

Proposed Rules

Federal Register

Vol. 68, No. 205

Thursday, October 23, 2003

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

FARM CREDIT ADMINISTRATION

12 CFR Parts 614 and 615

RIN 3052-AB96

Loan Policies and Operations; Funding and Fiscal Affairs, Loan Policies and Operations, and Funding Operations; OFI Lending

AGENCY: Farm Credit Administration.

ACTION: Proposed rule; reopening of comment period.

SUMMARY: The Farm Credit Administration (FCA, agency, or we) is reopening the comment period on the proposed rule to amend the agency's regulations governing other financing institutions (OFIs) and investments in Farmers' notes so all interested parties will have more time to respond.

DATES: Please send your comments to the FCA by December 22, 2003.

ADDRESSES: We encourage you to send comments by electronic mail to "reg-comm@fca.gov" or through the Pending Regulations section of FCA's Web site, "<http://www.fca.gov>." You may also send comments to S. Robert Coleman, Director, Regulation and Policy Division, Office of Policy and Analysis, Farm Credit Administration, 1501 Farm Credit Drive, McLean, Virginia 22102-5090 or by facsimile to (703) 734-5784. You may review copies of all comments we receive at our office in McLean, Virginia.

FOR FURTHER INFORMATION CONTACT: Dennis K. Carpenter, Senior Policy Analyst, Office of Policy and Analysis, Farm Credit Administration, McLean, VA 22102-5090, (703) 883-4498, TTY (703) 883-4434 or Richard A. Katz, Senior Attorney, Office of General Counsel, Farm Credit Administration, McLean, VA 22102-5090, (703) 883-4020, TTY (703) 883-2020.

SUPPLEMENTARY INFORMATION: On August 11, 2003, we published a proposed rule in the *Federal Register* seeking public comment on amendments to regulations governing other financing institutions and investments in Farmers' notes. The

comment period expired on October 10, 2003. See 68 FR 47502, August 11, 2003. One member of the public has requested that the FCA provide interested parties an additional 60 days to comment. In response to this request, we are reopening the comment period until December 22, 2003, so all interested parties have more time to respond. The FCA supports public involvement and participation in its regulatory and policy process and invites all interested parties to review and provide comments on the proposed rule.

Dated: October 17, 2003.

Jeanette C. Brinkley,
Secretary, Farm Credit Administration Board.

Federal Aviation Administration

14 CFR Part 39

[Docket No. 2003-NE-38-AD]

RIN 2120-AA64

Airworthiness Directives; Rolls-Royce plc RB211 Trent 800 Series Turbofan Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: The FAA proposes to adopt a new airworthiness directive (AD) for Rolls-Royce plc (RR) models RB211 Trent 875-17, Trent 877-17, Trent 884-17, Trent 892-17, Trent 892B-17, and Trent 895-17 turbofan engines, with low pressure (LP) compressor fan blades part number (P/N) FW18548 installed. This proposed AD would require LP compressor fan blade replacement with new or previously reworked blades, or rework of the existing LP compressor fan blades. This proposed AD is prompted by a number of new production LP compressor fan blades found with surfaces formed outside of design intent. Findings included sharp edges, burrs, and damage present in the area at the top of the shear key slots. We are proposing this AD to prevent possible multiple uncontained LP compressor fan blade failure, due to cracking in the blade root caused by increased stresses in the shear key slots.

DATES: We must receive any comments on this proposed AD by December 22, 2003.

ADDRESSES: Use one of the following addresses to submit comments on this proposed AD:

- By mail: Federal Aviation Administration (FAA), New England Region, Office of the Regional Counsel, Attention: Rules Docket No. 2003-NE-38-AD, 12 New England Executive Park, Burlington, MA 01803-5299.
- By fax: (781) 238-7055.
- By e-mail: 9-ane-adcomment@faa.gov.

You can get the service information identified in this proposed AD from Rolls-Royce plc, PO Box 31, Derby, England, DE248BJ; telephone: 011-44-1332-242424; fax: 011-44-1332-245418.

You may examine the AD docket, by appointment, at the FAA, New England Region, Office of the Regional Counsel, 12 New England Executive Park, Burlington, MA.

FOR FURTHER INFORMATION CONTACT: James Lawrence, Aerospace Engineer, Engine Certification Office, FAA, Engine And Propeller Directorate, 12 New England Executive Park; Burlington, MA 01803-5299; telephone (781) 238-7176; fax (781) 238-7199.

SUPPLEMENTARY INFORMATION:

Comments Invited

We invite you to submit any written relevant data, views, or arguments regarding this proposal. Send your comments to an address listed under **ADDRESSES**. Include "AD Docket No. 2003-NE-38-AD" in the subject line of your comments. If you want us to acknowledge receipt of your mailed comments, send us a self-addressed, stamped postcard with the docket number written on it; we will date-stamp your postcard and mail it back to you. We specifically invite comments on the overall regulatory, economic, environmental, and energy aspects of the proposed AD. If a person contacts us verbally, and that contact relates to a substantive part of this proposed AD, we will summarize the contact and place the summary in the docket. We will consider all comments received by the closing date and may amend the proposed AD in light of those comments.

We are reviewing the writing style we currently use in regulatory documents.

We are interested in your comments on whether the style of this document is clear, and your suggestions to improve the clarity of our communications that affect you. You may get more information about plain language at <http://www.faa.gov/language> and <http://www.plainlanguage.gov>.

Examining the AD Docket

You may examine the AD Docket (including any comments and service information), by appointment, between 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. See **ADDRESSES** for the location.

Discussion

The Civil Aviation Authority (CAA), which is the airworthiness authority for the United Kingdom (U.K.), recently notified the FAA that an unsafe condition may exist on Rolls-Royce plc RB211 Trent 800 series turbofan engines. The CAA advises that the results of a recent examination of a number of new production LP compressor fan blades, found surfaces in the area of the shear key slot and the junction of the blade root profile, to be formed outside of design intent. Findings included sharp edges, burrs, and damage present in the area at the top of the shear key slots. This can lead to cracking in the blade root, causing multiple uncontained LP compressor fan blade failure.

Relevant Service Information

We have reviewed and approved the technical contents of service bulletin No. RB.211-72-E044, Revision 1, dated May 2, 2003, that describes procedures for reworking LP compressor fan blades, P/N FW18548.

FAA's Determination and Requirements of the Proposed AD

These Rolls-Royce plc (RR) models RB211 Trent 875-17, Trent 877-17, Trent 884-17, Trent 892-17, Trent 892B-17, and Trent 895-17 turbofan engines, manufactured in the U.K., are type-certificated for operation in the United States under the provisions of section 21.29 of the Federal Aviation Regulations (14 CFR 21.29) and the applicable bilateral airworthiness agreement. Pursuant to this bilateral airworthiness agreement, the CAA has kept us informed of the situation described above. We have examined the CAA's findings, reviewed all available information, and determined that AD action is necessary for products of this type design that are certificated for operation in the United States. Therefore, we are proposing this AD, which would require, at or before the

accumulation of certain cycles-since-new based on engine application, replacement of LP compressor fan blades, P/N FW18548, with new or previously reworked LP compressor fan blades, or rework of the existing blades.

Changes to 14 CFR Part 39—Effect on the Proposed AD

On July 10, 2002, we published a new version of 14 CFR part 39 (67 FR 47997, July 22, 2002), which governs the FAA's AD system. This regulation now includes material that relates to altered products, special flight permits, and alternative methods of compliance. This material previously was included in each individual AD. Since this material is included in 14 CFR part 39, we will not include it in future AD actions.

Costs of Compliance

There are about 350 RR models RB211 Trent 875-17, Trent 877-17, Trent 884-17, Trent 892-17, Trent 892B-17, and Trent 895-17 turbofan engines of the affected design in the worldwide fleet. We estimate that 106 engines installed on airplanes of U.S. registry would be affected by this proposed AD. We also estimate that it would take about 100 work hours per engine to perform blade rework, and that the average labor rate is \$65 per work hour. Based on these figures, we estimate the total cost of the proposed AD to U.S. operators to be \$689,000.

Regulatory Findings

We have determined that this proposed AD would not have federalism implications under Executive Order 13132. This proposed AD would not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that the proposed regulation:

1. Is not a "significant regulatory action" under Executive Order 12866;
2. Is not a "significant rule" under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and
3. Would not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

We prepared a summary of the costs to comply with this proposal and placed it in the AD Docket. You may get a copy of this summary by sending a request to us at the address listed under **ADDRESSES**. Include "AD Docket No. 2003-NE-38-AD" in your request.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

The Proposed Amendment

Accordingly, under the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. The FAA amends § 39.13 by adding the following new airworthiness directive:

Rolls-Royce plc: Docket No. 2003-NE-38-AD.

Comments Due Date

- (a) The FAA must receive comments on this airworthiness directive (AD) action by December 22, 2003.

Affected ADs

- (b) None.

Applicability

- (c) This AD applies to Rolls-Royce plc (RR) models RB211 Trent 875-17, Trent 877-17, Trent 884-17, Trent 892-17, Trent 892B-17, and Trent 895-17 turbofan engines, with low pressure (LP) compressor fan blades, part number (P/N) FW18548 installed. These engines are installed on, but not limited to, Boeing 777 series airplanes.

Unsafe Condition

- (d) This AD was prompted by a number of new production LP compressor blades found with surfaces formed outside of design intent. Findings included sharp edges, burrs, and damage present in the area at the top of the shear key slots. We are issuing this AD to prevent possible multiple uncontained LP compressor fan blade failure, due to cracking in the blade root caused by increased stresses in the shear key slots.

Compliance

- (e) You are responsible for having the actions required by this AD performed within the compliance times specified unless the actions have already been done.

Actions Required for LP Compressor Fan Blades

- (f) Replace LP compressor fan blades with new or previously reworked LP compressor blades at or before accumulating the specified cycles in the following Table 1, or rework the existing blades as specified in paragraph (g) of this AD.

- (g) Rework LP compressor fan blades at or before accumulating the specified cycles in the following Table 1. Follow paragraphs 3.A. through 3.B.(22) of Accomplishment Instructions of RR service bulletin (SB) No.

RB.211-72-E044, Revision 1, dated May 2, 2003, to do the blade rework.

TABLE 1.—LP COMPRESSOR FAN BLADE REPLACEMENT OR REWORK SCHEDULE

For engines installed on:	Engine model:	Replace or rework LP compressor fan blades at or before accumulating:
(1) Boeing 777-300	Trent 884-17 and Trent 892-17	2,400 cycles-since-new (CSN).
(2) Boeing 777-200IGW	(i) Trent 892-17	4,100 CSN.
	(ii) Trent 895-17	3,200 CSN.
(3) Boeing 777-200ER	Trent 892B-17	4,100 CSN.
(4) Boeing 777-200	Trent 875-17, Trent 877-17, and Trent 884-17.	4,100 CSN.

Alternative Methods of Compliance

(h) The Manager, Engine Certification Office, has the authority to approve alternative methods of compliance for this AD if requested using the procedures found in 14 CFR 39.19.

Material Incorporated by Reference

(i) You must use RR SB No. RB.211-72-E044, Revision 1, dated May 2, 2003, to perform the blade rework required by this AD.

Related Information

(j) CAA airworthiness directive 001-05-2003, dated June 20, 2003, also addresses the subject of this AD, and RR SB No. RB.211-72-E055, Revision 1, dated June 20, 2003, pertains to the subject of this AD.

Issued in Burlington, Massachusetts, on October 16, 2003.

Jay J. Pardee,

Manager, Engine and Propeller Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-P

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Chapter II, Subchapter D

Ignition of Upholstered Furniture by Small Open Flames and/or Smoldering Cigarettes; Advance Notice of Proposed Rulemaking; Request for Comments and Information

AGENCY: Consumer Product Safety Commission.

ACTION: Advance notice of proposed rulemaking.

SUMMARY: The Consumer Product Safety Commission (CPSC or Commission) has found, based on available information, that a new flammability standard or other regulation may be needed for upholstered furniture products and for fabrics and related materials used in, or intended for use in, upholstered furniture, to protect the public against unreasonable risk of fire leading to death, personal injury, or significant property damage. The risk of fire

addressed in today's advance notice of proposed rulemaking (ANPR) is from ignition of upholstered furniture by small open flames and/or smoldering cigarettes. This proceeding is being conducted under authority of the Flammable Fabrics Act (FFA).

In 1994, the Commission commenced a regulatory proceeding under the FFA addressing the risk of fire from ignition of upholstered furniture by small open flame sources such as matches, cigarette lighters, and candles. 59 FR 30735 (1994). This ANPR reflects the Commission's decision to expand that proceeding to explicitly address cigarette ignitions as well.¹

The Commission solicits written comments from interested persons concerning the risk of injury and death associated with ignition of upholstered furniture by smoldering cigarettes and/or small open flames, data on cigarette or small open flame ignition testing of upholstered furniture, the regulatory alternatives discussed in this notice, other possible means to address this risk, and the economic impacts of the various alternatives. The Commission also invites interested persons to submit an existing standard, or a statement of intent to modify or develop a voluntary standard, to address the risk of death or injury due to ignition of upholstered furniture by small open flames and/or smoldering cigarettes.

DATES: Written comments and submissions in response to this notice must be received by December 22, 2003.

ADDRESSES: Comments and other submissions should be captioned "Upholstered Furniture Flammability Proceeding" and mailed to the Office of the Secretary, Consumer Product Safety Commission, Washington, DC 20207, or delivered to that office, room 502, 4330 East-West Highway, Bethesda, Maryland 20814. Comments and other submissions may also be filed by

¹The Commissioners voted 3-0 to issue this ANPR. Statements of Commissioners Moore and Gall concerning the vote are available on the CPSC Web site at <http://www.cpsc.gov>.

facsimile to (301) 504-0127 or by e-mail to cpssc-os@cpssc.gov.

FOR FURTHER INFORMATION CONTACT: Dale R. Ray, Project Manager, Directorate for Economic Analysis, U.S. Consumer Product Safety Commission, Washington, DC 20207; telephone (301) 504-7704; fax (301) 504-0109; e-mail dray@cpssc.gov.

SUPPLEMENTARY INFORMATION:

A. The Product

Products within the scope of this ANPR include: (1) upholstered furniture used in homes, offices, and other places of assembly and public accommodation that consist in whole or in part of resilient materials (such as polyurethane foam, cotton batting, or related materials) enclosed within a covering consisting of fabric or related materials, and (2) fabric or related materials used or intended for use in the production of upholstered furniture. This scope is the same as that of the Commission proceeding commenced in 1994 under the FFA concerning small open flame ignition of upholstered furniture. 59 FR 30735 (1994).

B. The Upholstered Furniture Market

The Commission staff estimates that there were over 1,500 U.S. manufacturers of upholstered furniture, accounting for an estimated \$8.4 billion in shipments in 1997, the most recent year for which Census of Manufacturers data are available.² In that year, imports

²The technical and economic information summarized in this ANPR is set forth in considerably more detail in the various CPSC staff briefing materials prepared on the subject of upholstered furniture flammability, including Upholstered Furniture Flammability: Analysis of Comments from the CPSC Staff's June 2002 Public Meeting, February 2003; Upholstered Furniture Flammability: Regulatory Options, October 2001; Upholstered Furniture Flammability: Regulatory Options for Small Open Flame & Smoking Material Ignited Fires, October 1997; and Briefing Package on Petition FP 93-1, Upholstered Furniture Flammability, April 1994. These and other documents pertinent to this proceeding may be obtained from the CPSC Web site at <http://www.cpsc.gov> or from the CPSC Office of the
