- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information:

(1) *Type of information collection:* New collection.

(2) *Title of the Form/Collection:* Identity Theft Supplement (ITS) to the National Crime Victimization Survey.

(3) *Agency form number, if any, and the applicable component of the department sponsoring the collection:* ITS-1. Bureau of Justice Statistics, Office of Justice Programs, Department of Justice.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract.* Primary: Persons 16 years or older in NCVS sampled households in the United States. The Identity Theft Supplement (ITS) to the National Crime Victimization Survey collects, analyzes, publishes, and disseminates statistics on the prevalence, economic cost, and consequences of identity theft on victims.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond/reply:* Approximately 62,730 persons 18 years of age or older will complete an ITS interview. The majority of respondents, approximately 58,970 will be administered only the screening portion of the ITS which are designed to filter out those people who have not been victims of repetitive harassing or unwanted contacts and therefore are not eligible to continue with the remainder of the supplement questions. We

estimate the average length of the ITS interview for these individuals will be 0.05 hours (three minutes). The complement of this group of respondents are those who had such experienced identity theft. According to the estimates by the Federal Trade Commission, we expect about 6 percent or 3,764 of the respondents to report being a victim of identity theft during the two years preceding the interview. We estimate each of these interviews will take 0.25 hours (15 minutes) to complete.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total respondent burden is approximately 3,891 hours.

### Employment and Training Administration

#### **Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance**

Petitions have been filed with the Secretary of Labor under section 221 (a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Division of Trade Adjustment Assistance, Employment and Training Administration, has instituted investigations pursuant to section 221 (a) of the Act.

The purpose of each of the investigations is to determine whether the workers are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

The petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such
