Profiles of Traveler Information Services Update 2008

Nationwide Deployment Area

Report Number: FTA-TRI30-2008.1

July 2008

FRONT COVER MAP

[\[http://www.deploy511.org/deploystatus.htm\]](http://www.deploy511.org/deploystatus.htm)

The solid green areas on the map depict states and regions where 511 services were active as of August 1, 2005. The states in yellow had applied to the Federal Highway Administration (FHWA) for [511 planning assistance grants](#). The most recent launch was the Rhode Island statewide system.

More information about launches that have already taken place or are planned is provided in the [Timeline of 511 Services In Operation](#). The timeline also includes contact information for the public information officers and technical project managers for each deployment.

Decision makers and planners need to know why deploying 511 is the right choice to make. The new 511 Deployment Coalition brochure, [The Value of Deploying 511](#), makes a strong case for deploying 511 travel information services.

View the 511 Deployment Coalition's annual Progress Reports [[2003](#)]
[[2004](#)][[2005](#)]. View [Florida's 511 report](#).

DON'T LEAVE HOME BEFORE CALLING

41 Telephone Services for Travelers

FOREWORD

Profiles of 511 Traveler Information Services Update 2008 was prepared by the Federal Transit Administration's (FTA) Office of Research, Demonstration and Innovation to increase public awareness, access, and knowledge of the transit content within existing 511 traveler information services. This third edition provides descriptive profiles of each of the forty-one 511 traveler information services in operation within the United States, as of July 2008. It also includes a listing of the *Forty-One 511 Systems: Areas of Commonality and Uniqueness*—highlighting areas of information these systems share and identifying those pieces of traveler information unique to specific systems. Information was obtained directly from each 511 call-in telephone number, which can be accessed by any traveler. The 511 system provides an easy way to obtain travel information anywhere in the country, and helps travelers make better decisions on travel routes and modes. This 511 Profiles Update 2008 report is available on the FTA Website at [<http://www.fta.dot.gov/research>]

Highlights –March 2008 usage statistics for 511 telephone services in North America reported 3,008,153 total calls. Of the 41 active 511 systems profiled in this report, *40 systems* have co-branded websites. *Twenty-two (22)* systems provide public transit information [Arizona, Cincinnati/ Northern Kentucky, Central Florida, Georgia, Maine, Massachusetts, Minnesota, New Hampshire, Northeast Florida, North Carolina, Rhode Island, Sacramento/Northern California, San Diego, San Francisco Bay Area, Southeast Florida, Southwest Florida, St. Louis Gateway, Tampa Bay, Utah, Vermont, Virginia, Washington State]. *Fourteen systems (14)* automatically transfer a caller, if requested, to a transit provider [Arizona, Cincinnati/Northern Kentucky, Georgia, Maine, Minnesota, Massachusetts, North Carolina, Orlando/Central Florida, Sacramento/Northern California, San Diego, San Francisco, Southeast Florida, Southwest Florida, Virginia].

The National 511 Traveler Information Service is under the guidance of the National 511 Deployment Coalition. The Coalition is comprised of the following major transportation organizations—American Association of State Highway and Transportation Officials, American Public Transportation Association, ITS America, and U.S. Department of Transportation. *Note:* 511 Resources are available at [<http://www.deploy511.org>].

“511 will be a customer driven multi-modal traveler information service, available across the United States, accessed via telephones and other personal communications devices, realized through local deployed interoperable systems, enabling a safer, more reliable and efficient transportation system.” - [The 511 National Vision for 511](#)

OPENING GREETING

“Welcome to Utah’s 511 travel information service. Main Menu—here are all your choices. When you hear the one you want just say it: traffic, public transit, road conditions, ferries, or surrounding States. You can also say “help” or press zero ‘0’ at any time.”

911 Citation: No

BASIC MENU

1. Traffic
2. Public Transit
3. Road Conditions
4. Ferries [Lake Powell]
5. Surrounding States

TRANSIT MENU

1. **Buses.** “Say ‘stop’ to cancel. Local buses generally run from 6:00 am to midnight on weekdays and 7:00 am to midnight on Saturdays. Buses have more limited hours on Sundays. For more information say “connect me” or visit ‘rideuta.com’. You can pay your fare on the bus and get a free transfer to another bus or TRAX, or buy your fare at a vending machines at any TRAX station. A day pass can be purchased for same day use at vending machines at TRAX stations. Check ‘rideuta.com’ for more UTA bus information.”
2. **TRAX Light Rail.** “Say ‘stop’ to cancel. TRAX Light Rail runs from 5:30 am to 11:00 pm Monday through Saturday. Late night service runs on Friday and Saturday nights. The last train leaves downtown at 1:00 am; for updates visit ‘rideuta.com’. During special events TRAX adds later and more frequent evening service. During peak commute hours TRAX stops at stations every 10 minutes, during off peak times it stops every 15 to 30 minutes. Free transfers are allowed between TRAX and local buses with a valid ticket or transfer. A day pass can be purchased for same day use at vending machines at TRAX stations.”
3. **Flex Tran.** “Say ‘stop’ to cancel. Flex Tran, also known as paratransit service, offers curb to curb shared ride service for eligible riders from 5:00am to 11:00 pm Monday through Saturday. Limited service is available on Sunday and limited late night service is available Friday and Saturday. This service must be reserved at least one day in advance and operate in same area and during the same hours as the fixed route service. For more information on paratransit services, contact Flex Tran directly at: 801-287-7433.”

4. **Ride Share.** “Say ‘stop’ to cancel. UTA’s Ride Share program offers an alternative to driving alone including carpool and vanpool matches with other commuters who live and work in the same area who want to share a ride. Other Ride Share services include: alternate work hours, bicycling commuting, van leasing and eco-pass (a discounted transit pass sponsored by your employer). Visit ‘utarideshare.com’ for more information.”< SPAN style="mso-spacerun: yes">

Forty-One 511 Systems: Areas of Commonality and Uniqueness

1. *Thirty-eight systems* begin their 511 menus with highway/traffic information. [Washington State 511 begins its menu with transit 'ferry service' information, New Jersey 511 menu starts with urban areas, Georgia 511 menu begins with reports on incidents, accidents and motor assistance]
2. *Forty systems* have co-branded web sites [One system has no web site: Utah]
3. *Thirty-one* are Statewide systems [Ten are metro: Central Florida, Cincinnati/ Northern Kentucky, Northeast Florida, Sacramento/ Northern California, San Diego, San Francisco Bay Area, Southeast Florida, Southwest Florida, St. Louis Gateway, Tampa Bay]
4. *Thirty systems* provide weather information usually associated with road conditions affecting the interstate and State highways - [Alaska, California Eastern Sierra, Cincinnati/Northern Kentucky, Colorado, Georgia, Idaho, Iowa, Kansas, Kentucky Statewide, Louisiana, Maine, Minnesota, Montana, Nebraska, New Hampshire, New Jersey, New Mexico, Nevada, North Carolina, North Dakota, Rhode Island, Sacramento/Northern California, San Diego, South Dakota, Southwest Florida, Tennessee, Vermont, Virginia, Washington State, Wyoming]
5. *Twenty-two systems* provide public transit information [Arizona, Cincinnati/ Northern Kentucky, Central Florida, Georgia, Maine, Massachusetts, Minnesota, New Hampshire, Northeast Florida, North Carolina, Rhode Island, Sacramento/Northern California, San Francisco Bay Area, San Diego, Southeast Florida, Southwest Florida, St. Louis Gateway, Tampa Bay, Utah, Vermont, Virginia, Washington State]. *Fourteen systems* will automatically transfer, if requested, to a transit provider [Arizona, Cincinnati/Northern Kentucky, Georgia, Maine, Massachusetts, Minnesota, North Carolina, Orlando/Central Florida, Sacramento/Northern California, San Diego, San Francisco Bay Area, Southeast Florida, Southwest Florida, Virginia]. The transit information is for bus, rail and ferry services and sometimes airport services as well. This transit information may also include Para-transit, Dial-a-Ride and route deviation services available to those local residents who are eligible for these services.
6. *Twenty systems* will transfer the caller to another 511 system [Central Florida, Florida Statewide, Georgia, Kentucky Statewide, Maine, Nevada, New Hampshire, New Mexico, North Carolina, Rhode Island, Sacramento/Northern California, San Francisco Bay Area, Southeast Florida, Southwest Florida, Tampa Bay, Tennessee, Utah, Vermont, Virginia, Washington State]
7. *Sixteen systems* provide an opportunity for the caller to give feedback on the 511 service [Alaska, Arizona, Cincinnati/ Northern Kentucky, Florida Statewide, Kentucky Statewide, Louisiana, Minnesota, New Hampshire, New Jersey, North Carolina, Oregon, Southeast Florida, Southwest Florida, Tennessee, Vermont, Virginia]

***Forty-One 511 Systems:
Areas of Commonality and Uniqueness...continued***

8. *Eleven systems* provide the caller with information on tourism sites within the State [Arizona, Georgia, Idaho, Kentucky Statewide, Maine, Montana, New Hampshire, Rhode Island, Southwest Florida, Vermont, Wyoming]
9. *Nine systems* provide information on ferry or water transport services [Alaska, Maine, Massachusetts, North Carolina, San Francisco Bay Area, Rhode Island, Utah, Vermont, Washington State]
10. *Six systems* use a motto for their 511 systems: "Travel in the Know" [Alaska], "Keep Moving" [Northeast Florida], "We'll Get You There" [Georgia], "Keeps Central Florida Moving" [Central Florida], "We're Here to Get You There" [California Eastern Sierra], "Know Before You Go" Southwest Florida].
11. *Six systems* caution callers to hang up and call 911 if in an emergency situation [Kansas, Massachusetts, Nebraska, New Mexico, Rhode Island and South Dakota]
12. *Two 511 systems* share a common website [Central Florida and Florida Statewide].
