SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Bureau of Land Management (BLM) is requesting the Office of Management and Budget (OMB) to extend an existing approval to collect information from individuals who request rights-of-way on public lands that BLM administers under the regulations 43 CFR part 2800 and 43 CFR part 2880. The nonform information under 43 CFR part 2800 and 43 CFR part 2880 will allow BLM to:

- (1) Process plans of development for complex right-of-way projects;
- (2) Review and file location and project maps;
- (3) Adjudicate applications for reductions in cost recovery fees;
- (4) Properly assess rents on communication site rights-of-way;
- (5) Determine whether or not applicants are qualified to hold right-of-way grants; and
- (6) Determine the amount of fees that the applicants or grant holders owe the United States.

DATES: You must submit your comments to BLM at the address below on or before March 17, 2003. BLM will not necessarily consider any comments received after the above date.

SUPPLEMENTARY INFORMATION: 5 CFR 1320.12(a) requires that we provide a 60-day notice in the **Federal Register** concerning a collection of information to solicit comments on:

(a) Whether the collection of information is necessary for the proper functioning of the agency, including whether the information will have practical utility;

(b) The accuracy of our estimates of the information collection burden, including the validity of the methodology and assumptions we use;

(c) Ways to enhance the quality, utility, and clarity of the information collected; and

(d) Ways to minimize the information collection burden on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

BLM needs the information to administer its right-of-way program. Title V of the Federal Land Policy and Management Act of 1976 (FLPMA) authorizes the Secretary of the Interior to issue and renew rights-of-way through public lands under its jurisdiction. These rights-of-way uses are reservoirs, ditches, pipes and pipelines, electrical general and transmission systems, communication systems, roads, airways, and livestock driveways. BLM requires each right-of-way grant holder to reimburse for all reasonable administrative costs to process an application and monitor the right-of-way grant in accordance with section 504(g).

Section 28 of the Mineral Leasing Act of 1920 (MLA), as amended, 30 U.S.C. 185 *et seq.*, authorizes the Secretary of the Interior to issue right-of-way grants through public lands to transport oil, gas, synthetic liquid or gaseous fuels or other refined products. The Act also allows for temporary use permits to supplement each oil and gas pipeline grant to construct, operate, maintain and terminate the pipeline, and to protect public health and safety. BLM requires right-of-way permit holders to reimburse for actual costs to process application for oil and gas pipeline grants under paragraph (f) of section 28.

The nonform information in the regulations under 43 CFR part 2800 and 43 CFR part 2880 authorizes BLM to collect this information to administer the rights-of-way program. Without this information, BLM would not be able to

properly administer its right-of-way program.

Based upon BLM experience and recent tabulations of activity, we process approximately 5,066 applications each year. Depending on the complexity of the applications for rights-of-way, responses vary from 8 to 40 hours to complete. The estimated number of responses per year is 5,066. The estimated total annual burden is 126,650 hours.

BLM will summarize all responses to this notice and include them in the request for OMB approval. All comments will become a matter of public record.

Dated: January 8, 2003.

Bureau of Land Management, Information Collection Clearance Officer.

SUMMARY: In accordance with the Paperwork Reduction Act of 1994, the Bureau of Land Management (BLM) is requesting the Office of Management and Budget (OMB) to extend an existing approval to collect information from owners of unpatented claims, mill sites, and tunnel sites. - (5) Process annual affidavits of labor or notices of intent to hold a mining claim or site;
- (6) Process requests for deferments from assessment work;

- (8) Adjudicate such claims and sites.

The regulations under 43 CFR part 3830-3833, 3840-3843, 3850-3852 authorized BLM to collect the above information to manage the general mining law activities on public lands.

FOR FURTHER INFORMATION CONTACT: You may contact Roger A. Haskins on (202) 452-0372 (Commercial or FTS). Persons who use a telecommunication device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) on 1-800-877-8330, 24 hours a day, seven days a week, to contact Mr. Haskins.

SUPPLEMENTARY INFORMATION: 5 CFR 1320.12(a) requires that we provide a 60-day notice in the **Federal Register** concerning a collection of information to solicit comments on:

(a) Whether the collection of information is necessary for the proper functioning of the agency, including whether the information will have practical utility;

(b) The accuracy of our estimates of the information collection burden, including the validity of the methodology and assumptions we use;

(c) Ways to enhance the quality, utility, and clarity of the information collected; and

(d) Ways to minimize the information collection burden on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

The Federal Land Policy and Management Act of 1976, 30 U.S.C. 28f (Pub. L. 105-277), and the regulations under 43 CFR parts 3830-3833, 3840-3843, 3850-3852 authorizes BLM to collect information from owners of unpatented claims, mill sites and tunnel sites to manage the general mining law activities on public lands.

BLM uses Form 3830-2 (Maintenance Fee Waiver) to collect the information to waive the \$100 annual maintenance fee that owners of unpatented mining claims, mill sites, and tunnel sites must pay. The owners of unpatented mining

claims, mill sites, and tunnel sites must submit the following information to BLM:

- (1) The mining claims names and BLM serial numbers;
- (2) A declaration that the owners own or have interest in 10 or fewer claims or sites;
- (3) A declaration of compliance with the assessment work requirements;
- (4) The names and addresses of all owners of the claims and sites; and
- (5) The owners'/agents' signatures.

BLM uses Form 3830-3 (Notice of Intent to Locate A Lode or Placer Mining Claim(s) and/or A Tunnel Site(s) and Lands Patented Under the Stock Raising Homestead Act of 1916, amended to collect information on an applicant who files a notice of intent to locate or explore for a mining claim or tunnel site. The applicant must submit the following information to BLM:

- (1) The name and mailing address of the applicant filing the notice of intent to locate or explore for a mining claim or tunnel site;
- (2) A legal land description of the lands which the notice of intent will apply;
- (3) A brief description of the proposed mineral activities;
- (4) A map and legal land description of lands subject to mineral exploration;
- (5) The name, address, and phone number of the person managing the activities; and
- (6) The dates the activities will take place.

BLM uses the information on recording claims, annual assessment work, notice of intent to hold, and transfer of interest to:

- (1) Determine the number and location of unpatented mining claims, mill sites and tunnel sites located on Federal lands to assist in the surface management of these lands and any minerals found there;
- (2) Remove any cloud on the title to those lands due to abandoned mining claims;
- (3) Provide information as to the location of active claims; and
- (4) Keep informed of transfers of interest and ownership.

Without this information, BLM could not protect the rights of surface and mineral owners. Also, the Government's ability to locate, control, and manage surface disturbance is compromised.

Based upon BLM experience, the public reporting information collection burden takes eight minutes per response. The respondents are owners of unpatented mining claims, mill sites, and tunnel sites located on public lands and individuals or organizations who seek to explore for or locate a mining

claim. The estimated number of responses per year is 236,852 and the total annual burden is 31,580 hours.

BLM will summarize all responses to this notice and include them in the request for OMB approval. All comments will become a matter of public record.

Dated: January 9, 2003.
