DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

Final Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final rule.

SUMMARY: Base (1% annual chance) Flood Elevations (BFEs) and modified BFEs are made final for the communities listed below. The BFEs and modified BFEs are the basis for the floodplain management measures that each community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The date of issuance of the Flood Insurance Rate Map (FIRM) showing BFEs and modified BFEs for each community. This date may be obtained by contacting the office where the maps are available for inspection as indicated on the table below.

ADDRESSES: The final BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: William R. Blanton, Jr., Engineering Management Section, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-3151.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) makes the final determinations listed below for the modified BFEs for each community listed. These modified elevations have been published in newspapers of local circulation and ninety (90) days have elapsed since that publication. The Mitigation Division Director of FEMA has resolved any appeals resulting from this notification.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR part 67. FEMA has developed criteria for floodplain management in floodprone areas in accordance with 44 CFR part 60.

Interested lessees and owners of real property are encouraged to review the

proof Flood Insurance Study and FIRM available at the address cited below for each community. The BFEs and modified BFEs are made final in the communities listed below. Elevations at selected locations in each community are shown.

National Environmental Policy Act. This final rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601-612, a regulatory flexibility analysis is not required.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This final rule involves no policies that

have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This final rule meets the applicable standards of Executive Order 12988.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 90

[WT Docket No. 02-55; FCC 07-167]

Improving Public Safety Communications in the 800 MHz Band; Petitions for Waiver of Bethlehem, Pennsylvania and Reading, PA; Petitions for Waiver of Rockdale County, Newton County, City of Covington, Walton County, and Spalding County, GA

AGENCY: Federal Communications Commission.

ACTION: Final rule; clarification.

SUMMARY: In the *Third Memorandum Opinion and Order*, the Federal Communications Commission finds that Sprint Corporation (Sprint) has not met the December 26, 2006, eighteen-month

benchmark for clearing Channel 1-120 incumbents as required by the 800 MHz rebanding process. In that connection, the Commission denies the portion of Sprint's Petition for Reconsideration that sought "clarification" of the eighteen-month benchmark. The Commission also establishes additional benchmarks to ensure timely clearing of the Channel 1-120 band by all incumbent licensees, including Sprint itself. The Commission also requires Sprint to provide monthly reports on its channel-clearing efforts. In addition, the Commission clarifies the 30-month rebanding benchmark, which requires all 800 MHz licensees that must reband to have "commenced" reconfiguration of their systems by December 26, 2007. Finally, the Commission grants several petitions by NPSAC licensees to extend their rebanding deadline until after incumbent analog broadcasters operating in their area on TV Channel 69 have vacated the spectrum as part of the DTV transition.

DATES: Effective September 12, 2007.

Background

1. In the 800 MHz Report and Order, 69 FR 67823 (November 22, 2004), the Commission ordered the rebanding of the 800 MHz band to resolve interference between commercial and public safety systems in the band. In that Order, the Commission required Sprint to complete retuning of Channel 1-120 licensees (i.e., licensees operating in the 806-809/851-854 MHz band) in twenty NPSAC regions within eighteen months of the start of the 36-month rebanding period. In the 800 MHz
