

with NOAA Fisheries to develop a training and network reporting program indicated in NTL 2003–G07. Therefore, with this submission, we are requesting an extension of the approved collections and noting that we are revising details of the observer training programs and we are adding an experimental (voluntary) passive acoustic monitoring program. Consequently, these NTLs may be reissued.

We will protect information from respondents considered proprietary

under the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR part 2) and under regulations at 30 CFR parts 250, 251, and 252. No items of a sensitive nature are collected. Responses are mandatory or required to obtain or retain a benefit.

*Frequency:* On occasion and on the 1st and 15th of each month for the marine mammal observation reports.

*Estimated Number and Description of Respondents:* Approximately 130 Federal OCS lessees and operators.

*Estimated Reporting and Recordkeeping “Hour” Burden:* The currently approved annual reporting burden for this collection is 310 hours. The following chart details the individual components and respective hour burden estimates of this ICR. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.

NTL number and name	Reporting, posting, and recordkeeping requirement	Hour burden
2002–G07 (Addendum 1) Seismic Survey Mitigation Measures.	Marine mammal observation/reports (including observer, survey, sighting, shut-down, and passive acoustic monitoring reports).	1 hour/report.
2003–G06 Marine Trash and Debris .....	<i>Training certification recordkeeping</i> ..... Post placards on vessels and structures. (Exempt from information collection burden because MMS is providing exact language for the trash and debris warning, similar to the “Surgeon General’s Warning” exemption.).	½ hour/record. 0.
2003–G07 Vessel Strikes .....	Injured/dead protected species report .....	½ hour/report.

*Estimated Reporting and Recordkeeping “Non-Hour Cost”*

*Burden:* We have identified no cost burdens for this collection.

*Public Disclosure Statement:* The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

*Comments:* Before submitting an ICR to OMB, PRA section 3506(c)(2)(A) requires each agency “\* \* \* to provide notice \* \* \* and otherwise consult with members of the public and affected agencies concerning each proposed collection of information \* \* \*”.

Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Agencies must also estimate the “non-hour cost” burdens to respondents or recordkeepers resulting from the collection of information. Therefore, if you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. You

should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information, monitoring, and record storage facilities. You should not include estimates for equipment or services purchased: (i) Before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

*Public Comment Policy:* Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address from the record, which we will honor to the extent allowable by law. There may be circumstances in which we would withhold from the record a respondent’s identity, as allowable by the law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from

organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

*MMS Information Collection Clearance Officer:* Jo Ann Lauterbach, (202) 208–7744.
