Certain Preserved Mushrooms from the People's Republic of China: Extension of Preliminary Results for Tenth Antidumping Duty New Shipper Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: March 26, 2007.

SUMMARY: The Department of Commerce (the "Department") is extending the preliminary results of the tenth new shipper review of the antidumping duty order on certain preserved mushrooms from the People's Republic of China ("PRC") by an additional 120 days to July 19, 2007.

FOR FURTHER INFORMATION CONTACT: Julia Hancock, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and

Constitution Avenue, N.W., Washington, D.C. 20230; telephone: (202) 482-1394.

SUPPLEMENTARY INFORMATION:

Background

On September 22, 2006, the Department initiated a new shipper review of the antidumping duty order on certain preserved mushrooms from the PRC, covering the period of review, February 1, 2006, to July 31, 2006 ("POR"), on Guangxi Jisheng Foods, Inc. ("Jisheng"). See *Notice of Initiation of Antidumping Duty New Shipper Review: Certain Preserved Mushrooms from the People's Republic of China*, 71 FR 56954 (September 28, 2006).

On December 14, 2006, the Department requested comments from interested parties regarding surrogate country selection and publicly available information for valuing factors of production. On February 5, 2007, Jisheng submitted comments on publicly available information for valuing factors of production.

Extension of Time Limit for Preliminary Results

Pursuant to section 751(a)(2)(B)(iv) of the Tariff Act of 1930, as amended ("the Act"), and section 351.214(i)(1) of the Department's regulations, the Department shall issue preliminary results in a new shipper review of an antidumping duty order within 180 days after the date on which the new shipper review was initiated. The Act further provides, however, that the Department may extend that 180-day period to 300 days if it determines that this review is extraordinarily complicated.

The Department finds that this review is extraordinarily complicated and that it is not practicable to complete this new shipper review within the foregoing time period. Specifically, the Department requires additional time to analyze all questionnaire responses and has determined to conduct verification of the responses submitted, as well as to examine whether Jisheng's U.S. sale was made on a *bona fide* basis. Accordingly,

the Department finds that additional time is needed in order to complete these preliminary results.

Section 751(a)(2)(B) of the Act and section 351.214(i)(2) of the Department's regulations allow the Department to extend the deadline for the preliminary results to a maximum of 300 days from the date of initiation of the new shipper review. As mentioned, this review was initiated on September 28, 2006. For the reasons noted above, we are extending the time for the completion of the preliminary results of this review to 300 days, *i.e.*, until no later than July 19, 2007. The deadline for the final results of the administrative review continues to be 90 days after the publication of the preliminary results.

This notice is issued and published in accordance with section 351.214(i)(2) of the Department's regulations and section 751(a)(2)(B)(iv) of the Act.

Dated: March 19, 2007.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

Pure Magnesium in Granular Form from the People's Republic of China: Continuation of Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the Department of Commerce (Department) and the International Trade Commission (ITC) that revocation of the antidumping duty order on pure magnesium in granular form from the People's Republic of China (PRC) would be likely to lead to continuation or recurrence of dumping and material injury to an industry in the

United States, the Department is publishing notice of the continuation of this antidumping duty order.

EFFECTIVE DATE: March 26, 2007.

FOR FURTHER INFORMATION CONTACT: Hilary E. Sadler or Juanita Chen, AD/CVD Operations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-4340 and (202) 482-1904, respectively.

SUPPLEMENTARY INFORMATION:

Background

On October 2, 2006, the Department initiated and the ITC instituted a sunset review of the antidumping duty order on pure magnesium in granular form from the PRC pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).¹

As a result of its review, the Department found that revocation of the antidumping duty order would be likely to lead to continuation or recurrence of dumping and notified the ITC of the magnitude of the margins likely to prevail were the order to be revoked.² On March 1, 2007, the ITC determined, pursuant to section 751(c) of the Act, that revocation of the antidumping duty order on pure magnesium in granular form from the PRC would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.³

Scope of the Order

There is an existing antidumping duty order on pure magnesium from the PRC.⁴ The scope of this order excludes pure magnesium that is already covered by the existing order on pure magnesium in ingot form and currently classifiable under item numbers 8104.11.00 and 8104.19.00 of the Harmonized Tariff Schedule of the United States (HTSUS). The scope of this order includes imports of pure magnesium products, regardless of

chemistry, including, without limitation, raspings, granules, turnings, chips, powder, and briquettes, except as noted above. Pure magnesium includes: (1) Products that contain at least 99.95 percent primary magnesium, by weight (generally referred to as "ultra-pure" magnesium); (2) products that contain less than 99.95 percent but not less than 99.8 percent primary magnesium, by weight (generally referred to as "pure" magnesium); (3) chemical combinations of pure magnesium and other material(s) in which the pure magnesium content is 50 percent or greater, but less than 99.8 percent, by weight that do not conform to an "ASTM Specification for Magnesium Alloy"⁵ (generally referred to as "off-specification pure" magnesium); and (4) physical mixtures of pure magnesium and other material(s) in which the pure magnesium content is 50 percent or greater, but less than 99.8 percent, by weight. Excluded from this order are mixtures containing 90 percent or less pure magnesium by weight and one or more of certain non-magnesium granular materials to make magnesium-based reagent mixtures. The non-magnesium granular materials of which the Department is aware used to make such excluded reagents are: lime, calcium metal, calcium silicon, calcium carbide, calcium carbonate, carbon, slag coagulants, fluorspar, nepheline syenite, feldspar, aluminum, alumina (Al₂O₃), calcium aluminate, soda ash, hydrocarbons, graphite, coke, silicon, rare earth metals/mischmetal, cryolite, silica/fly ash, magnesium oxide, periclase, ferroalloys, dolomitic lime, and colemanite. A party importing a magnesium-based reagent which includes one or more materials not on this list is required to seek a scope clarification from the Department before such a mixture may be imported free of antidumping duties. The merchandise subject to this order is currently classifiable under item 8104.30.00 of the HTSUS. Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the scope of this order is dispositive.

Determination

As a result of the determinations by the Department and the ITC that revocation of this antidumping duty order would be likely to lead to continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to section

751(d)(2) of the Act, the Department hereby orders the continuation of the antidumping duty order on pure magnesium in granular form from the PRC.

U.S. Customs and Border Protection will continue to collect antidumping duty deposits at the rates in effect at the time of entry for all imports of subject merchandise. The effective date of the continuation of this order is the date of publication in the **Federal Register** of this Notice of Continuation. Pursuant to section 751(c)(2) of the Act, the Department intends to initiate the next five-year review of this antidumping order not later than February 2012.

This five-year (sunset) review and this continuation notice are in accordance with section 751(c) of the Act and published pursuant to 777(i) of the Act.

Dated: March 15, 2007.

David M. Spooner,
Assistant Secretary for Import Administration.
