

section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

The Congressional Review Act, 5 U.S.C. section 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule

cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. section 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by June 11, 2007. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2)).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Nitrogen dioxide, Ozone, Particulate matter, Reporting

and recordkeeping requirements, Volatile organic compounds.

Dated: March 29, 2007.

J.I. Palmer,
Regional Administrator, Region 4.

■ 40 CFR part 52 is amended as follows:

PART 52—[AMENDED]

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart RR Tennessee

■ 2. Section 52.2220(c) is amended by adding the entry "Section 51.0" in Table 3 of the Knox County portion of the Tennessee State Implementation Plan to read as follows:

§ 52.2220 Identification of plan.

* * * * *
(c) * * *

TABLE 3.—EPA APPROVED KNOX COUNTY, REGULATIONS

State citation	Title/subject	State effective date	EPA approval date	Explanation
51.0	Standards for Cement Kilns ...	07/11/01	04/12/2007 [Insert citation of publication].

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R05-OAR-2006-0779; FRL-8296-3]

Approval and Promulgation of Air Quality Implementation Plans; Wisconsin; Prevention of Significant Deterioration

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is revising the Code of Federal Regulations (CFR) to give the Wisconsin Department of Natural Resources (WDNR) full regulatory responsibility for EPA-issued Prevention of Significant Deterioration (PSD) permits. WDNR has the necessary state legislative authority to take responsibility for the permits, and has demonstrated that it has adequate

resources to maintain oversight of these permits.

DATES: This direct final rule will be effective June 11, 2007, unless EPA receives adverse comments by May 14, 2007. If adverse comments are received, EPA will publish a timely withdrawal of the direct final rule in the **Federal Register** informing the public that the rule will not take effect.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R05-OAR-2006-0779, by one of the following methods:

- *www.regulations.gov*: Follow the online instructions for submitting comments.
- *E-mail*: blakley.pamela@epa.gov.
- *Fax*: (312) 886-5824.
- *Mail*: Pamela Blakley, Chief, Air Permits Section, Air Programs Branch (AR-18J), U.S. Environmental Protection Agency, 77 West Jackson Boulevard, Chicago, Illinois 60604.
- *Hand Delivery*: Pamela Blakley, Chief, Air Permits Section, Air Programs Branch (AR-18J), U.S. Environmental Protection Agency, 77 West Jackson Boulevard, Chicago, Illinois 60604. Such deliveries are only accepted during the Regional Office normal hours

of operation, and special arrangements should be made for deliveries of boxed information. The Regional Office official hours of business are Monday through Friday, 8:30 a.m. to 4:30 p.m. excluding Federal holidays.

Instructions: Direct your comments to Docket ID No. EPA-R05-OAR-2006-0779. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through www.regulations.gov or e-mail. The www.regulations.gov Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through www.regulations.gov your e-mail address will be automatically

captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. For additional instructions on submitting comments, go to Section I of the **SUPPLEMENTARY INFORMATION** section of this document.

Docket: All documents in the docket are listed in the www.regulations.gov index. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy. Publicly available docket materials are available either electronically in www.regulations.gov or in hard copy at the U.S. Environmental Protection Agency, Region 5, Air and Radiation Division, 77 West Jackson Boulevard, Chicago, Illinois 60604. This facility is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. We recommend that you telephone Danny Marcus, Environmental Engineer, at (312) 353-8781 before visiting the Region 5 office.

FOR FURTHER INFORMATION CONTACT: Danny Marcus, Environmental Engineer, Air Permits Section, Air Programs Branch (AR-18J), U.S. Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 886-3000, marcus.danny@epa.gov.

SUPPLEMENTARY INFORMATION:

Throughout this document whenever “we,” “us,” or “our” is used, we mean EPA. This supplementary information section is arranged as follows:

- I. What Should I Consider as I Prepare My Comments for EPA?
- II. What Is Being Addressed in This Document?
- III. What Action Is EPA Taking Today?
- IV. Statutory and Executive Order Reviews

I. What Should I Consider as I Prepare My Comments for EPA?

A. Submitting CBI

Do not submit this information to EPA through www.regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI.

For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

B. Tips for Preparing Your Comments

When submitting comments, remember to:

1. Identify the rulemaking by docket number and other identifying information (subject heading, **Federal Register** date and page number).
2. Follow directions—The EPA may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
3. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
4. Describe any assumptions and provide any technical information and/or data that you used.
5. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
6. Provide specific examples to illustrate your concerns, and suggest alternatives.
7. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.
8. Make sure to submit your comments by the comment period deadline identified.

II. What Is Being Addressed in This Document?

EPA is making a revision to the CFR for the purpose of giving WDNR full regulatory responsibility for EPA-issued PSD permits on non-tribal lands.

EPA first delegated the PSD program to WDNR on November 13, 1987, which was later amended by a February 16, 1989, delegation. The 1989 delegation included language which authorized WDNR to amend EPA-issued PSD permits. EPA granted final full approval to Wisconsin's PSD program on May 27, 1999 (64 FR 28745), which became effective and was approved into the State Implementation Plan (SIP) on June 28, 1999. However, EPA stated in 40 CFR 52.2581 that its approval did not extend to sources with Federal PSD permits and EPA retained authority to

administer the PSD program for those permits.

EPA received a letter dated March 28, 2006, from WDNR regarding facilities within the state that have permits which require revision, modification, and/or updates. Allowing WDNR to have the authority to amend the EPA-issued PSD permits will enable WDNR to have direct access to modify these permits accordingly. This will facilitate permit tracking and identification of applicable requirements for WDNR permit engineers.

The Clean Air Act contains requirements that must be met when a State/Local/Tribe is adopting a plan requirement. Section 110(a)(2)(E)(i) requires that any government who wishes to carry out such implementation plan have “adequate personnel, funding, and authority under State law.”

In a letter sent to EPA dated July 19, 2006, WDNR demonstrated state legal authority to take responsibility for the permits. WDNR's authority to take responsibility for EPA-issued permits can be found under Wisconsin's Statutes in s. 285.67, Wis. Stat., which authorizes WDNR to promulgate rules for revising, suspending, and revoking air pollution control permits. Section NR 406.11, Wis. Adm. Code, authorizes WDNR to revise construction permits, including PSD permits. In the same letter, WDNR demonstrated that it has the adequate resources and funding to become the primary regulating agency of the EPA-issued PSD permits. WDNR has 19.5 full time employees to perform construction permit activities under a program that annually generates approximately two million dollars in program revenue.

None of the facilities with EPA-issued PSD permits which are the subject of this action are located in Indian Country. We do not anticipate that this action will have any effect on tribal rights within Indian country or in ceded territories.

With this action, the regulatory text in 40 CFR 52.2581 will be revised to reflect that WDNR has been given full regulatory responsibility for EPA-issued PSD permits.

III. What Action Is EPA Taking Today?

EPA is revising 40 CFR 52.2581 to give WDNR regulatory responsibility for EPA-issued PSD permits. The language, “and sources with permits issued by EPA prior to the effective date of the state's rules,” will be deleted. WDNR has demonstrated that it has the legal authority, and adequate resources, to take over full regulatory responsibility for the permits.

We are publishing this action without prior proposal because we view this as a noncontroversial amendment and anticipate no adverse comments. However, in the proposed rules section of this **Federal Register** publication, we are publishing a separate document that will serve as the proposal to approve the state plan if relevant adverse written comments are filed. This rule will be effective June 11, 2007 without further notice unless we receive relevant adverse written comments by May 14, 2007. If we receive such comments, we will withdraw this action before the effective date by publishing a subsequent document that will withdraw the final action. All public comments received will then be addressed in a subsequent final rule based on the proposed action. The EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. If we do not receive any comments, this action will be effective June 11, 2007.

IV. Statutory and Executive Order Reviews

Executive Order 12866; Regulatory Planning and Review

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a “significant regulatory action” and, therefore, is not subject to review by the Office of Management and Budget.

Executive Order 13211: Actions That Significantly Affect Energy Supply, Distribution, or Use

Because it is not a “significant regulatory action” under Executive Order 12866 or a “significant energy action,” this action is also not subject to Executive Order 13211, “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use” (66 FR 28355, May 22, 2001).

Regulatory Flexibility Act

This action merely approves state law as meeting Federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

Unfunded Mandates Reform Act

Because this rule approves pre-existing requirements under state law and does not impose any additional enforceable duty beyond that required

by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4).

Executive Order 13175 Consultation and Coordination With Indian Tribal Governments

This rule also does not have tribal implications because it will not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified by Executive Order 13175 (59 FR 22951, November 9, 2000).

Executive Order 13132 Federalism

This action also does not have Federalism implications because it does not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). This action merely approves a state rule implementing a federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the Clean Air Act.

Executive Order 13045 Protection of Children From Environmental Health and Safety Risks

This rule also is not subject to Executive Order 13045 “Protection of Children from Environmental Health Risks and Safety Risks” (62 FR 19885, April 23, 1997), because it is not economically significant.

National Technology Transfer Advancement Act

In reviewing state submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the Clean Air Act. In this context, in the absence of a prior existing requirement for the state to use voluntary consensus standards (VCS), EPA has no authority to disapprove a state submission for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a state submission, to use VCS in place of a state submission that otherwise satisfies the provisions of the Clean Air Act. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply.

Paperwork Reduction Act

This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Congressional Review Act

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. section 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by June 11, 2007. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2)).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Carbon monoxide, Incorporation by reference, Intergovernmental relations, Lead, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.

Dated: March 27, 2007.

Mary A. Gade,
Regional Administrator, Region 5.

■ For the reasons stated in the preamble, part 52, chapter I, of title 40 of the Code of Federal Regulations is amended as follows:

PART 52—[AMENDED]

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart YY—Wisconsin

■ 2. Section 52.2581 is amended by revising paragraph (d) to read as follows:

§ 52.2581 Significant deterioration of air quality.

* * * * *

(d) The requirements of sections 160 through 165 of the Clean Air Act are met, except for sources seeking permits to locate in Indian country within the State of Wisconsin.

* * * * *

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R06-OAR-2005-AR-0001; FRL-8297-6]

Approval and Promulgation of Air Quality Implementation Plans; Arkansas; Prevention of Significant Deterioration and New Source Review; Economic Development Zone for Crittenden County, AR; and Stage I Vapor Recovery

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is approving revisions to the Arkansas State Implementation Plan (SIP) that include changes made to Arkansas regulations entitled, “Regulations of the Arkansas Plan of Implementation for Air Pollution Control” and “Nonattainment New Source Review Requirements.” The revisions amend the State’s permitting rules in order to address revisions to the Federal New Source Review (NSR) regulations, which were promulgated by EPA on December 31, 2002 and reconsidered with minor changes on November 7, 2003 (collectively, these two final actions are called the “2002 NSR Reform Rules”). Prevention of Significant Deterioration (PSD) and Nonattainment NSR (NNSR) programs, together with the minor preconstruction permit program required by the Federal Clean Air Act (“Act”), are commonly referred to as the “NSR programs.” Arkansas revised its preconstruction permitting rules that affect major sources and major modifications to include provisions for baseline emissions calculations, an actual-to-projected-actual methodology for calculating emissions changes, options for plantwide applicability limits

(PALs), and recordkeeping and reporting requirements. The revisions also include non-substantive revisions to previously SIP-approved regulations and new regulations for implementing the permitting provisions for the 8-Hour Ozone National Ambient Air Quality Standard-Phase 2, Economic Development Zone in Crittenden County, and Stage I Vapor Recovery. Finally, EPA is taking no action on provisions that relate to designated facilities. We are approving the revisions because we find the changes consistent with EPA’s implementing regulations, guidance, and policy and with section 110(l) of the Act.

DATES: This final rule is effective on May 14, 2007.

ADDRESSES: EPA has established a docket for this action under Docket ID No. EPA-R06-OAR-2005-AR-0001. All documents in the docket are listed on the www.regulations.gov Web site. Although listed in the index, some information is not publicly available, e.g., confidential business information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through www.regulations.gov or in hard copy at the Air Permits Section (6PD-R), Environmental Protection Agency, 1445 Ross Avenue, Suite 700, Dallas, Texas 75202-2733. The file will be made available by appointment for public inspection in the Region 6 Freedom of Information Act Review Room between the hours of 8:30 am and 4:30 pm weekdays except for legal holidays. Contact the person listed in the **FOR FURTHER INFORMATION CONTACT** paragraph below to make an appointment. If possible, please make the appointment at least two working days in advance of your visit. There will be a 15 cent per page fee for making photocopies of documents. On the day of the visit, please check in at the EPA Region 6 reception area at 1445 Ross Avenue, Suite 700, Dallas, Texas.

The State submittal is also available for public inspection at the State Air Agency listed below during official business hours by appointment:

Arkansas Department of Environmental Quality, Air Division, 8001 National Drive, P.O. Box 8913, Little Rock, Arkansas 72219-8913.

FOR FURTHER INFORMATION CONTACT: Mr. Stanley M. Spruiell, Air Permits Section (6PD-R), Environmental Protection Agency, Region 6, 1445 Ross Avenue,

Suite 700, Dallas, Texas 75202-2733, telephone (214) 665-7212; fax number (214) 665-7263; or e-mail address spruiell.stanley@epa.gov.

SUPPLEMENTARY INFORMATION:

Throughout this document any reference to “we,” “us,” or “our” shall mean the EPA.

Outline

- I. What Action Is EPA Taking Today?
- II. What Is the Background for This Action?
- III. Statutory and Executive Order Reviews

I. What Action Is EPA Taking?

EPA is taking final action to approve revisions to the Arkansas SIP that were submitted on February 3, 2005, and July 3, 2006, by the Governor of Arkansas. The 2005 submittal consists of revisions to “Regulation No. 19—Regulations of the Arkansas Plan of Implementation for Air Pollution Control.” The 2006 submittal consists of further revisions to “Regulation No. 19—Regulations of the Arkansas Plan of Implementation for Air Pollution Control” and a new “Regulation No. 31—Nonattainment New Source Review Requirements.” The revisions were made to update the Arkansas NSR programs to make them consistent with changes to the Federal NSR regulations published on December 31, 2002 (67 FR 80186) and November 7, 2003 (68 FR 63021). These two EPA rulemakings are commonly referred to as the “2002 NSR Reform Rules.”

These SIP revisions also add provisions for implementing the air permitting requirements for the 8-hour ozone national ambient air quality standard-phase 2 (promulgated November 29, 2005 (70 FR 71611)), Economic Development Zone rules that implement section 173(a)(1)(B) of the Act, and provisions for Stage I Vapor Recovery. In addition, Arkansas revised Regulation No. 19 to make the following non-substantive changes (which do not change the regulatory requirements): redesignated the subdivisions from “Section” to “Reg.”; changed references to “Arkansas Department of Pollution Control and Ecology” to “Arkansas Department of Environmental Quality”; corrected typographical errors and grammar; and improved readability and clarity. EPA is taking no action on Chapter 8 of Regulation No. 19 “111(d) Designated Facilities.”

On December 1, 2006 (71 FR 69519), EPA published a proposed rulemaking in which we proposed to approve these SIP revisions. The December 1, 2006, proposal provides detailed information about the Arkansas SIP revisions that are being approved today. The proposal also provides a detailed analysis of EPA’s rationale for approving the
