

No. 1018-0015, which expires February 28, 2008.

(2) Parts Collection Survey, also approved under OMB Control No. 1018-0015.

(3) Sandhill Crane Harvest Survey, currently approved under OMB Control No. 1018-0023, which expires November 30, 2007.

The Migratory Bird Hunter Survey is based on the Migratory Bird Harvest Information Program, under which each State annually provides a list of all migratory bird hunters in the State. We randomly select migratory bird hunters; send them either a waterfowl questionnaire, a dove and band-tailed pigeon questionnaire, a woodcock questionnaire, or a snipe, rail, gallinule and coot questionnaire; and ask them to report their harvest of those species. The resulting estimates of harvest per hunter are combined with the complete list of migratory bird hunters to provide estimates of the total harvest of those species.

The Parts Collection Survey estimates the species, sex, and age composition of the harvest, and the geographic and temporal distribution of the harvest. Randomly selected successful hunters who responded to the Migratory Bird Hunter Survey the previous year are asked to complete and return a postcard if they are willing to participate in the Parts Collection Survey. We provide postage-paid envelopes to respondents before the hunting season and ask them to send in a wing or the tail feathers

from each duck, goose, or coot they harvest, or a wing from each woodcock, band-tailed pigeon, snipe, rail, or gallinule they harvest. We use the wings and tail feathers to identify the species, sex, and age of the harvested sample.

We also ask respondents to report on the envelope the date and location of harvest for each bird. Results of this survey are combined with the harvest estimates obtained from the Migratory Bird Hunter Survey to provide species-specific national harvest estimates.

The combined results of these surveys enable us to evaluate the effects of season length, season dates, and bag limits on the harvest of each species, and thus help us determine appropriate hunting regulations.

We are proposing to include the Sandhill Crane Harvest Survey (current OMB Control Number 1018-0023) with the others in this approval request, all under OMB Control Number 1018-0015. The Sandhill Crane Harvest Survey is an annual questionnaire survey of people who obtained a sandhill crane hunting permit. At the end of the hunting season, we randomly select a sample of permit holders and ask them to report the date, location, and number of birds harvested for each of their sandhill crane hunts. Their responses provide estimates of the temporal and geographic distribution of the harvest as well as the average harvest per hunter, which, combined with the total number of permits issued, enables us to estimate the total harvest of sandhill cranes.

Based on information from this survey, we adjust hunting regulations as needed to optimize harvest at levels that provide a maximum of hunting recreation while keeping the population at the desired level.

We are also seeking approval to add a mourning dove wing collection to the Parts Collection Survey on an experimental basis. We will use the wings to identify the age of each sample, thereby providing estimates of annual mourning dove productivity at the management unit level. Those estimates of annual productivity are needed to improve the mourning dove population models that we have developed for each management unit. We will compare the results and costs of our experimental mail survey with results and costs of mourning dove wing collection methods that are currently employed by some, but not all, States that have dove hunting seasons. If mourning dove productivity estimates are similar for the two methods, we would propose to adopt the more cost-effective method on a national scale.

ACTION: Notice; request for comments.

SUMMARY: We (Fish and Wildlife Service) will ask the Office of Management and Budget (OMB) to approve the information collection (IC) described below. As required by the

Paperwork Reduction Act of 1995 and as part of our continuing efforts to reduce paperwork and respondent burden, we invite the general public and other Federal agencies to take this opportunity to comment on this IC, which is scheduled to expire on September 30, 2007. We may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: You must submit comments on or before May 15, 2007.

ADDRESSES: Send your comments on the IC to Hope Grey, Information Collection Clearance Officer, Fish and Wildlife Service, MS 222-ARLSQ, 4401 North Fairfax Drive, Arlington, VA 22203 (mail); *hope_grey@fws.gov* (e-mail); or (703) 358-2269 (fax).

SUPPLEMENTARY INFORMATION:

I. Abstract

Our Endangered Species Program uses information that we collect on permit

applications to determine the eligibility of applicants for permits requested in accordance with the criteria in various Federal wildlife conservation laws, including:

(1) Endangered Species Act (16 U.S.C. 1531 et seq.).

(2) Migratory Bird Treaty Act (16 U.S.C. 703 et seq.).

(3) Lacey Act (16 U.S.C. 3371 et seq.).

(4) Bald and Golden Eagle Protection Act (16 U.S.C. 668).

(5) Marine Mammal Protection Act (16 U.S.C. 1374).
Service regulations implementing these statutes and treaties are in Chapter I, Subchapter B of Title 50 of the Code of Federal Regulations (CFR). These regulations stipulate general and specific requirements that when met allow us to issue permits to authorize activities that are otherwise prohibited. This IC includes the following permit application forms and the reporting requirements for each permit:

(1) FWS Form 3-200-54 - Enhancement of Survival Permits Associated with Safe Harbor Agreements and Candidate Conservation Agreements with Assurances.

(2) FWS Form 3-200-55 - Permits for Scientific Purposes, Enhancement of Propagation or Survival (i.e, Recovery) and Interstate Commerce.

(3) FWS Form 3-200-56 - Incidental Take Permits Associated with a Habitat Conservation Plan.
