Information Collection Requirement

Title: Office of Law Enforcement/Federal Air Marshal Service (OLE/FAM) Mental Health Certification.

Type of Request: Extension of a currently approved collection.

OMB Control Number: 1652-0043.

Form(s): Mental Health Certification.

Affected Public: Office of Law Enforcement/Federal Air Marshal Service applicants.

Abstract: Pursuant to 49 U.S.C. 44901, 44903, and 44917, TSA has authority to prescribe regulations to protect passengers and property on an aircraft operating in air transportation or intrastate air transportation against an act of criminal violence or aircraft piracy, provide for deployment of Federal Air Marshals on passenger flights, and provide for appropriate training, supervision, and equipment of FAMS. In furtherance of this authority, TSA policy currently requires that applicants for Office of Law Enforcement/Federal Air Marshal positions meet certain medical standards, including Federal Aviation Administration second-class airman standards as outlined in 14 CFR part 67. The TSA modifications to these standards include a psychological evaluation to determine that the individual does not have an established medical history or clinical diagnosis of psychosis, neurosis, or any other personality or mental disorder that clearly demonstrates a potential hazard to the performance of FAM duties or the safety of self or others.

As part of the psychological evaluation, applicants are required to complete a mental health certification regarding their mental history and provide an explanation for anything they cannot certify. Applicants are asked if they have ever been removed from work for medical or psychological reasons, and certify other mental health statements. Applicants are instructed to submit this form directly to the FAMS Medical Programs for initial screening via fax, mail, or in person. Any explanations received will generally require further review and follow-up by a contract psychologist or psychiatrist. This certification is carefully geared to capitalize on other elements of the assessment process, such as personal interviews, physical task assessment, background investigation, as well as the other components of the medical examination and assessment.

Number of Respondents: 10,000.

Estimated Annual Burden Hours: An estimated 10,000 hours annually.

Issued in Arlington, Virginia, on August 20, 2007.

Fran Lozito,

Director, Business Management Office, Operational Process and Technology.

BILLING CODE 9110-05-P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[AK-930-07-1310-DS]

Notice of Availability and Announcement of Public Meetings and Alaska National Interest Lands Conservation Act (ANILCA) Subsistence Hearings; Northeast National Petroleum Reserve—Alaska Supplemental Draft Integrated Activity Plan/Environmental Impact Statement

AGENCY: Bureau of Land Management (BLM), Interior.

ACTION: Notice of Availability and Announcement of Public Meetings and ANILCA Subsistence Hearings.

SUMMARY: The Bureau of Land Management (BLM), Alaska State Office, is issuing the Northeast National Petroleum Reserve—Alaska (NPR—A) Supplemental Draft Integrated Activity Plan/Environmental Impact Statement (IAP/EIS) for public comment and announces pending Draft IAP/EIS public meetings/ANILCA subsistence hearings to receive comments on the IAP/EIS and its findings regarding the ANILCA § 810 analysis of impacts to subsistence use.

DATES: Written comments on the Draft IAP/EIS must be received within 60 days following the date the Environmental Protection Agency publishes their Notice of Availability in the **Federal Register**. Draft IAP/EIS public meetings and/or ANILCA subsistence hearings will be held in the following communities in Alaska: Anaktuvuk Pass, Anchorage, Atkasuk, Barrow, Fairbanks, Nuiqsut, and Wainwright. The date, time, and location of the meetings will be announced through public notices, media news releases, and/or other mailings.

ADDRESSES: Written comments should be sent to: Northeast NPR—A Supplemental IAP/EIS Comments, ENSR Project Office, 1835 South Bragaw Street, Suite 490, Anchorage, Alaska, 99508; faxed to 888-907-3677; hand delivered to ENSR at the above address, or to the BLM Public Information Center in the Federal Building, 222 West 7th Avenue, Anchorage, Alaska, 99513; or

forwarded electronically through the project Web site at http://www.blm.gov/ak/st/en/prog/planning/npra_general/ne_npra/ne_npr-a_supplement.html. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

The Draft IAP/EIS can be reviewed at BLM's Alaska Web site at http://www.blm.gov/ak/st/en/prog/planning/npra_general/ne_npra/ne_npr-a_supplement.html. CD or paper copies may be requested by calling Jim Ducker, BLM's project lead at 907-271-3130.

FOR FURTHER INFORMATION CONTACT: Jim Ducker, BLM Alaska State Office, 907-271-3130.

SUPPLEMENTARY INFORMATION: This Supplemental IAP/EIS supplements the Northeast NPR—A Amended IAP/EIS, which was completed in January 2005 and was followed with a Record of Decision in January 2006. On September 25, 2006, the U.S. District Court for the District of Alaska found the Amended IAP/EIS analysis failed to fully consider the cumulative effects of oil and gas leasing in the planning area and in the adjacent Northwest NPR—A planning area and vacated the Record of Decision for the Amended IAP/EIS. The supplemental IAP/EIS provides additional analysis necessary to fully address the deficiencies noted by the court and updates relevant sections of the document with information that has become available since the completion of the Amended IAP/EIS. The public is especially encouraged to comment on this additional and updated analysis, and to identify measures that could reduce impacts to resources or uses that could be impacted by oil and gas activities. Like the Amended IAP/EIS, the Supplemental IAP/EIS considers additional oil and gas leasing opportunities in the same approximately 4.6 million acres in the northeast portion of the National Petroleum Reserve—Alaska. The Supplemental IAP/EIS considers the same issues and almost identical alternatives as were addressed in the Amended IAP/EIS.

Section 810 of the Alaska National Interest Lands Conservation Act requires the BLM to evaluate the effects of the alternatives presented in this Draft IAP/EIS on subsistence activities,

and to hold public hearings if it finds that any alternative may significantly restrict subsistence activities. The analysis of environmental consequences indicates that the cumulative effects, when taken in conjunction with all action alternatives meets the "may significantly restrict threshold" for each subsistence use, resulting in a positive finding pursuant to ANILCA § 810.

Therefore, the BLM will hold public hearings on subsistence in conjunction with the public meetings in the potentially affected communities of Anaktuvuk Pass, Atqasuk, Barrow, Nuiqsut, and Wainwright.

Thomas P. Lonnie,

State Director.

Bureau of Land Management

[WY-030-07-5101-ER-K087; WYW-166510]

Notice of Availability of a Final Environmental Impact Statement for the Overland Pass Natural Gas Liquids Pipeline Project, WY

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Availability.

SUMMARY: In accordance with the National Environmental Policy Act of 1969 (NEPA, 42 U.S.C. 4321 *et seq.*) the Bureau of Land Management (BLM), Wyoming State Office, has prepared a Final Environmental Impact Statement (FEIS) for the Overland Pass Natural Gas Liquids Pipeline Project. The FEIS analyzes the environmental consequences of a proposed 760-mile long, 14-inch and 16-inch diameter natural gas liquids (NGL) pipeline on Federal, State, and private land.

DATES: The Overland Pass Natural Gas Liquids Pipeline Project FEIS will be available for review and comment for 30 calendar days starting on the date the Environmental Protection Agency (EPA) publishes its Notice of Availability (NOA) in the **Federal Register**. The BLM can best use your comments and resource information submissions within that 30-day comment period.

ADDRESSES: Written comments on the FEIS may be submitted by the following methods:

- *E-mail:* overland_pipeline_wy@blm.gov. Please do not use special characters or attachments in your comments, as the BLM e-mail security system may not accept them.

- *Facsimile:* (307) 328-4224 Attn: Overland Pass Pipeline Project.

- *Mail:* Written comments may be mailed or submitted in person to the Bureau of Land Management, Rawlins Field Office, 1300 North Third St, Rawlins, Wyoming, 82301, Attention: Tom Hurshman, Project Manager.

Copies of the FEIS have been sent to affected Federal, State, and local government agencies, Tribal governments, and interested parties. Copies of the FEIS will be available electronically on the following Web site: http://www.blm.gov/wy/st/en/info/NEPA/rfodocs/overland_pipeline.html.

Copies of the FEIS are also available for public inspection during normal business hours at the following offices:

- Bureau of Land Management, Wyoming State Office, 5353 Yellowstone, Cheyenne, Wyoming 82003;
- Bureau of Land Management, Rawlins Field Office, 1300 North Third St, Rawlins, Wyoming 82301;
- Bureau of Land Management, Rock Springs Field Office, 280 Highway 191 N., Rock Springs, Wyoming 82901;
- Bureau of Land Management, Kemmerer Field Office, 312 Highway 189 N., Kemmerer, Wyoming 83101; and
- U. S. Department of Agriculture, Pawnee National Grasslands, 660 O St, Greeley, Colorado 80631.

FOR FURTHER INFORMATION CONTACT: Tom Hurshman, Project Manager, Bureau of Land Management, Uncompahgre Field Office, 2465 South Townsend Ave, Montrose, Colorado 81401. Mr. Hurshman may be reached by telephone at (970) 240-5345. Requests for information may be submitted electronically via e-mail to overland_pipeline_wy@blm.gov.

SUPPLEMENTARY INFORMATION: The proposed Overland Pass Pipeline would originate in Opal, Wyoming, and terminate at existing NGL processing facilities in Conway, Kansas. The Overland Pass Pipeline route would cross approximately 123 miles of Federal land in Wyoming and Colorado. In Wyoming, approximately 98 miles of the proposed pipeline route would cross public lands administered by three BLM Field Offices: Kemmerer, Rock Springs, and Rawlins. In addition, the Overland Pass Pipeline location would cross two units of the National Forest System administered by the United States Department of Agriculture, Forest Service. The proposed pipeline location includes approximately 2 miles of the Flaming Gorge National Recreation Area, and approximately 23 miles of the Pawnee National Grassland north of Greeley, Colorado. No Federal land in

Kansas would be affected by this proposal. The project would transport up to 150,000 barrels per day of NGL.

In the fall of 2005, Williams Field Services, doing business as Overland Pass Pipeline Company LLC (Overland Pass Company), submitted to the BLM an application for a right-of-way (ROW) grant to construct a NGL pipeline, up to 20 inches in diameter. (NGLs are naturally occurring heavier hydrocarbon liquids that are associated with the production of natural gas such as methane. NGLs include ethane, propane, butanes, and natural gasoline.)

On March 24, 2006, the BLM published in the **Federal Register** a Notice of Intent (NOI) to prepare an Environmental Impact Statement (EIS) under NEPA and as required by 43 Code of Federal Regulations Part 2880. To allow the public an opportunity to review the proposal and project information, the BLM held four public meetings in April 2006. Potential impacts to specific resources such as water quality and quantity, threatened and endangered and sensitive species, vegetation communities, historic trails, and pipeline route near residential developments were issues identified during scoping and analyzed in a Draft EIS.

On March 30, 2007, the BLM published the NOA for the Draft EIS for this project in the **Federal Register**. The 45-day comment period ended on May 14, 2007. Thirteen comment letters were received from individuals, organizations, corporations, and agencies. Specific comment responses are provided in the FEIS, and issues and concerns raised during the review are addressed in the FEIS.

Three alternatives are analyzed in the FEIS: No Action Alternative; Proposed Action Alternative, and the Southern Energy Corridor. The No Action alternative means that the project as proposed by Overland Pass Company in its ROW application would be rejected by the BLM. Under the No Action Alternative, the BLM would not issue a ROW grant for the Overland Pass Pipeline. The project, including the pipeline, temporary access roads, and temporary use areas during construction, would not be approved or authorized as described in the ROW application. The BLM and Forest Service preferred alternative is the Proposed Action Alternative.

The Proposed Action Alternative analyzed in the FEIS reflects minor revisions to the original route as proposed by Overland Pass Company. The pipeline would be approximately 14 inches in diameter between Opal and Echo Springs, Wyoming, and 16 inches
