

edition to the Director of the Federal Register for approval for incorporation by reference in section 71.1.

The FAA has determined that this action (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. This action neither places any new restrictions or requirements on the public, nor changes the dimensions or operation requirements of the airspace listings incorporated by reference in part 71. Consequently, notice and public procedure under 5 U.S.C. 553(b) are unnecessary. Because this action will continue to update the changes to the airspace designations, which are depicted on aeronautical charts, and to avoid any unnecessary pilot confusion, I find that good cause exists, under 5 U.S.C. 553(d), for making this amendment effective in less than 30 days.
