**SUPPLEMENTARY INFORMATION:****I. Abstract**

The Treaty on Fisheries Between the Governments of Certain Pacific Island

States and the Government of the United States, signed in Port Moresby, Papua New Guinea, in 1987, and its annexes, schedules and implementing agreements, as amended (Treaty), authorize U.S. tuna vessels to fish within fishing zones of a large region of the Pacific Ocean. The South Pacific Tuna Act (16 U.S.C. 973g and 973f) and U.S. implementing regulations (50 CFR 282.3 and 282.5), authorize the collection of information from participants in the Treaty fishery. Vessel operators who wish to participate in the Treaty fishery must submit annual license and registration applications and periodic written reports of catch and unloading of fish from a licensed vessel. The information collected is submitted to the Forum Fisheries Agency (FFA), on forms generated by the FFA, through the U.S. government (National Marine Fisheries Service). License and registration application information is used by FFA to determine the operational capability and financial responsibility of a vessel operator interested in participating in the Treaty fishery. The information obtained from vessel catch and unloading reports is used by FFA to assess fishing effort and fishery resources in the region and to track the amount of fish caught within each Pacific island state's exclusive economic zone for fair disbursement of Treaty monies. If the information is not collected, the U.S. government will not meet its obligations under the Treaty, and the lack of fishing information will result in poor management of the fishery resources.

**II. Method of Collection**

The information is collected using forms required under the Treaty.

**III. Data**

*OMB Number:* 0648-0218.

*Form Number:* None.

*Type of Review:* Regular submission.

*Affected Public:* Business or other for-profit organizations.

*Estimated Number of Respondents:* 32.

*Estimated Time Per Response:* 15 minutes for a license application form; 30 minutes for a registration application form; 15 minutes for a Vessel Monitoring System (VMS) application form; 1 hour for a catch report; 30 minutes for an unloading logsheet; 4 hours to install a VMS; 2 hours per year to maintain a VMS; and 24 seconds per day for automated VMS position messages.

*Estimated Total Annual Burden Hours:* 430.

*Estimated Total Annual Cost to Public:* \$53,000.

**IV. Request for Comments**

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: December 19, 2003.

**SUPPLEMENTARY INFORMATION:****I. Abstract**

Commercial fishing vessels active in the Hawaii-based pelagic longline fishery must allow NOAA to install vessel monitoring system (VMS) units on their vessel when directed to do so by NOAA enforcement personnel. The VMS units automatically send periodic reports on the position of the vessel. NOAA uses the reports to monitor the vessel's location and activities while enforcing area closures. NOAA pays for the units and messaging.

**II. Method of Collection**

The only information collected is vessel position reports, which are automatically transmitted via the VMS.

**COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS**
**Announcement of Request for Bilateral Textile Consultations with the Government of the People's Republic of China and the Establishment of an Import Limit for Knit Fabric, Category 222, Produced or Manufactured in the People's Republic of China**

December 23, 2003.

**AGENCY:** Committee for the Implementation of Textile Agreements (Committee).

**ACTION:** Notice

**EFFECTIVE DATE:** December 24, 2003.

**FOR FURTHER INFORMATION CONTACT:** Roy Unger, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port, call (202) 927-5850, or refer to the Bureau of Customs and Border Protection website at <http://www.customs.gov>. **SUPPLEMENTARY INFORMATION:**

**Authority:** Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854); Executive Order 11651 of March 3, 1972, as amended.

On December 24, 2003, as provided for under paragraph 242 of the Report of the Working Party on the Accession of China to the World Trade Organization (Accession Agreement), the United States requested consultations with the Government of the People's Republic of China with respect to imports of Chinese origin knit fabric in Category 222. In accordance with paragraph 242 of the Accession Agreement and the procedures set forth by the Committee on May 21, 2003 (68 FR 27787), as clarified on August 18, 2003 (68 FR 49440), the United States is establishing a twelve-month limit on knit fabric in Category 222 from China, beginning on December 24, 2003, and extending

through December 23, 2004 at a level of 9,664,477 kilograms.

Paragraph 2.B. of the U.S.-China Textile Visa Arrangement provides that if additional categories become subject to import quotas, those categories shall be automatically included in the coverage of the Visa Arrangement. This Visa Arrangement was notified to the World Trade Organization Textiles Monitoring Body as an agreed administrative arrangement on May 21, 2002. Consequently, the United States will require that shipments of Chinese origin knit fabric in Category 222 be accompanied by an export visa and Electronic Visa Information System (ELVIS) transmission issued by the Government of the People's Republic of China. In order to provide a period for adjustment, the United States will allow shipments of goods in this category that are not accompanied by an export visa and an ELVIS transmission to enter the United States if exported prior to January 23, 2004. However, shipments exported from China on or after January 23, 2004 must be accompanied by an export visa and ELVIS transmission issued by the Government of the People's Republic of China, and shipments without an export visa and ELVIS transmission will be denied entry.

Paragraph 242 of the Accession Agreement allows World Trade Organization Members that believe imports of Chinese origin textile and apparel products are, due to market disruption, threatening to impede the orderly development of trade in these products to request consultations with the People's Republic of China with a view to easing or avoiding such market disruption. Upon receipt of the request, the People's Republic of China has agreed to hold its shipments to a level no greater than 7.5 percent (6 percent for wool product categories) above the amount entered during the first 12 months of the most recent 14 months preceding the request for consultations. The Member requesting consultations may implement such a limit. Consistent with paragraph 242, consultations with the People's Republic of China will be held within 30 days of receipt of the request for consultations, and every effort will be made to reach agreement on a mutually satisfactory solution within 90 days of receipt of the request for consultations. If agreement on a different limit is reached, the Committee will issue a **Federal Register** Notice containing a directive to the Bureau of Customs and Border Protection to implement the negotiated limit.

On July 24, 2003, the Committee received a request from the American
