

Government for purposes of collecting delinquent debts. The services of an inspector to clear imported and exported commodities requiring release by Agency personnel are covered by user fees during regular working hours. If an importer/exporter wishes to have a shipment of cargo or animals cleared at other hours, such services will usually be provided on a reimbursable overtime basis, unless already covered by a user fee. The Animal and Plant Health Inspection Service (APHIS) will collect information using APHIS form 192, Application for Credit Account and Request for Service.

Need and Use of the Information: APHIS will collect information to conduct a credit check on prospective applicants to ensure credit worthiness prior to extending credit services. Without this information, customers (including small business) would have to pay each time a service is provided.

Description of Respondents: Business or other for-profit.

Number of Respondents: 256.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 64.

Ruth Brown,

Departmental Information Collection Clearance Officer.

Information Systems Technical Advisory Committee; Notice of Partially Closed Meeting

The Information Systems Technical Advisory Committee (ISTAC) will meet on November 7, 2007, 9 a.m., in the Herbert C. Hoover Building, Room 4830, and November 8, 2007, 9 a.m., in the Herbert C. Hoover Building, Room 3884, 14th Street between Constitution and Pennsylvania Avenues, NW., Washington, DC. The Committee advises the Office of the Assistant Secretary for Export Administration on technical questions that affect the level of export controls applicable to information systems equipment and technology.

Wednesday, November 7

Public Session

- Welcome and Introduction.
- SEMI Comments: China Rule, VEU, Industry Forecast.
- Industry Encryption Presentation.
- Range and Standards.

5. History of Encryption Hardware.

6. MIMO Technology Overview.

7. *Discussion:* Draft Wassenaar Proposals for 2008.

8. *Discussion:* Comprehensive Review of Commerce Control List.

Thursday, November 8

Closed Session

9. Discussion of matters determined to be exempt from the provisions relating to public meetings found in 5 U.S.C. app. 2 10(a)(1) and 10(a)(3).

The open session will be accessible via teleconference to 20 participants on a first come, first serve basis. To join the conference, submit inquiries to Ms. Yvette Springer at Yspringer@bis.doc.gov, no later than October 31, 2007.

A limited number of seats will be available for the public session. Reservations are not accepted. To the extent time permits, members of the public may present oral statements to the Committee. The public may submit written statements at any time before or after the meeting. However, to facilitate distribution of public presentation materials to Committee members, the Committee suggests that public presentation materials or comments be forwarded before the meeting to Ms. Springer.

The Assistant Secretary for Administration, with the concurrence of the delegate of the General Counsel, formally determined on October 16, 2007, pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. app. 2 10(d)), that the portion of the meeting concerning trade secrets and commercial or financial information deemed privileged or confidential as described in 5 U.S.C. 552b(c)(4) and the portion of the meeting concerning matters the disclosure of which would be likely to frustrate significantly implementation of an agency action as described in 5 U.S.C. 552b(c)(9)(B) shall be exempt from the provisions relating to public meetings found in 5 U.S.C. app. 2 10(a)(1) and 10(a)(3). The remaining portions of the meeting will be open to the public.

For more information, call Yvette Springer at (202) 482-2813.

Dated: October 17, 2007.

Yvette Springer,

Committee Liaison Officer.

Circular Welded Carbon Steel Pipes and Tubes from Thailand: Extension of Time Limit for Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: October 23, 2007.

FOR FURTHER INFORMATION CONTACT:

Myrna Lobo, AD/CVD Operations, Office 6, Import Administration, International Trade Administration, Department of Commerce, Room 7866, 14th Street and Constitution Avenue, NW, Washington DC 20230; telephone: (202) 482-2371.

SUPPLEMENTARY INFORMATION:

Background

On April 27, 2007, the Department of Commerce (the Department) published in the **Federal Register** the notice of initiation of the administrative review of the antidumping duty order on circular welded carbon steel pipes and tubes from Thailand. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 72 FR 20986 (April 27, 2007). The period of review is March 1, 2006 through February 28, 2007.

Extension of Time Limit for Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), and section 351.213(h)(1) of the Department's regulations require the Department to issue the preliminary results of a review within 245 days after the last day of the anniversary month of the order or suspension agreement for which the administrative review was requested, and final results of the review within 120 days after the date on which the notice of the preliminary results is published in the **Federal Register**. However, if the Department determines that it is not practicable to complete the review within the aforementioned specified time limits, section 751(a)(3)(A) of the Act and section 351.213(h)(2) of the Department's regulations allow the Department to extend the 245-day period to 365 days and to extend the 120-day period to 180 days.

The Department requires additional time to evaluate respondent's (Saha Thai Steel Pipe Company, Ltd.) questionnaire responses in order to

conduct a thorough analysis of all information on the record. Specifically, the Department needs to analyze respondent's sales to affiliated resellers, their downstream sales and the levels of trade at which these transactions occurred. Therefore, the Department finds that it is not practicable to complete the preliminary results of this review within the original time limit and is extending the deadline for completion of the preliminary results of this administrative review of the antidumping duty order on circular welded carbon steel pipes and tubes from Thailand by 120 days, from December 1, 2007 to March 30, 2008. Because March 30, 2008 is a Sunday, the Department will issue the preliminary results no later than March 31, 2008, which is the next business day after the 120-day extension period.

This notice is issued and published pursuant to sections 751(a)(3)(A) and 777(i)(1) of the Act.

Dated: October 16, 2007.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

Certain Small Diameter Seamless Carbon and Alloy Steel Standard, Line and Pressure Pipe from Brazil: Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On July 11, 2007, the Department of Commerce (the Department) published the preliminary results of the administrative review of the antidumping order on certain small diameter seamless carbon and alloy steel standard, line and pressure pipe (seamless pipe) from Brazil. See *Certain Small Diameter Seamless Carbon and Alloy Steel Standard, Line and Pressure Pipe from Brazil; Preliminary Results of Antidumping Duty Administrative Review*, 72 FR 37723 (July 11, 2007) (*Preliminary Results*). The review covers one producer/exporter, V&M do Brasil, S.A. (VMB). The period of review (POR) is August 1, 2005, through July 15, 2006.¹ We invited interested parties to

comment on our Preliminary Results. The Department received no comments concerning our preliminary results; therefore, our final results remain unchanged from our preliminary results. The final results are listed in the section "Final Results of Review" below.

EFFECTIVE DATE: October 23, 2007.

FOR FURTHER INFORMATION CONTACT: Dena Crossland or Stephen Bailey, AD/CVD Operations, Office 7, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-3362 or (202) 482-0193, respectively.

SUPPLEMENTARY INFORMATION:

Background

On May 2, 2007, the International Trade Commission determined revocation of the antidumping duty orders on seamless pipe from Argentina and Brazil would not likely lead to continuation or recurrence of material injury to an industry in the United States. See *Certain Seamless Carbon and Alloy Steel Standard, Line, and Pressure Pipe from Argentina, Brazil, and Germany*, 72 FR 26153 (May 8, 2007), and *ITC Publication 3918* (May 2007), Investigation No. 731-TA-707-709 (Second Review). Thus, the Department revoked the antidumping duty orders on seamless line pipe from Argentina and Brazil, pursuant to sections 751(c) and 751(d) of the Act. See *Revocation Pursuant to Second Five-year ("Sunset") Reviews of Antidumping Duty Orders: Certain Small Diameter Carbon and Alloy Seamless Standard, Line and Pressure Pipe from Argentina and Brazil*, 72 FR 28027 (May 18, 2007) (*Revocation of Seamless Pipe from Argentina and Brazil*). The Department stated in the *Revocation of Seamless Pipe from Argentina and Brazil* that it will complete any pending administrative reviews of these orders and will conduct administrative reviews of subject merchandise entered prior to the effective date of revocation in response to appropriately filed requests for review. Pursuant to section 751(d)(2) of the Act and 19 CFR 351.222(i)(2)(i), the effective date of revocation is July 16, 2006. As a result, the Department is completing the instant review of seamless pipe from Brazil. Accordingly, the period of review for this proceeding is from August 1, 2005, to July 15, 2006.

On July 11, 2007, the Department published the preliminary results of this

review in the **Federal Register**. See Preliminary Results. We invited parties to comment on the *Preliminary Results*. We received no comments or a request for a hearing.

Scope of the Antidumping Duty Review

The products covered by this antidumping duty review are seamless pipes produced to the ASTM A-335, ASTM A-106, ASTM A-53 and API 5L specifications and meeting the physical parameters described below, regardless of application. The scope of this review also includes all products used in standard, line, or pressure pipe applications and meeting the physical parameters below, regardless of specification.

For purposes of this review, seamless pipes are seamless carbon and alloy (other than stainless) steel pipes, of circular cross-section, not more than 114.3 mm (4.5 inches) in outside diameter, regardless of wall thickness, manufacturing process (hot-finished or cold-drawn), end finish (plain end, beveled end, upset end, threaded, or threaded and coupled), or surface finish. These pipes are commonly known as standard pipe, line pipe or pressure pipe, depending upon the application. They may also be used in structural applications. Pipes produced in non-standard wall thickness are commonly referred to as tubes.

The seamless pipes subject to this antidumping duty review are currently classifiable under subheadings 7304.19.10.20, 7304.19.50.20, 7304.31.60.50, 7304.39.00.16, 7304.39.00.20, 7304.39.00.24, 7304.39.00.28, 7304.39.00.32, 7304.51.50.05, 7304.51.50.60, 7304.59.60.00, 7304.59.80.10, 7304.59.80.15, 7304.59.80.20, and 7304.59.80.25 of the Harmonized Tariff Schedule of the United States (HTSUS). The following information further defines the scope of this order, which covers pipes meeting the physical parameters described above:

Specifications, Characteristics and Uses: Seamless pressure pipes are intended for the conveyance of water, steam, petrochemicals, chemicals, oil products, natural gas, and other liquids and gasses in industrial piping systems. They may carry these substances at elevated pressures and temperatures and may be subject to the application of external heat. Seamless carbon steel pressure pipe meeting the ASTM standard A-106 may be used in temperatures of up to 1000 degrees Fahrenheit, at various American Society of Mechanical Engineers ("ASME") code stress levels. Alloy pipes made to ASTM standard A-335 must be used if

¹ Since the effective date of revocation of the antidumping duty order pursuant to the sunset review (see *infra* Background Section) is July 16,

2006, the POR is August 1, 2005, through July 15, 2006.
