SUPPLEMENTARY INFORMATION:

A. Purpose

The Helium Act (Pub. L. 86-777) (50 U.S.C. 167, *et seq.*) and the Department of the Interior's regulations (43 CFR part 3195) on purchase of helium are implemented in the FAR at Subpart 8.5.

The FAR requires contractors to purchase major helium requirements from Federal helium suppliers, to the extent that supplies are available. In addition, the Contractor is required to provide the Contracting Officer the following data within 10 days after the Contractor or subcontractor receives a delivery of helium from a Federal helium supplier: (1) The name of the supplier; (2) The amount of helium purchased; (3) The delivery date(s); and (4) The location where the helium was used. The information is used in administration of certain Federal contracts to ensure contractor compliance with contract clauses. The contracting officer must forward the information to the Department of Interior's Bureau of Land Management (BLM) within 45 days of the close of each fiscal quarter. The quarterly reports will help BLM verify refined helium sales made to Federal agencies by Federal helium suppliers. Without the information, the required use of Federal helium suppliers cannot be monitored and enforced effectively.

ACTION: Notice of request for comments regarding an extension to an existing OMB clearance.

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Federal Acquisition Regulation (FAR) Secretariat will be submitting to the Office of Management and Budget (OMB) a request to review and approve an extension of a currently approved information collection requirement regarding prohibition on acquisition of products produced by forced or indentured child labor. The clearance currently expires on January 31, 2008.

DATES: Submit comments on or before: February 1, 2008.

SUPPLEMENTARY INFORMATION:

A. Purpose

This information collection complies with Executive Order 13126, Prohibition on Acquisition of Products Produced by Forced or Indentured Child Labor, signed by the President on June 12,

1999. Executive Order 13126 requires that this prohibition be enforced within the federal acquisition system by means of: (1) A provision that requires the contractor to certify to the contracting officer that the contractor or, in the case of an incorporated contractor, a responsible official of the contractor has made a good faith effort to determine whether forced or indentured child labor was used to mine, produce, or manufacture any product furnished under the contract and that, on the basis of those efforts, the contractor is unaware of any such use of child labor; and (2) A provision that obligates the contractor to cooperate fully in providing reasonable access to the contractor's records, documents, persons, or premises if reasonably requested by authorized officials of the contracting agency, the Department of the Treasury, or the Department of Justice, for the purpose of determining whether forced or indentured child labor was used to mine, produce, or manufacture any product furnished under the contract.

The information collection requirements of the Executive Order are evidenced via the certification requirements delineated at FAR 22.1505, 52.212-3, 52.222-18, and 52.222-19.

To eliminate some of the administrative burden on offerors who must submit the same information to various contracting offices, the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) decided to amend the Federal Acquisition Regulation (FAR) to require offerors to submit representations and certifications electronically via the Business Partner Network (BPN), unless certain exceptions apply. Online Representations and Certifications Application (ORCA) is the specific application on the BPN to replace the paper based Representations and Certifications (Reps and Certs) process. The change to the FAR is being accomplished by FAR Case 2002-024. The clearance associated with this case referenced this OMB Control No. 9000-0155 and reduced the hours of burden by 35%—attributable to mandated use of ORCA. This reduction is already reflected in the figures below.
