Internet Webpage**

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, May 22, 1995), this notice announces that the Office of Personnel Management (OPM) submitted a request to the Office of Management and Budget (OMB) for reclearance of a revised information collection for the Scholarship For Service (SFS) Program Internet Webpage. Approval of the Webpage is necessary to facilitate the timely registration, selection and placement of program-enrolled students in Federal agencies.

The SFS Program was established by the National Science Foundation in accordance with the Federal Cyber Service Training and Education Initiative as described in the President's National Plan for Information Systems Protection, an outcome of Presidential Decision Directive 63. This program seeks to increase the number of qualified students entering the fields of information assurance and computer security in an effort to respond to the threat to the Federal Government's information technology infrastructure. The program provides capacity building grants to selected 4-year colleges and universities to develop or improve their capacity to train information assurance professionals. It also provides selected 4-year colleges and universities scholarship grants to attract students to the information assurance field. Participating students who receive scholarships from this program are required to serve a 10-week internship during their studies and complete a post-graduation employment commitment equivalent to the length of the scholarship or one year, whichever is longer.

We estimate 200 respondents annually. The application process takes approximately 60 minutes for a total annual burden of 200 hours.

Request for Review of a Revised
Information Collection: SF 3112**

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, May 22, 1995), this notice announces that the Office of Personnel Management (OPM) intends to submit to the Office of Management and Budget a request for review of a revised information collection. Standard Form 3112, CSRS/FERS Documentation in Support of Disability Retirement Application, collects information from applicants for disability retirement so that OPM can determine whether to approve a disability retirement. The applicant only completes Standard Forms 3112A and 3112C. Standard Forms 3112B, 3112D, and 3112E, are completed by the immediate supervisor and the applicant's employing agency.

Comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the Office of Personnel Management, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

Approximately 12,100 applicants for disability retirement complete Standard

Forms 3112A and 3112C annually. This is a combined figure including 9,000 CSRS and 3,100 FERS applications. The SF 3112C requires approximately 60 minutes to complete. A burden of 12,100 hours is estimated for SF 3112C. SF 3112A is used each year by approximately 1,350 persons who are not Federal employees. This is a combined figure including 1,000 CSRS and 350 FERS applications. SF 3112A requires approximately 30 minutes to complete and a burden of 675 hours is estimated for SF 3112A. The total annual burden for SF 3112 is 12,775 hours.

SUPPLEMENTARY INFORMATION:

The FERS Act of 1986, Pub. L. 99-335, created a new retirement system intended to cover most Federal employees hired after 1983. Most Federal employees hired before 1984 are under the older Civil Service Retirement System (CSRS). Section 8423 of title 5, United States Code, as added by the FERS Act of 1986, provides for the payment of the Government's share of the cost of the retirement system under FERS. Employees' contributions are established by law and constitute only a small fraction of the cost of funding the retirement system; employing agencies are required to pay the remaining costs. The amount of funding required, known as "normal cost," is the entry age normal cost of the provisions of FERS that relate to the Civil Service Retirement and Disability Fund (Fund). The normal cost must be computed by OPM in accordance with generally accepted actuarial practices and standards (using dynamic assumptions). Subpart D of part 841 of title 5, Code of Federal Regulations, regulates how normal costs are determined.

Recently, the Board of Actuaries of the Civil Service Retirement System approved a revised set of economic assumptions for use in the dynamic actuarial valuations of FERS. These assumptions were adopted after the Board reviewed statistical data prepared by the OPM actuaries and considered trends that may affect future experience under the System.

Based on its analysis, the Board concluded that it would be appropriate to assume a rate of investment return of 6.25 percent, a reduction of .50 percent from the current rate of 6.75 percent. The Board reduced the anticipated inflation rate from 3.75 percent to 3.25 percent, and reduced the projected rate of General Schedule salary increases from 4.25 percent to 4.00 percent. These salary increases are in addition to assumed in-grade increases that reflect past experience.

The new assumptions anticipate that over the long term the annual rate of investment return will exceed inflation

by 3 percent and General Schedule salary increases will exceed inflation by .75 percent a year, as compared to 3 percent and .50 percent, respectively, under the previous assumptions. In addition, due to a considerable decline in the rate of early retirements, the Board reduced its demographic assumption of the anticipated rate of early retirements.

The normal cost calculations depend on both the economic and demographic assumptions. The demographic assumptions are determined separately for each of a number of special groups, in cases where separate experience data is available. Based on the new economic assumptions and the change in the demographic assumption concerning the rate of early retirements, OPM has determined the normal cost percentage for each category of employees under § 841.403 of Title 5, Code of Federal Regulations. The Governmentwide normal cost percentages, including the employee contributions, are as follows:

	Percent
Members	17.7
Congressional employees	17.9
Law enforcement officers, members of the Supreme Court Police, firefighters, nuclear materials couriers and employees under section 302 of the Central Intelligence Agency Act of 1964 for Certain Employees	25.1
Air traffic controllers	24.4
Military reserve technicians	14.7
Employees under section 303 of the Central Intelligence Agency Act of 1964 for Certain Employees (when serving abroad)	17.2
All other employees	12.0

Under §841.408 of title 5, Code of Federal Regulations, these normal cost percentages are effective at the beginning of the first pay period commencing on or after October 1, 2004.

The time limit and address for filing agency appeals under §§ 841.409 through 841.412 of title 5, Code of Federal Regulations, are stated in the **DATES** and **ADDRESSES** sections of this notice.
