AGENCY: U.S. Office of Personnel Management (OPM).

ACTION: Notice of a new system of records.

SUMMARY: OPM proposes to add a new system of records to its inventory of records systems subject the Privacy Act of 1974 (5 U.S.C. 552a), as amended. This action is necessary to meet the requirements of the Privacy Act to publish in the **Federal Register** notice of the existence and character of records maintained by the agency (5 U.S.C. 552a(e)(4)).

DATES: The new system will be effective without further notice on December 3, 2007, unless we receive comments that result in a contrary determination.

ADDRESSES: Send written comments to the Office of Personnel Management, Attn: Sydney Smith-Heimbrock, Deputy Associate Director, Center for Human

Capital Implementation and Assessment, Office of Personnel Management, 1900 E Street, NW., Washington, DC 20415.

FOR FURTHER INFORMATION CONTACT: Angela Graham Humes, 202-606-2430.

SUPPLEMENTARY INFORMATION: The Federal Competency Assessment Tool is a web-based instrument for assessing current proficiency levels for mission critical occupations such as leadership and human resource management. It allows individuals to conduct a competency self assessment and supervisors to assess the competencies of their employees and of the position to determine competency strengths and areas for improvement.

The tool advances agencies' human capital management efforts in accordance with the Human Capital Assessment and Accountability Framework. The tool supports efforts in succession management, competency gap closure, competency development, and recruitment and retention. The tool contains competency models, a proficiency scale, a self and supervisor assessment, suggested proficiency levels for determining gaps, and agency-level access to reports and data.

The U.S. Office of Personnel Management (OPM) intends that the tool will have minimal effect on the privacy of individuals. Individual data from the tool is only available to agency designated points of contact for the tools. Additionally, oversight entities (e.g., Government Accountability Office) may request to review such data. The major reports of the tool provide aggregate data, not individual data. If requested, OPM may disclose aggregate level data from the tool via a governmentwide report. The tool was developed with minimizing the risk of unauthorized access to the system of records as an objective. To ensure the risk is minimized, the tool is hosted on a secure server and offers agency-designated access passwords.
