

employer has complied with the criteria for certification (including criteria for the recruitment of *eligible* individuals as prescribed by the Secretary), and (2) the employer does not actually have, or has not been provided referrals of, qualified *eligible* individuals who have indicated their ability to perform such labor or services. * * * The Department has fulfilled its statutory mandate by instructing SWAs via regulation and through this guidance letter that workers cannot be referred to employers unless the SWA has determined that the worker is “able, willing, and eligible” to take the job. 20 CFR 655.106(a). Eligibility is clearly defined by statute to mean “with respect to employment, *an individual who is not an unauthorized alien* * * * with respect to that employment.” INA Section 218(i)(1).

The Department has also required by regulation that all local SWA offices must “determine whether or not applicants are MSFWs [migrant and seasonal farmworkers] as defined at 20 CFR § 651.10 of this chapter.” “Farmworker” is defined by 20 CFR § 651.10 as as “agricultural worker,” which is in turn defined as “a worker, whose primary work experience has been in farmwork * * * whether alien or citizen, *who is legally authorized to work in the United States.*”

Accordingly, SWAs must verify the employment eligibility of any worker referred to an employer in response to an H-2A job order. The Department strongly recommends that SWAs use the E-Verify Web-based system administered by U.S. Citizenship and Immigration Services (USCIS). Information on the E-Verify system may be obtained directly from USCIS by clicking on the “E-Verify” link at <http://www.uscis.gov>. The Department is aware that many, and perhaps most, SWAs do not currently have reliable employment verification systems in place. Therefore, the Department will not enforce the employment verification requirements specified in this Training and Employment Guidance Letter against the SWAs until December 15, 2007.

SWAs should be aware that employers can rely on INA Section 274A(a)(5) only where the documentation complies with all statutory and regulatory requirements, including 8 CFR 274a.6. SWAs are strongly encouraged to provide this documentation. The Department will offer training between now and December 15 to provide SWAs additional guidance on how to comply with the applicable requirements.

iii. *SWA Referrals during Contract Period.* Once an employer’s H-2A

workers have departed for the employer’s place of work, SWAs should, in order to minimize disruption during the H-2A contract period, first make all reasonable efforts to refer an interested U.S. worker to a non-H-2A job order in the area of intended employment or to an unfilled H-2A job order in the area of intended employment in which the H-2A workers have not yet departed for the place of employment.

C. Housing

Housing Standards. SWAs are reminded that employers must provide housing at no cost to any worker not reasonably able to return to his/her residence within the same day. Employer-provided housing, depending on when it was built, must meet either the USDOL Occupational Safety and Health Administration (OSHA) standards set forth under 29 CFR 1910.142 (standards for temporary labor camps), or the ETA standards at 20 CFR 654.404–654.417 (standards for H-2A housing), whichever are applicable pursuant to the regulations. In circumstances where rental, public accommodation, or another substantially similar class of habitation is used, the housing must first meet any local standards for such housing or, in the absence of applicable local standards, any applicable state standards. In the absence of both local and state standards, the housing must meet the OSHA standards for temporary labor camps. In accordance with the Federal regulations at 20 CFR 655.102(b)(1)(vi), when it is the prevailing practice in the area of intended employment and for the occupation to provide family housing, the employer must provide family housing to all workers who request it. Open range housing—for sheepherders or others engaged primarily in the range production of livestock—must comply with OSHA housing standards or, alternatively, DOL guidance. In the absence of OSHA standards, ETA has added housing-related guidance to its TEGL 15-06 (February 9, 2007), which governs the processing of H-2A labor certification applications for occupations involved in the open range production of livestock.

i. *Housing Inspections.* SWAs are encouraged to perform housing inspections in a timely manner so that processing of an employer’s application is not unduly delayed. SWAs should be prepared to conduct housing inspections prior to the date an employer will file an H-2A labor certification application, if so requested by the employer.

ii. *Certified Housing that Becomes Unavailable.* For situations in which housing certified by the SWA later becomes unavailable for reasons outside the employer’s control, the employer may substitute other rental or public accommodation housing that possesses a valid certificate of occupancy. The employer must notify the SWA, in writing, of the change in accommodations and the reason(s) for such change. The SWA may inspect such accommodations, prior to or during occupation, to ensure it meets applicable housing standards.

5. *Effective Date.* This guidance applies to all H-2A labor certification applications pending with or received by the NPC and SWA on or after the date this TEGL is issued.

6. *Action Required.* NPC Directors and SWA Administrators are directed to provide NPC, SWA and other state staff involved in the processing of H-2A applications with a copy of these procedures.

7. *Inquiries.* Questions from SWA staff should be directed to the Office of Foreign Labor Certification at (202) 693-3010.

Signed in Washington, DC, this 15th day of November, 2007.

Emily Stover DeRocco,

Assistant Secretary, Employment and Training Administration.
