Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance

Officer at (404) 639-4766 or send an e-mail to omb@cdc.gov. Send written comments to CDC Desk Officer, Office of Management and Budget, Washington, DC or by fax to (202) 395-6974. Written comments should be received within 30 days of this notice.

Proposed Project

List of Ingredients Added to Tobacco in the Manufacture of Cigarette Products—Reinstatement with Change—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Cigarette smoking is the leading preventable cause of premature death and disability in the United States. Each year more than 440,000 premature deaths occur as the result of smoking related diseases.

The Comprehensive Smokeless Tobacco Health Education Act of 1986

(15 U.S.C. 4401 et seq., Pub. L. 99-252) requires each person who manufactures, packages, or imports cigarettes to provide the Secretary of Health and Human Services (HHS) with a list of ingredients added to tobacco in the manufacture of cigarettes. This legislation also authorizes HHS to undertake research, and submit an annual report to Congress (as deemed appropriate) discussing the health effects of these ingredients in smokeless tobacco products. HHS has delegated responsibility for the implementation of this Act to CDC's Office on Smoking and Health (OSH). Respondents report the required information to CDC once per year according to Tobacco Ingredient and Nicotine Reporting instructions posted on the OSH web site. Changes effective with this reinstatement relate to the redesign of the OSH web site. There are no costs to respondents other than their time. The total estimated annualized burden hours are 930.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Smokeless Tobacco Manufacturers, Packagers, and Importers	143	1	6.5

Dated: December 10, 2007.

Maryam I. Daneshvar,
Acting Reports Clearance Officer, Centers for Disease Control and Prevention.

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404-639-5960 and send comments to Maryam I. Daneshvar, CDC Acting Reports Clearance Officer,

1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an e-mail to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

Evaluation of State Nutrition and Physical Activity Programs to Prevent Obesity and Other Chronic Diseases—Reinstatement with Change—National Center for Chronic Disease Prevention and Health Promotion (NCCDHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description:

The "State Nutrition and Physical Activity Programs to Prevent Obesity and Other Chronic Diseases" (NPAO) project was established by CDC to prevent and control obesity and other chronic diseases by supporting States in the development and implementation of nutrition and physical activity interventions, particularly through population-based strategies such as policy-level changes, environmental supports and the social marketing process. The goal of the programs in this project is to attain population-based behavior change such as increased physical activity and better dietary habits; this leads to a reduction in the prevalence of obesity, and ultimately to a reduction in the prevalence of chronic diseases.

Evaluation questions for "State Nutrition and Physical Activity Programs to Prevent Obesity and Other Chronic Diseases" have been previously approved under OMB control no. 0920-0669, which is scheduled to expire January 31, 2008. CDC seeks OMB approval to reinstate the evaluation in 2008 with changes, in response to feedback from users and stakeholders based on experience with the previously
