3. Included in TVA's reservation of rights in section 2(c) and (d) is the right to attach telecommunication facilities, including circuits, to transmission line structures and to authorize third parties to attach or underbuild electric distribution circuits or communications equipment to such structures or to the communication facilities;

provided, however, that such third party uses may be subject to the imposition of fees by USDA-FS.

4. With respect to the reservation by TVA in section 2(c) and (d) of the rights to operate, maintain, construct, modify, and upgrade certain facilities, it is understood and agreed that any assignee of, or successor-in-interest to, TVA is permitted to operate, maintain, repair, and rebuild facilities in existence at the time of such transfer of interest but not build additional facilities without the prior written consent of USDA-FS. Further, before any assignee or successor-in-interest commences or engages in any construction, modification, or upgrading with respect to such facilities, the assignee or successor must first obtain USDA-FS's written authorization.

6. TVA in no way warrants the extent of the United States' interests in LBL.

7. Nothing contained in this agreement shall be construed to affect the interests, if any, of the U.S. Army Corps of Engineers or any other third party in any portion of LBL.
