BILLING CODE 3510-DS-S

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

Proposed Information Collection; Comment Request; Survey of Information Habits and Preferences of Millennial Scientists

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before May 21, 2007.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Terrie Wheeler, Assistant Chief, Information Services Division, at (301) 975-3772, terrie.wheeler@nist.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This study will determine how the next generation of scientists, frequently referred to as the Millennial Generation, will seek scientific information in their research. This generation was born between 1982 and 2000. Having grown up with information technology, general studies show this population has technological preferences for receiving and integrating content, and this study is to learn if this extends to the scientific content among young scientists. It will identify most useful (and most desired) devices and formats, so that the Information Services Division can plan to serve the next generation of scientists. The findings will impact how digital scientific content is harvested, identified using metadata, stored, accessed, and disseminated. The project will identify young scientists' preferences for content format and ease of assimilation into current processes. Specifically the project aims to learn: (1) Which library resources and information services are most valuable and why, and (2) what scientific library resources do not exist that could, or are not yet robust enough to be valuable. Further the study aims to learn: (3) In what specific ways are commercial Internet tools both successful and unsuccessful in helping find answers, (4) which platforms and devices are most helpful and why, and (5) which technologies help support collaboration with peers. The project plans to use Summer Undergraduate Research Fellowship (SURF) students who work at the National Institute of Standards and Technology every summer as the test population. The survey is voluntary, and all information gathered will be carefully safeguarded.

II. Method of Collection

The study will use an electronic survey form. SURF students will have the URL sent to them in an e-mail message so they may take the survey on any computer with a Web browser if they choose.

III. Data

OMB Number: None.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Students enrolled in the NIST SURF program for 2007.

Estimated Number of Respondents: 100.

Estimated Time per Response: 20 minutes.

Estimated Total Annual Burden Hours: 33.

Estimated Total Annual Cost to Public: \$0.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: March 14, 2007.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

BILLING CODE 3510-13-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; West Coast Community Economic Data Collection

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before May 21, 2007.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be

directed to Philip Watson, (206) 947-3107 or philip.watson@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Marine Fisheries Service (NMFS) proposes to collect information pertaining to the economic utilization of marine resources by communities on the West Coast, in order to improve fishery management; satisfy NMFS' legal mandates under Executive Order 12866, Title 8 of the Magnuson Steven Fishery Conservation and Management Act (U.S.C. 1801 *et seq.*), as amended in 2007; and quantify achievement of the performance measures in the NMFS Strategic Operating Plans. The data collected will enable researchers to determine the degree of dependence of these communities on marine resource based activities and will inform policy makers as to the likely economic impacts of fishery and marine regulations on these communities.

Economic data for selected U.S. coastal communities will be collected for each of the following groups of operations: (1) Locally operated businesses; (2) resident households; and (3) visitors. In general, local businesses will be asked questions concerning their sources of revenue, location and levels of expenditures, ownership, dependence on the fisheries and other marine resources, and fishery employment. Households will be asked questions concerning their sources of income, the location of expenditures made, and their dependence on fishing and other marine resources. Visitors will be asked questions concerning region of residence, expenditures made while visiting, and reasons for visiting. The data collection efforts will be coordinated to reduce the additional burden for those who own multiple businesses. Participation in these data collections will be voluntary.

The data will be used to construct a regional economic simulation model to analyze fishery management alternatives and to investigate the degree of economic dependence on marine resources in the respective communities.

II. Method of Collection

Data will be collected via in-person interviews, telephone interviews and/or mail questionnaire.

III. Data

OMB Number: None.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Individuals or households; business or other for-profit organizations.

Estimated Number of Respondents: 2,400.

Estimated Time per Response: 1 hour per survey of businesses; 30 minutes per survey of households; and 15 minutes per survey of individual visitors.

Estimated Total Annual Burden Hours: 998.

Estimated Total Annual Cost to Public: \$0.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: March 15, 2007.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 031507A]

Endangered Species; File No. 1599

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that Inwater Research Group, Inc (Michael J. Bresette-Responsible Party), 4160 NE Hyline Dr, Jensen Beach, FL, 34957, has applied in due form for a permit to take green (*Chelonia mydas*), loggerhead (*Caretta caretta*), hawksbill (*Eretmochelys imbricata*), and Kemp's ridley (*Lepidochelys kempii*) sea turtles for purposes of scientific research.

DATES: Written, telefaxed, or e-mail comments must be received on or before April 20, 2007.

ADDRESSES: The application and related documents are available for review upon written request or by appointment in the following office(s):

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 713-2289; fax (301) 427-2521; and

Southeast Region, NMFS, 263 13th Avenue South, St. Petersburg, FL 33701; phone (727) 824-5312; fax (727) 824-5309.

Written comments or requests for a public hearing on this application should be mailed to the Chief, Permits, Conservation and Education Division, F/PR1, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular request would be appropriate.

Comments may also be submitted by facsimile at (301)427-2521, provided the facsimile is confirmed by hard copy submitted by mail and postmarked no later than the closing date of the comment period.

Comments may also be submitted by e-mail. The mailbox address for providing e-mail comments is NMFS.Pr1Comments@noaa.gov. Include in the subject line of the e-mail comment the following document identifier: File No. 1599.

FOR FURTHER INFORMATION CONTACT: Kate Swails or Patrick Opay, (301)713-2289.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226).

The purpose of the proposed research is to continue long term monitoring of sea turtles foraging in the Key West National Wildlife Refuge and surrounding waters. The applicant would net or hand capture up to 200 green, 200 loggerhead, 50 hawksbill, and 10 Kemp's ridley sea turtles per year. The turtles would be measured, weighed, flipper and Passive Integrated Transponder tagged, blood and tissue sampled, marked with paint, and released. A subset of green turtles would be lavaged and satellite tagged. The permit would be valid for five years.
