

Estimated Annual Costs to the Federal Government

Expenses (equipment, overhead, printing, and support staff) will be incurred by AHRQ components as part of their normal operating budgets. No additional cost to the Federal Government is anticipated. Any deviation from these limits will be noted in reports made to OMB with respect to a particular study or studies conducted under the clearance.

Request for Comments

In accordance with the above-cited Paperwork Reduction Act legislation, comments on AHRQ's information collection are requested with regard to any of the following: (a) Whether the proposed collection of information is necessary for the proper performance of AHRQ health care research and health care information dissemination functions, including whether the information will have practical utility; (b) the accuracy of AHRQ's estimate of burden (including hours and costs) of the proposed collection(s) of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information upon the respondents, including the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the Agency's subsequent request for OMB approval of the proposed information collection. All comments will become a matter of public record.

Dated: August 7, 2007

Administration on Aging

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Extension of Supplemental Form to the Financial Status Report for all AoA Title III Grantees

AGENCY: Administration on Aging, HHS.
ACTION: Notice.

SUMMARY: The Administration on Aging (AoA) is announcing that the proposed collection of information listed below has been submitted to the Office of

Management and Budget (OMB) for review and clearance under the Paperwork Reduction Act of 1995.

DATES: Submit written comments on the collection of information by September 14, 2007.

ADDRESSES: Submit written comments on the collection of information by fax 202.395.6974 to the OMB Desk Officer for AoA, Office of Information and Regulatory Affairs, OMB.

FOR FURTHER INFORMATION CONTACT: Stephen.Daniels@aoa.hhs.gov.

SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, AoA has submitted the following proposed collection of information to OMB for review and clearance.

The Supplemental form to the Financial Status Report for all AoA Title III Grantees provides an understanding of how projects funded by the Older Americans Act are being administered by grantees, in conformance with legislative requirements, pertinent Federal regulations and other applicable instructions and guidelines issued by Administration on Aging (AoA). This information will be used for Federal oversight of Title III Projects. AoA estimates the burden of this collection of information as follows: 56 State Agencies on Aging respond semiannually which should be an average burden of 1 hour per State agency per submission.

Dated: August 9, 2007.

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 639-5960 or send an e-mail to omb@cdc.gov. Send written comments to CDC Desk Officer, Office of Management and Budget, Washington, DC or by fax to (202) 395-6974. Written comments should be received within 30 days of this notice.

Proposed Project

National HIV Behavioral Surveillance System (NHBS)—New— National Center for HIV, STD, and TB Prevention (NCHSTP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The purpose of this data collection is to monitor behaviors related to Human Immunodeficiency Virus (HIV) infection among persons at high risk for infection in the United States. The primary objectives of the system are to obtain data from samples of persons at risk to: (a) Describe the prevalence and trends in risk behaviors; (b) describe the prevalence of and trends in HIV testing and HIV infection; (c) describe the prevalence of and trends in use of HIV prevention services; (d) identify met and unmet needs for HIV prevention services in order to inform health departments, community based organizations, community planning groups and other stakeholders. This project addresses the goals of CDC's HIV prevention strategic plan, specifically the goal of strengthening the national capacity to monitor the HIV epidemic to better direct and evaluate prevention efforts.

Data are collected through in-person interviews conducted with persons systematically selected from 25 Metropolitan Statistical Areas (MSAs) throughout the United States; these 25 MSAs were chosen based on having high AIDS prevalence. Persons at risk for HIV infection to be interviewed for NHBS include men who have sex with men (MSM), injecting drug users (IDU), and heterosexual persons living in census tracts that have high HIV/AIDS prevalence (HET). A brief screening interview will be used to determine eligibility for participation in the full survey. The data from the full survey will provide estimates of behavior related to the risk of HIV and other sexually transmitted diseases, prior testing for HIV, and use of HIV prevention services. All persons interviewed will also be offered an HIV test. No other federal agency systematically collects this type of information from persons at risk for HIV infection. This data will have substantial impact on prevention program development and monitoring at the local, state, and national levels.

CDC estimates that NHBS will involve, per year in each of the 25 MSAs, eligibility screening for 50 to 200 persons and eligibility screening plus the survey with 500 eligible respondents, resulting in a total of 37,500 eligible survey respondents and

7,500 ineligible screened persons during a 3-year period. Data collection will rotate such that interviews will be conducted among one group per year: MSM in year 1, IDU in year 2, and HET

in year 3. The type of data collected for each group will vary slightly due to different sampling methods and risk characteristics of the group. Participation of respondents is

voluntary and there is no cost to the respondents other than their time. The total estimated annualized burden hours is 9,931.

ESTIMATED ANNUALIZED BURDEN HOURS

Respondents	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
NHBS-MSM			
Screener	17,500	1	5/60
Survey	12,500	1	30/60
NHBS-IDU			
Screener	13,750	1	5/60
Survey	12,500	1	55/60
NHBS-HET			
Screener	13,750	1	5/60
Survey	12,500	1	40/60
