial, and retail facilities. The nearest residence is within 1,000 feet of the H.C. Starck facility. Soil sampling conducted by H.C. Starck indicates that no radiological contamination has migrated outside the buildings. In addition, there is no evidence that any onsite burial of radiological material ever occurred. Because no remediation is required outside of the buildings, decontamination activities are not expected to have any impact on the environment. Furthermore, no long-term environmental monitoring is expected to be necessary as a result of licensed activities. Because H.C. Starck will continue to operate the facility at the same staffing levels following termination of licensed operations, no socioeconomic impact is anticipated on the employees or within the community. It is anticipated that the total amount of dry solid low level radioactive waste (LLRW) generated from decommissioning activities will be less than 1,000 cubic feet. Waste may be stored onsite in the radioactive waste storage vault or other appropriate secure location while it is being consolidated for shipment to Envirocare of Utah. Any liquid waste generated during decommissioning will be sampled, and the results will be compared to current discharge limits prior to disposal directly into the facility effluent stream or to the facility treatment plant. No radiological dose is expected to a member of the public as a result of the decommissioning activities. For occupational dose estimates, H.C. Starck will employ properly trained and experienced personnel who will apply industry accepted ALARA (as-low-as-reasonably-achievable) principals to minimize exposures during decontamination activities. Decontamination workers are not expected to receive a dose greater than 10 millirem during the expected 6 to 8 weeks of decommissioning activities. Dose assessments were performed to estimate the potential dose to a future site occupant working at the H.C. Starck facility. This average member of the critically exposed group would be exposed to post-decontamination levels of natural thorium contamination. The modeling results determined that a maximum dose rate to a future occupant is 23 millirem/year. This dose rate decreases to about 2 millirem/year after 2.8 years based on the source lifetime for the residual removable contamination on the walls, floor and ceiling. Accordingly, it has been

determined that a Finding of No Significant Impact is appropriate.

H.C. Starck's request for the proposed action was previously noticed in the **Federal Register** on October 11, 2002 (67 FR 63457), along with a notice of an opportunity to request a hearing and an opportunity to provide public comment on the action and its environmental impacts.

III. Finding of No Significant Impact

Based on this EA, as summarized above, the NRC has concluded that this licensing action would not have any significant effect on the quality of the human environment, and therefore, an environmental impact statement is unnecessary.

IV. Further Information

Any questions with respect to this action should be referred to Mr. William Snell, Division of Nuclear Materials Safety, U.S. Nuclear Regulatory Commission, Region III, 801 Warrenville Road, Lisle, Illinois 60532-4351; telephone (630) 829-9871 or by email at wgs@nrc.gov.

H.C. Starck's request for the proposed action (ADAMS Accession No. ML022550372) and the NRC's complete Environmental Assessment (ADAMS Accession No. ML030660370) are available for inspection and copying for a fee in the U.S. Nuclear Regulatory Commission, Region III, 801 Warrenville Rd., Lisle, Illinois. The documents, along with most others referenced in the EA, are available for public review through ADAMS at NRC's Public Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>.

Dated in Lisle, Illinois, this 12th day of March, 2003.

Christopher G. Miller,

Chief, Decommissioning Branch, Division of Nuclear Material Safety, RIII.

NUCLEAR REGULATORY COMMISSION

Advisory Committee on the Medical Uses of Isotopes: Meeting Notice

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of meeting.

SUMMARY: The U.S. Nuclear Regulatory Commission will convene a meeting of the Advisory Committee on the Medical Uses of Isotopes (ACMUI) on May 20-21, 2003. The meeting will take place at the address provided below. All sessions of the meeting will be open to
