

NMFS within 90 days after the expiration of the IHA, if it is issued.

National Environmental Policy Act (NEPA)

NMFS has prepared a draft EA for public review and comment (see **ADDRESSES**), that describes the impact on the human environment that would result from implementation of this action. NMFS has concluded, preliminarily, that no significant impact on the human environment would result.

ESA

NMFS is conducting a Section 7 consultation under the ESA to make a determination whether the proposed research project would be likely to jeopardize the continued existence of the eastern U.S. stock of Steller sea lions.

Preliminary Determinations

For the reasons discussed in this document and in the identified supporting documents, NMFS has preliminarily determined that the impact of seabird research on Southeast Farallon Island, Ano Nuevo Island, and Point Reyes NS would result, at worst, in the Level B harassment of small numbers of California sea lions, Pacific harbor seals, northern elephant seals, and Steller sea lions hauled out in the vicinity of the proposed research area. While behavioral modifications, including temporarily vacating the area during the survey period, may be made by these species to avoid the resultant visual disturbance, the availability of alternate areas within these areas and haul-out sites has led NMFS to preliminarily determine that this action will have a negligible impact on California sea lions, Pacific harbor seals, northern elephant seals, and Steller sea lions.

In addition, no take by Level A harassment (injury) or death is anticipated and harassment takes should be at the lowest level practicable due to incorporation of the mitigation measures described in this document.

Proposed Authorization

NMFS proposes to issue an IHA to PRBO for the potential harassment of small numbers of California sea lions, harbor seals, northern elephant seals, and Steller sea lions incidental to conducting of seabird research on Southeast Farallon Island, Ano Nuevo Island, and Point Reyes NS, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated.

NMFS requests interested persons to submit comments, information, and suggestions concerning this request (see **ADDRESSES**).

Dated: July 23, 2007.
