

disabilities; (4) accommodations and supports to assess grade-level content; (5) working with States to develop assessments; (6) development of criterion-referenced tests and instruments; (7) psychometric evaluation; (8) conducting studies of the technical adequacy of assessment instruments; (9) research and publishing in the area of assessment and psychometrics; and (10) applying the principles of universal design to large-scale assessments.

Projects funded under this priority also must—

(a) Budget to attend a three-day Project Directors' meeting in Washington, DC;

(b) If the project maintains a Web site, include relevant information and documents in a format that meets a government or industry-recognized standard for accessibility; and

(c) Provide a written assurance that the State's Assessment Office (*i.e.*, the office that addresses accountability under Title I of the ESEA) was given the opportunity to contribute to the formulation of the application.

Background of Proposed Priority C—Outcome Measures

The cornerstone of any accountability system is the development of outcome indicators against which progress can be measured. State performance reports, self-assessments, and other extant data show that most States and Lead Agencies, as defined under Part C of the IDEA (section 635(a)(10)), as well as their LEAs and Early Intervention Service programs, do not have well developed systems for measuring the progress of infants, toddlers, and young children with disabilities and their families served under Part B and Part C of the IDEA or methods to collect and analyze Part B and Part C outcome indicator data. Therefore, most States lack the capacity to collect sufficient data to determine the impact of early intervention and special education services for these children.

Priority C—Outcome Measures

The Assistant Secretary for Special Education and Rehabilitative Services establishes a priority for projects that address the needs of States for technical assistance to improve their capacity to meet Federal data collection requirements in one or both of two focus areas.

Focus Area One. Focus Area One supports the development or enhancement of Part B State systems for collecting, analyzing, and reporting preschool outcome indicator data. Projects funded under Focus Area One

must focus on improving the capacity of the State to provide information that could be used to determine the following:

(a) The outcomes associated with preschool children with disabilities participating in State Part B programs.

(b) If the State has standards for preschool disability outcomes, whether preschool children with disabilities are meeting those standards.

(c) Trend data on outcomes associated with preschool children with disabilities and the extent to which preschool children with disabilities are meeting State standards.

Focus Area Two. Focus Area Two supports the development or enhancement of Part C systems for collecting, analyzing, and reporting outcome indicator data. Projects funded under Focus Area Two must focus on improving the capacity of the State to provide information that could be used to determine the following:

(a) The outcomes associated with infants and toddlers with disabilities and their families participating in State Part C programs.

(b) If the State has standards for early intervention outcomes, whether infants and toddlers with disabilities are meeting those standards.

(c) Trend data on outcomes associated with infants and toddlers with disabilities and their families and the extent to which infants and toddlers with disabilities are meeting State standards.

Projects funded under this priority also must—

(a) Budget to attend a three-day Project Directors' meeting in Washington, DC; and

(b) If the project maintains a Web site, include relevant information and documents in a format that meets a government or industry-recognized standard for accessibility.

ENVIRONMENTAL PROTECTION AGENCY

Amendment of System Records Notice for the PeoplePlus

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of an Amendment of an existing System of Records Notice for the PeoplePlus.

SUMMARY: Pursuant to the provisions of the Privacy Act of 1974 (5 U.S.C. 552a), the Office of Administration and Resources Management (OARM) is giving notice that it proposes to AMEND AN EXISTING SYSTEM OF RECORDS for EPA-1 PeoplePlus. The Environmental Protection Agency (EPA or Agency) is amending a Privacy Act system of records to reflect the agency's collection of employee data determined to be privacy and or personally identifiable information (PII). In previous amendments the Human Capital Management (HCM) function of PeoplePlus was always the underlying source of employee information when providing Benefits, Payroll, and Time and Labor processing. The data collected includes, but is not limited to, contents of employee information in the Official Personnel Folder (OPF) as specified in the Office of Personnel Management (OPM) Operating Manual, "The Guide to Personnel Recordkeeping," but never to this level of detail. Further, the system's name is changing from "PeoplePlus Payroll, Time and Labor Application" to "PeoplePlus" because the name included functions of PeoplePlus which changed recently with the e-Payrolls initiative. This notice does not affect any Privacy Act rights already accorded individuals who are subject of Agency
