

Tuesday, April 8, 2003 at 9:30 a.m. – Groundfish Oversight Committee Meeting.

Location: Sheraton Colonial, One Audubon Road, Wakefield, MA 01880; telephone: (781) 245-9300.

The committee will meet to continue development of Amendment 13 to the Northeast Multispecies (FMP). They will provide additional advice and guidance in order to clarify the management measures that have been identified for the Amendment. They will also refine the measures for administering a hard Total Allowable Catch (TAC), will consider and act on advice from the NMFS on improvements to other measures, and will develop recommendations to improve the administration of an alternative to use fishing years 1996 through 2001 as the baseline period for establishing effective days-at-sea for limited access permits. The Committee will receive a report on measures to implement a U.S./Canada resource sharing understanding and may develop additional recommendations for the Council's consideration. Also on the agenda is the review analysis of rebuilding periods and reference points provided by the Plan Development Team.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Paul J. Howard (see ADDRESSES) at least 5 days prior to the meeting dates.

Dated: March 19, 2003.

Matteo J. Milazzo,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-S

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Request for Public Comments on a Commercial Availability Request under the Andean Trade Promotion and Drug Eradication Act (ATPDEA)

March 20, 2003.

AGENCY: The Committee for the Implementation of Textile Agreements (CITA).

ACTION: Request for public comments concerning a request for a determination that certain cotton corduroy fabrics, for use in apparel articles, cannot be supplied by the domestic industry in commercial quantities in a timely manner under the ATPDEA.

SUMMARY: On March 17, 2003 the Chairman of CITA received a petition from Breaker Jeanswear/ARC International alleging that certain dyed cotton corduroy fabrics (see Annex I for product specifications), classified in subheading 5801.22.90 of the Harmonized Tariff Schedule of the United States (HTSUS), for use in apparel articles including men's and boys' jackets and pants, women's and girls' jackets, dresses, skirts, shorts, and pants, cannot be supplied by the domestic industry in commercial quantities in a timely manner. It requests that apparel of such fabrics be eligible for preferential treatment under the ATPDEA. CITA hereby solicits public comments on this request, in particular with regard to whether such fabrics can be supplied by the domestic industry in commercial quantities in a timely manner. Comments must be submitted by April 8, 2003, to the Chairman, Committee for the Implementation of Textile Agreements, Room 3001, United States Department of Commerce, 14th and Constitution Avenue, N.W. Washington, D.C. 20230.

FOR FURTHER INFORMATION CONTACT: Contact: Richard Stetson, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-3400.

SUPPLEMENTARY INFORMATION:

Authority: Section 204 (b)(3)(B)(ii) of the ATPDEA, Presidential Proclamation 7616 of October 31, 2002, Executive Order 13277 of November 19, 2002, and the United States Trade Representative's Notice of Further Assignment of Functions of November 25, 2002.

BACKGROUND:

The ATPDEA provides for quota- and duty-free treatment for qualifying textile and apparel products. Such treatment is generally limited to products

manufactured from yarns and fabrics formed in the United States or a beneficiary country. The ATPDEA also provides for quota- and duty-free treatment for apparel articles that are both cut (or knit-to-shape) and sewn or otherwise assembled in one or more ATPDEA beneficiary countries from fabric or yarn that is not formed in the United States or a beneficiary country, if it has been determined that such fabric or yarn cannot be supplied by the domestic industry in commercial quantities in a timely manner. Pursuant to Executive Order No. 13277 (FR 70305) and the United States Trade Representative's Notice of Redesignation of Authority and Further Assignment of Functions (FR Doc. 02-30427), the President's authority to determine whether yarns or fabrics cannot be supplied by the domestic industry in commercial quantities in a timely manner under the ATPDEA has been delegated to CITA.

On March 17, 2003, the Chairman of CITA received a petition from Breaker Jeanswear/ARC International of Miami, Florida, alleging that certain dyed cotton corduroy fabrics, (see Annex I for product specifications), classified in subheading 5801.22.90 of the Harmonized Tariff Schedule of the United States (HTSUS), for use in apparel articles including men's and boys' jackets and pants, women's and girls' jackets, dresses, skirts, shorts, and pants, cannot be supplied by the domestic industry in commercial quantities in a timely manner and requesting quota- and duty-free treatment under the ATPDEA for apparel articles that are both cut and sewn in one or more ATPDEA beneficiary countries from such fabrics.

CITA is soliciting public comments regarding this request, particularly with respect to whether these fabrics can be supplied by the domestic industry in commercial quantities in a timely manner. Also relevant is whether other fabrics that are supplied by the domestic industry in commercial quantities in a timely manner are substitutable for these fabrics for purposes of the intended use. Comments must be received no later than April 8, 2003. Interested persons are invited to submit six copies of such comments or information to the Chairman, Committee for the Implementation of Textile Agreements, room 3100, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, DC 20230.

If a comment alleges that these fabrics can be supplied by the domestic industry in commercial quantities in a timely manner, CITA will closely

review any supporting documentation, such as a signed statement by a manufacturer of the fabrics stating that it produces the fabrics that are the subject of the request, including the quantities that can be supplied and the time necessary to fill an order, as well as any relevant information regarding past production.

CITA will protect any business confidential information that is marked business confidential from disclosure to the full extent permitted by law. CITA will make available to the public non-confidential versions of the request and non-confidential versions of any public comments received with respect to a request in room 3100 in the Herbert Hoover Building, 14th and Constitution

Avenue, N.W., Washington, DC 20230. Persons submitting comments on a request are encouraged to include a non-confidential version and a non-confidential summary.

James C. Leonard III,
Chairman, Committee for the Implementation of Textile Agreements.

Annex I

Product Specifications:

1. Dyed Corduroy

Fabric:

Fiber Composition: 100 % cotton
Fabric weight: 271 g/m2 (grams per square meter)
Construction: Woven 20 x 45, 16s x 16s
6 - 8 wales per centimeter

2. Dyed Corduroy

Fabric:

Fiber Composition(s): 98% cotton, 2% spandex
97% cotton, 3% spandex
Fabric weight: 271g/m2 (grams per square meter)
Construction: Woven 20 x 45, 16s x 16s plus 70 denier (spandex)
6-8 wales per centimeter

BILLING CODE 3510-DR-S

CONSUMER PRODUCT SAFETY COMMISSION

Proposed Collection; Comment Request; Citizens Band Base Station Antennas

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: As required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Consumer Product Safety Commission requests comments on a proposed extension of approval of a collection of information from manufacturers and importers of citizens band base station antennas. The collection of information is in regulations implementing the Safety Standard for Omnidirectional Citizens Band Base Station Antennas (16 CFR part 1204). These regulations establish testing and recordkeeping requirements for manufacturers and importers of antennas subject to the standard. The Commission will consider all comments received in response to this notice before requesting an extension of approval of this collection of information from the Office of Management and Budget (OMB).

DATES: The Office of the Secretary must receive comments not later than May 23, 2003.

ADDRESSES: Written comments should be captioned "Citizens Band Base Station Antennas" and mailed to the Office of the Secretary, Consumer Product Safety Commission, Washington, DC 20207, or delivered to that office, Room 502, 4330 East-West Highway, Bethesda, Maryland 20814. Written comments may also be sent to the Office of the Secretary by facsimile at (301) 504-0127 or by e-mail at cpssc-oss@cpssc.gov.

FOR FURTHER INFORMATION CONTACT: For information about the proposed extension of approval of the collection of information, or to obtain a copy of 16 CFR Part 1204, call or write Linda L. Glatz, Office of Planning and Evaluation, Consumer Product Safety Commission, Washington, DC 20207; telephone (301) 504-7671.

SUPPLEMENTARY INFORMATION:

A. Background

In 1982, the Commission issued the Safety Standard for Omnidirectional Citizens Band Antennas (16 CFR part 1204) to reduce risks of death and serious injury that may result if an omnidirectional antenna contacts an overhead power line while being erected or removed from its site. The standard contains performance tests to demonstrate that an antenna will not transmit a harmful electric current if it contacts an electric power line with a voltage of 14,500 volts phase-to-ground. Certification regulations implementing the standard require manufacturers,

importers, and private labelers of antennas subject to the standard to perform tests to demonstrate that those products meet the requirements of the standard, and to maintain records of those tests. The certification regulations are codified at 16 CFR Part 1204, Subpart B.

The Commission uses the information compiled and maintained by manufacturers, importers, and private labelers of antennas subject to the standard to help protect the public from risks of injury or death associated with omnidirectional citizens band base station antennas. More specifically, this information helps the Commission determine that antennas subject to the standard comply with all applicable requirements. The Commission also uses this information to obtain corrective actions if omnidirectional citizens band base station antennas fail to comply with the standard in a manner which creates a substantial risk of injury to the public. The Office of Management and Budget approved the collection of information in the certification regulations under control number 3041-0006. OMB's most recent extension of approval expires on May 31, 2003. The Commission now proposes to request an extension of approval without change for the collection of information in the certification regulations.
