

Are There Changes in the Estimates From the Last Approval?

There is an increase of 274,335 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This increase is not due to a change in any program requirement. The adjustment is the result of changes in EPA's estimates of labor rates, time required to submit reports and maintain records, and the overall number of respondents.

What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.
