

alkaline liquids, solvents, oils and coolants. The Kansas City Plant is a non-nuclear site and does not have special nuclear materials, but operations do generate small quantities of low-level radioactive waste.

GSA and NNSA believe that the relocation of the non-nuclear production mission to another location outside of the Kansas City Metropolitan Area is not a reasonable alternative and do not intend to analyze it as an alternative in the present EA.

DOE completed a Nuclear Weapons Complex Reconfiguration (Complex-21) Study in January 1991, which identified significant cost savings that could be achieved by downsizing the nuclear weapons complex. On January 27, 1992, the Department issued an NOI (57 FR 3046) to prepare an environmental assessment (DOE/EA-0792) for the consolidation of non-nuclear production activities within the nuclear weapons complex. On September 14, 1993, DOE published a Finding of No Significant Impact (FONSI) regarding its proposal (58 FR 48043) to terminate non-nuclear production missions at the Mound Plant in Ohio, the Pinellas Plant in Florida, and the Rocky Flats Plant in Colorado, and consolidate the electrical and mechanical manufacturing functions at the Kansas City Plant.

DOE issued an NOI on June 6, 1995 (60 FR 31291), a final Stockpile Stewardship and Management PEIS on November 19, 1996 (61 FR 58871), and a ROD on December 26, 1996 (61 FR 68014) announcing its decision to transform the weapons production complex by further downsizing of the nuclear weapons complex. This decision included reducing non-nuclear component fabrication capacity at the Kansas City Plant. In these documents DOE evaluated alternatives for consolidation of non-nuclear manufacturing, storage and surveillance functions of the Nuclear Weapons Complex to the Kansas City Plant and reducing the capacity for non-nuclear component fabrication.

The proposed action would continue the consolidation and downsizing of non-nuclear activities at the Kansas City Plant begun in the early 1990s. The alternatives are constructed around the mission need to maintain the Kansas City Plant while downsizing for cost efficiency. Keeping these activities in the Kansas City area is consistent with NNSA's broader proposed transformation of the U.S. nuclear weapons complex and is based on the previous NEPA analyses and decisions described above, and on an economic analysis that will be included in the Environmental Assessment. GSA and

NNSA invite and will consider comments on this issue during the scoping process.

Separately, NNSA is preparing a Supplement to the Stockpile Stewardship and Management Programmatic Environmental Impact Statement—Complex 2030 (DOE/EIS-0236-S4) that evaluates alternatives for the continued transformation of the nuclear weapons complex. As explained in the NOI for that Supplemental PEIS (71 FR 61731; October 19, 2006), “NNSA believes that it is appropriate to separate the analyses of the transformation of non-nuclear production from the Supplemental PEIS because decisions regarding non-nuclear activities would neither significantly affect nor be affected by decisions regarding the transformation of nuclear production activities.”

Dated: April 23, 2007.

Carlos A Salazar,

Regional NEPA Coordinator, Portfolio Management Division (6PTA), GSA Public Buildings Service, Heartland Region.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Nominations Requested/Open for the 2007 Innovation in Prevention Awards

AGENCY: Department of Health and Human Services, Office of the Secretary.

ACTION: Notice.

SUMMARY: The Department of Health and Human Services (HHS) seeks nominations of public and private sector organizations to receive the 2007 Innovation in Prevention Awards. This activity seeks to advance President George W. Bush's HealthierUS goal of helping Americans live longer, better, and healthier lives. The statutory authority for this health promotion activity is Section 1703 [42 U.S.C. 300u-2] from Title XVII of the Public Health Service Act. The Innovation in Prevention Awards Initiative will identify and celebrate outstanding organizations that have implemented innovative and creative chronic disease prevention and health promotion programs. To be nominated, a program must address at least one of the following risk categories:

- (1) Obesity;
- (2) Physical activity; and
- (3) Nutrition.

The Department intends that these awards will provide an opportunity to increase public awareness of creative approaches to develop and expand

innovative health programs and encourage duplication of successful strategies.

Awards will be given in the following categories:

- Faith-Based and/or Community Initiatives.
- Health Care Delivery.
- Healthy Workplace.
- Large Employer > 500 employees.
- Small Employer < 500 employees.
- Non-Profit.
- Public Sector.
- Schools (K-12).

The following criteria will be taken into consideration upon review:

- Creativity/Innovation.
- Leadership.
- Sustainability.
- Replicability.
- Effectiveness (results/outcomes).
- Receipt of other awards or

recognition at the national, state, or local level.

DATES: Nominations must be received by 5 p.m. EDT on June 29, 2007.

Nominations: Partnership for Prevention, a 501(c)(3) organization focused on health promotion, is coordinating the nomination process for the Innovation in Prevention Awards on behalf of the HHS. Nominations can only be made electronically at <http://www.prevent.org/awards2007>. For more information, contact Partnership for Prevention at (202) 785-4943 or innovationawards@prevent.org. Partnership for Prevention may request additional information as necessary.

SUPPLEMENTARY INFORMATION: The Department of Health and Human Services is the U.S. government's principal agency for promoting and protecting the health of all Americans. The HHS manages many programs, covering a broad spectrum of health promotion and disease prevention services and activities. Leaders in the business community, State and local government officials, tribes and tribal entities, and charitable, faith-based, and community organizations have expressed an interest in working with the Department to promote healthy choices and behaviors. The Secretary welcomes this interest. With this notice, the Secretary outlines opportunities to identify and celebrate outstanding organizations that have implemented innovative and creative chronic disease prevention and health promotion programs.

Dated: April 25, 2007.

John O. Agwunobi,

Assistant Secretary for Health.
