SUPPLEMENTARY INFORMATION: This is a summary of the Federal Communications Commission's *Public Notice*, DA 02-3372, released on December 5, 2002. The full text of this document is available for inspection and copying during normal business

hours in the Federal Communications Commission Reference Center, 445 12th Street, SW., Washington, DC 20554. On October 18, 2002, 67 FR 69529, November 18, 2002, the Wireless Telecommunications Bureau (WTB) issued a public notice requiring all Instructional Television Fixed Service (ITFS), Multipoint Distribution Service (MDS), and Multichannel Multipoint Distribution Service (MMDS) (collectively, the "Services") licensees and applicants to review licensing information and associated technical data. Licensees and applicants are required to verify the available information concerning their licenses and applications, make any necessary corrections concerning that data, and, under certain circumstances, submit corrections or responses to that data by February 3, 2003. By this public notice, WTB clarifies two issues relating to the *BLS License Inventory Public Notice*.

First, with respect to licenses in the Services, if a licensee believes that all information pertaining to a license (including both the license tables and the additional technical information available at <http://wireless.fcc.gov/services/itfs&mds/licensing/inventory.html>) is accurate, the licensee is not required to submit a response with respect to that license. With respect to pending applications filed prior to March 25, 2002, however, a response is required even if all the information relating to that pending application is correct. Specifically, the applicant must: (1) affirm, in writing, within sixty days of the release of this public notice, that continued processing of the application is requested, by contacting the FCC at the addresses listed below, and (2) submit a copy of

the application with the written affirmation request.

If the information requested is being sent via United States Postal Service, licensees and applicants must use the following address: Federal Communications Commission, MDS/ITFS Database Corrections, 1270 Fairfield Road, Gettysburg, PA 17325.

Correspondence sent by overnight mail couriers (e.g., Federal Express, United Parcel Service, Airborne), hand-delivery or messenger must be addressed to: Federal Communications Commission, MDS/ITFS Database Corrections, 1120 Fairfield Road, Gettysburg, PA 17325.

Second, ITFS licensees and applicants are not required to verify data relating to receive sites. The FCC notes that ITFS licensees are currently prohibited from registering new receive sites. Moreover, while receive sites registered prior to September 17, 1998 are still entitled to interference protection, most such receive sites receive protection because they are located within the thirty-five mile protected service area of the ITFS station. Under those circumstances, and given the fact that many ITFS stations have a large number of registered receive sites, the FCC concludes that it would be unduly burdensome to require ITFS licensees to verify data relating to receive sites at this time. The FCC encourages ITFS licensees with grandfathered receive sites outside the thirty-five mile protected service area to review the data relating to receive sites and to submit corrections if the data does not accurately reflect the receive site, as registered with the FCC on September 17, 1998. The FCC nonetheless note that the prohibition on registering new ITFS receive sites remains in effect.

Federal Communications Commission (FCC or Commission) proposes to alter a system of records, FCC/Central-6, "Personnel Investigation Records." The altered system of records will incorporate the provisions of FCC/OMD-4, "Security Office Control Files," including the addition of two routine uses from FCC/OMD-4; revision of one routine use; and addition of one new routine use incorporating the data elements and uses for the Workplace Violence Form; and make other edits and revisions as necessary. The Office of Management and Budget (OMB), which has oversight responsibility under the Privacy Act to review the system may submit comments on or before February 24, 2003. The proposed system shall become effective without further notice February 24, 2003 unless the FCC receives comments that would require a contrary determination. As required by 5 U.S.C. 552a(r) of the Privacy Act of 1974, as amended, the FCC has submitted reports on this proposed altered system to OMB and both Houses of Congress.

ADDRESSES: Comments should be sent to Les Smith, Privacy Act Clerk, Performance Evaluation and Records Management (PERM), Room 1-A804, Federal Communications Commission (FCC), 445 12th Street, SW., Washington, DC 20554, (202) 418-0217, or via the Internet at lesmith@fcc.gov.

FOR FURTHER INFORMATION: Contact Les Smith, Performance Evaluation and Records Management (PERM), Room 1-A804, Federal Communications Commission, 445 12th Street, SW., Washington, DC 20554, (202) 418-0217 or via the Internet at lesmith@fcc.gov; or Eric Botker, Security Office, Associate Managing Director-Administrative Operations (AMD-AO), Security Operations Center, Federal Communications Commission (FCC), 445 12th Street, SW., Room 1-B458, Washington, DC 20554, (202) 418-7884 or via the Internet at ebotker@fcc.gov.

SUPPLEMENTARY INFORMATION: As required by the *Privacy Act of 1974*, as amended, 5 U.S.C. 552a (e)(4) and (e)(11), this document sets forth notice of the proposed altered system of records maintained by the FCC; addition of two routine uses to FCC/Central-6 that were formerly in FCC/OMD-4; revision of one routine use in FCC/Central-6 to incorporate elements

formerly in FCC/OMD-4; addition of one new routine use to incorporate uses in the Workplace Violence Form; and cancellation of one system of records, FCC/OMD-4. This agency previously gave complete notice of the two systems of records covered under this Notice by publication in the **Federal Register** on October 23, 2000, 65 FR 63468. This notice is a summary of more detailed information, which may be viewed at the location given in the **ADDRESSES** section above. The purposes for altering FCC/Central-6, "Personnel Investigation Records" are to merge FCC/OMD-4, "Security Office Control Files" into this system of records to eliminate possible duplications of functions and records; to add new data elements, new purposes, and one new routine use; to update the statutory authority to maintain the information that the Commission may collect when the Workplace Violence Form is introduced; and otherwise to alter, update, and revise this system of records as necessary.

The FCC proposes to achieve these purposes by altering this system of records, FCC/Central-6, "Personnel Investigation Records with these changes:

The incorporation of the data elements of another system of records, FCC/OMD-4, "Security Office Control Files," into FCC/Central-6;

The elimination of FCC/OMD-4; The transfer of two routine uses formerly in FCC/OMD-4 to address new and/or revised uses:

Routine use (7) allows disclosure to the security officers of an agency in the executive, legislative, or judicial branch, or the District of Columbia Government, in response to their request(s) for verification of security clearances of FCC employees to have access to classified data or areas where their official duties require such access.

Routine use (8) allows disclosure to request information from a Federal, state, or local agency maintaining civil, criminal, or other relevant or pertinent enforcement information or records, such as licenses, if necessary to obtain information relevant to a Commission decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a grant or other benefit.

The revision of one routine use to incorporate uses formerly in FCC/OMD-4:

Routine use (5) allows disclosure to designated officers and employees of agencies, offices, and other establishments in the executive, legislative, and judicial branches of the Federal Government, and the District of

Columbia Government, in response to their request, when such agency, office, or establishment conducts an investigation of the individual for the purpose of hiring, firing, or retention, granting a security clearance, making a determination of qualifications, suitability, or loyalty to the United States Government, or access to classified information or restricted areas, or classifying jobs, letting of a contract, or issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's purpose.

The addition of one new routine use to include the data elements, information, and purposes for the Workplace Violence Form:

Routine use (9) allows disclosure to the Merit System Protection Board (MSPB) during the course of the MSPB's investigation of the individual's appeal, following the Commission's adverse action against the individual.

The alteration, revision, or modification of various data elements in FCC/Central-6, including editorial changes to update, simplify, or clarify, as necessary, this system of records.

The FCC Security Officer and the Personnel Security Specialist in the Security Office will use the records in FCC/Central-6 to provide investigative information to determine compliance with Federal regulations and/or an individual's suitability and fitness for Federal employment, access to classified information or restricted areas, position sensitivity, security clearances, evaluations of qualifications, and loyalty to the U.S.; to evaluate qualifications and suitability to perform contractual services for the U.S. Government; to document such determinations; to respond to an inquiry conducted under the President's Program to Eliminate Waste and Fraud in the Government; to take action on, or respond to a complaint about a threat, harassment, intimidation, violence, or other inappropriate behavior involving one or more FCC employees and/or contract employees; and to counsel employees.

Records in this system will be available for public inspection at the location given above. The functions in this system of records will be performed by the FCC Security Officer and the Personnel Security Specialist in the Security Office.

This notice meets the requirement documenting the change in the Commission's system of records, and provides the public, Congress, and the Office of Management and Budget (OMB) an opportunity to comment.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records in this system of records include both paper and electronic records. Paper records are stored in file folders in security containers. The electronic records are maintained in a computer database.

RETRIEVABILITY:

Records are retrieved by individual's name and Social Security Number.

SAFEGUARDS:

Paper records are maintained in file folders and stored in approved security containers, within a secure, access-controlled area with an intrusion alarm. Access is limited to approved security office and administrative personnel.

The electronic records are maintained in a "stand-alone" computer database, which is secured through controlled access and passwords restricted to security and administrative personnel on a "need to know" basis. The computers are located in a room with a simplex lock and intrusive alarm systems. The computer databases are maintained on a computer that is not connected to the FCC computer network. The databases are backed-up on a daily basis to floppy disk(s), which are then stored in a secured area.

RETENTION AND DISPOSAL:

Both paper and electronic records are retained during employment or while an

individual is actively involved in federal programs. As appropriate, records are returned to investigating agencies after employment terminates; otherwise, the records are retained for five years from the date that the employee leaves the Commission.

Investigative files and the computer database, which show the completion of an investigation, are retained for 15 years, except for investigations involving potential actionable issue(s), which will be maintained for 25 years plus the current year from the date of the most recent investigative activity. Paper records are destroyed by shredding. Electronic records are destroyed by electronic erasure.

SYSTEM MANAGER(S) AND ADDRESS:

Security Operations Center, Office of Managing Director, Federal Communications Commission (FCC), 445 12th Street, SW., Room 1-B458, Washington, DC 20554.

NOTIFICATION, RECORD ACCESS AND CONTESTING RECORD PROCEDURES:

This system is exempt from the requirement that the agency publish the procedures for notifying an individual, at his or her request, if the system contains a record pertaining to him/her, for gaining access to such record, and for contesting the contents of the record.

RECORD SOURCE CATEGORIES:

This system is exempt from the requirement that the agency publish the categories of sources of records in this system.

EXEMPTION FROM CERTAIN PROVISIONS OF THE ACT:

This system of records is exempt from sections (c)(3), (d), (e)(4)(G), (H), and (I), and (f) of the *Privacy Act of 1974*, 5 U.S.C. 552a, and from 47 CFR 0.554-0.557 of the Commission's rules. These provisions concern the notification, record access, and contesting procedures described above, and also the publication of record sources. The system is exempt from these provisions because it contains the following types of information:

1. Investigative material compiled for law enforcement purposes as defined in section (k)(2) of the Privacy Act.

2. Properly classified information, obtained from another Federal agency during the course of a personnel investigation, which pertains to national defense and foreign policy, as stated in section (k)(1) of the Privacy Act.
