New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public meeting.

SUMMARY: The New England Fishery Management Council (Council) will hold a three-day Council meeting on February 6-8, 2007, to consider actions affecting New England fisheries in the exclusive economic zone (EEZ).

DATES: The meeting will be held on Tuesday, February 6 beginning at 1 p.m., and Wednesday and Thursday, February 7 and 8, beginning at 8:30 a.m. each day.

ADDRESSES: The meeting will be held at the Sheraton Harborside Hotel, 250 Market Street, Portsmouth, NH 03801; telephone: (603) 431-2300.

Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT: Paul J. Howard, Executive Director, New England Fishery Management Council, telephone: (978) 465-0492.

SUPPLEMENTARY INFORMATION:

Tuesday, February 6, 2007

Following introductions, the Council will hear a series of brief reports from the Council Chairman and Executive

Director, the NOAA Northeast Regional Administrator, Northeast Fisheries Science Center and Mid-Atlantic Fishery Management Council liaisons, NOAA General Counsel and representatives of the U.S. Coast Guard, NOAA Enforcement, and the Atlantic States Marine Fisheries Commission. Following these reports, the Council will have a general discussion about at-sea processing vessels, including potential monitoring, reporting, observer and Vessel Monitoring System (VMS) requirements. Changes to Council processes and procedures as a result of reauthorization of the Magnuson-Stevens Fishery Conservation and Management Act will then be reviewed. The day will conclude with a report from the Council's Enforcement Committee. Its chair will discuss committee progress to develop recommendations concerning the use of VMS and other tools to address safety-at sea, regulatory compliance, and other fishery management-related activities.

Wednesday, February 7, 2007

During the morning session, the Council will receive a report on the comments received in response to public hearings held to consider standardized bycatch reporting methodology alternatives. The Council will also hold a hearing on Amendment 13 to the Sea Scallop Fishery Management Plan. The intent is to provide an opportunity for the public to comment on the establishment of a mechanism to reactivate the industry-funded observer program in the scallop fishery. The hearing will be followed by final action on the amendment. The Council will then discuss the alternatives identified in Amendment 11 to the Scallop Plan, some of which may be affected by provisions in the newly reauthorized Magnuson-Stevens Act. The Council will hear an update concerning the status of five stocks of small mesh multispecies whiting, red hake and offshore hake. The briefing also will address issues related to the development of the next small mesh multispecies amendment. An open period for the public to address any other Council-related business will be provided at this point in the day. During the afternoon session of the meeting, the Trawl Survey Committee will seek approval of recommendations related to the FSV Henry Bigelow, soon to be deployed in the Northeast Region. At the end of the day, the Council plans to review and approve Phase I of the Essential Fish Habitat Draft Supplemental Environmental Impacts Statement.

Thursday, February 8, 2007

The Council's Research Steering Committee Chairman will report on the committee's recommendations concerning the use of information provided in several cooperative research final reports. This will be followed by a discussion of other issues related to cooperative research, including the future use of industry-based surveys. There will be a presentation on the results of the 44th Northeast Regional Stock Assessment Workshop. The status of surf clams, ocean quahogs, and the skate complex will be reviewed. The Groundfish Committee will provide a report to the Council on scoping comments received for Amendment 16 to the Northeast Multispecies Fishery Management Plan. The Council will consider committee recommendations concerning alternatives to be developed, including input from the on the Recreational Advisory Panel.

Although other non-emergency issues not contained in this agenda may come before this Council for discussion, those issues may not be the subjects of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided that the public has been notified of the Council's intent to take final action to address the emergency.

National Oceanic and Atmospheric Administration

[I.D. 011707F]

Pacific Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meetings.

SUMMARY: The Pacific Fishery Management Council's (Council) Highly Migratory Species Management Team (HMSMT) and Highly Migratory Species Advisory Subpanel (HMSAS) will hold work sessions, which are open to the public.

DATES: The HMSMT/HMSAS work sessions will be held on Wednesday, February 7, 2007, from 8:30 a.m. until 5 p.m. and on Thursday, February 8, 2008, beginning at 8:30 a.m. until business is completed.

ADDRESSES: The work sessions will be held at the National Marine Fisheries Service, Southwest Fisheries Science Center, Large Conference Room and Green Room, 8604 La Jolla Shores Drive, La Jolla, CA 92037; telephone: (858) 546-7000.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220-1384.

FOR FURTHER INFORMATION CONTACT: Dr. Kit Dahl, Pacific Fishery Management Council; telephone: (503) 820-2280.

SUPPLEMENTARY INFORMATION: The HMSMT/HMSAS work sessions will continue review of U.S. and Canadian albacore catch and effort data, with the intent of recommending an appropriate method to characterize historical effort in the fishery. The two groups will also review progress in developing environmental impact evaluations of exempted fishing permit proposals for 2007 and any information on potential applications for 2008. They will also discuss development of an fishery management plan amendment to address overfishing of yellowfin tuna in the eastern Pacific Ocean and procedures to enhance communication with regional fishery management organizations, including the Western Pacific Fishery Management Council. The HMSMT will also discuss preparation of the 2007 stock assessment and fishery evaluation report and related data issues.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

The meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Ms. Carolyn Porter at (503) 820-2280 at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: January 18, 2007.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration**

[I.D. 011707A]

Marine Mammals; File No. 774-1847-01

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application for amendment.

SUMMARY: Notice is hereby given that NMFS Southwest Fisheries Science Center, Antarctic Marine Living Resources Program (Rennie Holt, Ph.D., Principal Investigator), 8604 La Jolla Shores Drive, La Jolla, CA 92037, has requested an amendment to scientific research Permit No. 774-1847.

DATES: Written, telefaxed, or e-mail comments must be received on or before February 22, 2007.

ADDRESSES: The amendment request and related documents are available for review upon written request or by appointment in the following office(s):

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713-2289; fax (301)427-2521; and Southwest Region, NMFS, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213; phone (562)980-4001; fax (562)980-4018.

Written comments or requests for a public hearing on this request should be submitted to the Chief, Permits, Conservation and Education Division, F/PR1, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular amendment request would be appropriate.

Comments may also be submitted by facsimile at (301)427-2521, provided the facsimile is confirmed by hard copy submitted by mail and postmarked no later than the closing date of the comment period.

Comments may also be submitted by e-mail. The mailbox address for providing e-mail comments is *NMFS.Pr1Comments@noaa.gov*. Include in the subject line of the e-mail comment the following document identifier: File No. 774-1847-01.

FOR FURTHER INFORMATION CONTACT: Kate Swails or Tammy Adams, (301)713-2289.

SUPPLEMENTARY INFORMATION: The subject amendment to Permit No. 774-1847, issued on September 11, 2006 (71 FR 53423) is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), and the regulations governing the taking and importing of marine mammals (50 CFR part 216).

Permit No. 774-1847 authorizes the permit holder to continue a long-term ecosystem monitoring program of pinniped species in the South Shetland Islands, Antarctica. The applicant is authorized to take up to 710 Antarctic fur seals and 20 leopard seals annually. The animals are captured, measured, weighed, tagged, blood sampled, and have time-depth recorders, VHF transmitters, and platform terminal transmitters attached. A subset of fur seals are given an enema, have a tooth extracted, milk sampled, and are part of a doubly-labeled water study on energetics. A subset of leopard seals are blubber and muscle sampled. The permit authorizes the research-related mortality of up to three Antarctic fur seals (one adult and two pups) and one leopard seal annually.

The permit holder requests authorization to increase research-related mortality to eight Antarctic fur seals (3 adults and 5 pups) and two leopard seals annually. Permit conditions are such that research must be stopped when the mortality level is reached. The requested amendment is intended to allow the continuation of the long-term monitoring studies in the event of greater than anticipated levels of research-related mortality.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.
