

**AGENCY:** U.S. Institute for Environmental Conflict Resolution, Morris K. Udall Foundation.

**ACTION:** Notice of meeting.

**SUMMARY:** The National Environmental Conflict Resolution (ECR) Advisory Committee, of the U.S. Institute for Environmental Conflict Resolution, will conduct a public meeting on Monday and Tuesday, June 9–10, 2003, at Coolfont Resort and Conference Center, Cold Run Valley Road, Berkeley Springs, West Virginia. The meeting will occur from 8 a.m. to approximately 3 p.m. on June 9, and from 8 a.m. to approximately 2 p.m. on June 10.

Members of the public may attend the meeting in person. Seating is limited and is available on a first-come, first-served basis. During this meeting, the Committee will discuss: Committee organizational details; environmental conflict resolution (ECR) processes in connection with section 101 of the National Environmental Policy Act (NEPA); best practices in ECR; reports of subcommittees on NEPA Section 101, best practices, and affected communities; and plan for future committee work. Members of the public may make oral comments at the meeting or submit written comments. In general, each individual or group making an oral presentation will be limited to five minutes, and total oral comment time will be limited to one-half hour each day. Written comments may be submitted by mail or by e-mail to [memerson@ecr.gov](mailto:memerson@ecr.gov). Written comments received in the Institute office far enough in advance of a meeting may be provided to the Committee prior to the meeting; comments received too near the meeting date to allow for distribution will normally be provided to the Committee at the meeting. Written comments may be provided to the Committee until 5 p.m. on Tuesday, June 2, 2003, at the address below, or in person at the time of the meeting. Comments submitted during or after the meeting will be accepted but may not be provided to the Committee until after that meeting.

**FOR FURTHER INFORMATION CONTACT:** Any member of the public who desires further information concerning the meeting or wishes to submit oral or written comments should contact Melanie Emerson, Program Associate, U.S. Institute for Environmental Conflict Resolution, 130 S. Scott Avenue, Tucson, AZ 85701; phone (520) 670–5299, fax (520) 670–5530, or e-mail at [memerson@ecr.gov](mailto:memerson@ecr.gov). Requests to make oral comments must be in writing (or by e-mail) to Ms. Emerson and be received no later than 5 p.m. Mountain Standard

Time on Tuesday, June 2, 2003. Copies of the draft meeting agenda may be obtained from Ms. Emerson at the address, phone and e-mail address listed above.

Dated: May 12, 2003.

## NATIONAL SCIENCE FOUNDATION

### Agency Information Collection Activities: Proposed Collection; Comment Request

**AGENCY:** National Science Foundation.

**ACTION:** Submission for OMB review; comment request.

**SUMMARY:** Under the Paperwork Reduction Act of 1995, Pub. L. 104–13 (44 U.S.C. 3501 *et seq.*), and as part of its continuing effort to reduce paperwork and respondent burden, the National Science Foundation (NSF) is inviting the general public and other Federal agencies to comment on this proposed continuing information collection. This is the second notice for public comment; the first was published in the **Federal Register** at 67 FR 79161 on December 27, 2002 and no comments were received. NSF is forwarding the proposed submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice.

**DATES:** Comments regarding these information collections are best assured of having their full effect if received by OMB within 30 days of publication in the **Federal Register**.

**ADDRESSES:** Written comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of NSF, including whether the information will have practical utility; (b) the accuracy of NSF's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; or (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725 17th Street, NW., Room

10235, Washington, DC 20503, and to Teresa R. Pierce, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230 or send e-mail to [tpierce@nsf.gov](mailto:tpierce@nsf.gov). Copies of the submission may be obtained by calling (703) 292–7555.

**FOR FURTHER INFORMATION CONTACT:** Teresa R. Pierce, NSF Reports Clearance Officer at (703) 292–7555 or send e-mail to [tpierce@nsf.gov](mailto:tpierce@nsf.gov).

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

### SUPPLEMENTARY INFORMATION:

*Title of Collection:* 2003 National Survey of Recent College Graduates  
*OMB Approval Number:* 3145–0077.

*Abstract:* The National Survey of Recent College Graduates (NSRCG) has been conducted biennially since 1974. The 2003 NSRCG will consist of a sample of individuals who have completed bachelor's and master's degrees in science and engineering from U.S. institutions.

The purpose of this study is to provide national estimates on the new entrants in the science and engineering workforce and to provide estimates on the characteristics of recent bachelor's and master's graduates with science and engineering degrees. The study is one of three components of the Scientists and Engineers Statistical Data System (SESTAT), which produces national estimates of the size and characteristics of the nation's science and engineering population.

The National Science Foundation Act of 1950, as subsequently amended, includes a statutory charge “to provide a central clearinghouse for the collection, interpretation, and analysis of data on scientific and engineering resources, and to provide a source of information for policy formulation by other agencies of the Federal Government.” The NSRCG is designed to comply with these mandates by providing information on the supply and utilization of the nation's recent bachelor's and master's level scientists and engineers. Collected data will be used to produce estimates of the characteristics of these individuals. They will also provide necessary input into the SESTAT labor force data system, which produces national

estimates of the size and characteristics of the country's science and engineering population. The Foundation uses this information to prepare congressionally mandated reports such as *Women, Minorities and Persons with Disabilities in Science and Engineering* and *Science and Engineering Indicators*. NSF publishes statistics from the survey in many reports, but primarily in the biennial series, *Characteristics of Recent Science and Engineering Graduates in the United States*. A public release file of collected data, designed to protect respondent confidentiality, also will be made available to researchers on CD-ROM and on the World Wide Web.

Mathematica Policy Research, Inc. of Princeton, New Jersey will conduct the study for NSF. Data are obtained by mail questionnaire, computer assisted telephone interviews and web survey beginning October 2003. The survey will be collected in conformance with the Privacy Act of 1974, the National Science Foundation Act of 1950, as amended, and the Confidential Information Protection and Statistical Act of 2002. The individual's response to the survey is voluntary. NSF will insure that all information collected will be kept strictly confidential and will be used only for research or statistical purposes and for preparing scientific reports and articles.

*Expected Respondents:* A statistical sample of approximately 18,000 bachelor's and master's degree recipients in science, engineering, and health will be contacted in 2003. A total response rate in 2001 was 80%.

*Burden on the Public:* The amount of time to complete the questionnaire may vary depending on an individual's circumstances; however, on average it will take approximately 25 minutes to complete the survey. The total annual burden will be 6,000 hours during the year.

Dated: May 12, 2003.

**Teresa R. Pierce,**

*Reports Clearance Officer, National Science Foundation.*

BILLING CODE 7555-01-M

## NUCLEAR REGULATORY COMMISSION

[Docket No. 70-27, License No. SNM-42, EA 03-087]

### In the Matter of BWX Technologies, Lynchburg, VA; Order Modifying License (Effective Immediately)

BWX Technologies, Inc., ("BWXT" or the "licensee") is the holder of Special

Nuclear Material License No. SNM-42 issued by the U.S. Nuclear Regulatory (NRC or Commission) pursuant to Title 10 of the Code of Federal Regulations (10 CFR) part 70. BWXT is authorized by its license to receive, possess, and transfer special nuclear material in accordance with the Atomic Energy Act of 1954, as amended, and 10 CFR part 70. The BWXT license, originally issued on August 22, 1956, was last renewed on October 2, 1995, and is due to expire on September 30, 2005.

On September 11, 2001, terrorists simultaneously attacked targets in New York, NY, and Washington, DC, utilizing large commercial aircraft as weapons. In response to the attacks and intelligence information subsequently obtained, the Commission issued a number of Safeguards and Threat Advisories to its licensees and eventually Orders to selected licensees, including BWXT, to strengthen licensees' capabilities and readiness to respond to a potential attack on a nuclear facility. The Commission has also communicated with other Federal, State and local government agencies and industry representatives to discuss and evaluate the current threat environment in order to assess the nature of the current threat. In addition, the Commission has been conducting a comprehensive review of its safeguards and security programs and requirements. As part of this review, the Commission issued an Order to BWXT on August 21, 2002, to implement interim compensatory measures (ICMs) to enhance physical security of licensed operations at this facility.

As a result of information provided by the intelligence community concerning the nature of the threat and the Commission's assessment of this information, the Commission has determined that a revision is needed to the Design Basis Threat (DBT) specified in 10 CFR 73.1. Therefore, the Commission is imposing a revised DBT, as set forth in Attachment 1<sup>1</sup> of this Order. The DBT, which supercedes the DBT specified in 10 CFR 73.1, provides the Commission with reasonable assurance that the public health and safety and common defense and security continue to be adequately protected in the current threat environment. The requirements of this Order will remain in effect until the Commission determines otherwise. To address the DBT set forth in Attachment 1 of this Order, BWXT is required to revise its physical security plan, safeguards contingency plan, and guard training

and qualification plan that are required by 10 CFR 70.22.

In order to provide assurance that BWXT is implementing prudent measures to protect against the DBT, Materials License SNM-42 shall be modified to require that the physical security plans, including pertinent requirements of the Order issued on August 21, 2002, safeguards contingency plan, and the guard training and qualification plan, required by 10 CFR 70.22 be revised to provide protection against this DBT. Upon completion of NRC review and approval of the revised physical security plan, including pertinent requirements of the Order issued on August 21, 2002, safeguards contingency plan, and the guard training and qualification plan, and their full implementation, the Commission will consider requests to relax or rescind, either in whole or in part, the requirements of the Order issued on August 21, 2002, imposing ICMs. In addition, pursuant to 10 CFR 2.202, 70.32, and 70.81, I find that, in the circumstances described above, the public health, safety and interest and the common defense and security require that this Order be immediately effective.

Accordingly, pursuant to sections 53, 161b, 161i, 161o, 182 and 186 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR 2.202, 70.32, and 70.81, *it is hereby ordered, effective immediately*, that material license SNM-42 is modified as follows:

A. 1. BWXT shall, notwithstanding the provisions of any Commission regulation, license, or order to the contrary, revise its physical protection plan, safeguards contingency plan, and guard training and qualification plan prepared pursuant to 10 CFR 70.22 to provide protection against the DBT set forth in Attachment 1 to this Order. BWXT shall submit the revised physical security plan, revised safeguards contingency plan, and revised guard training and qualification plan including an implementation schedule, to the Commission for review and approval no later than April 29, 2004.

2. The revised physical security plan, revised safeguards contingency plan, and revised guard training and qualification plan must be fully implemented by the licensee by October 29, 2004.

B. 1. BWXT shall, within twenty (20) days of the date of this Order, notify the Commission, (1) if it is unable to comply with any of the requirements of this Order, (2) if compliance with any of the requirements is unnecessary in its specific circumstances, or (3) if

<sup>1</sup> Attachment 1 contains classified information and will not be released to the public.
