GENERAL SERVICES ADMINISTRATION

Privacy Act of 1974; Proposed Revisions to a Privacy Act System of Records

AGENCY: General Services Administration.

ACTION: Notice of proposed revisions to an existing Privacy Act system of records.

SUMMARY: The General Services Administration (GSA) proposes to revise

an existing system of records titled "Investigation Case Files" (GSA/ADM-24), last published on July 25, 1996 (61 FR 38752). The system of records, maintained by GSA's Office of Inspector General (OIG), is being revised to comply with requirements established by the Homeland Security Act of 2002 (Pub. L. 107-296, Nov. 25, 2002). The major change to the system is the addition of a new routine use to allow the disclosure of information to authorized officials within the President's Council on Integrity and Efficiency (PCIE), who are charged with the responsibility for conducting qualitative assessment reviews of investigative operations for the purpose of reporting to the President and Congress on the activities of the OIG. A minor change consisting of substituting a sequential numbering system for the current alphabetical system under routine uses in the Privacy Act notice also will be made for easier reference.

DATES: Any interested persons may submit written comments on this proposal. It will become effective without further notice on May 7, 2003 unless comments received on or before that date result in a contrary determination.

ADDRESSES: Comments should be submitted to the Office of Counsel to the Inspector General (JC), Office of Inspector General, General Services Administration, 1800 F Street, NW., Washington, DC 20405.

FOR FURTHER INFORMATION CONTACT: GSA Privacy Act Officer, General Services Administration, Office of the Chief People Officer, 1800 F Street, NW., Washington, DC 20405; telephone (202) 501-1452.

SUPPLEMENTARY INFORMATION: This publication is in accordance with the Privacy Act requirement that agencies publish their amended systems of records in the **Federal Register** when there is a revision, change, or addition. GSA's Office of Inspector General (OIG) has reviewed its systems of records notices and has determined that its record system, Investigation Case Files (GSA/ADM-24), must be revised to add a routine use in order to comply with the Homeland Security Act of 2002. Specifically, section 812, subsection (7) of that Act reads as follows: "To ensure the proper exercise of the law enforcement powers authorized by this subsection, the Offices of Inspector General described under paragraph (3) shall, not later than 180 days after the date of enactment of this subsection, collectively enter into a memorandum of understanding to establish an external review process for ensuring

that adequate internal safeguards and management procedures continue to exist within each Office and within any Office that later receives an authorization under paragraph (2). The review process shall be established in consultation with the Attorney General, who shall be provided with a copy of the memorandum of understanding that establishes the review process. Under the review process, the exercise of the law enforcement powers by each Office of Inspector General shall be reviewed periodically by another Office of Inspector General or by a committee of Inspectors General. The results of each review shall be communicated in writing to the applicable Inspector General and to the Attorney General." The additional routine use would allow the disclosure of information to authorized officials within the PCIE, the Department of Justice, and the Federal Bureau of Investigation, as necessary, for the purpose of conducting qualitative assessment reviews of the OIG's investigative operations to ensure that adequate internal safeguards and management procedures are maintained.

Dated: March 31, 2003.

Director, Information Management Division.
