**SUPPLEMENTARY INFORMATION:** Notice of this meeting is given under the Federal Advisory Committee Act, 5 U.S.C. App. (Pub. L. 92-463). The HSAC exists to provide independent advice to the Secretary of the Department aiding in the creation of expeditious implementation of critical and actionable policy and operational capacities across the spectrum of homeland security operations. The HSAC shall periodically report, as appropriate, to the Secretary on matters within the scope of that function. The HSAC serves as an advisory body with the goal of providing advice upon the request of the Secretary.

The HSAC will meet to review recommendations from the Administration Transition Task Force (ATTF) and other HSAC subgroups. The ATTF has focused on identifying issues and priorities for DHS and relevant partners to address to effectively plan for the transition in administrations. In addition, recommendations from the HSAC's other subgroups are expected on the following topics: medical surge capabilities, Real-ID implementation, DHS training and education efforts, and private sector and state and local information sharing efforts. The Essential Technology Task Force will

update the HSAC on its progress and planned activities but will not report recommendations at this meeting.

At this meeting, the HSAC will participate in sensitive discussions with senior officials regarding priorities and ongoing initiatives in the Department.

Pursuant to 5 U.S.C. 552b(c)(9)(B), the nature of discussions could lead to premature disclosure of information on Department of Homeland Security actions that would be "likely to significantly frustrate implementation of proposed agency action." Additionally, discussions of ongoing investigations with Department of Homeland Security enforcement components and outside law enforcement partners fall within the meaning of 5 U.S.C. 552b(c)(7)(E) insofar as they will disclose investigative techniques and procedures.

Closed portions of the meeting will include discussions on general administrative updates, ethics requirements for advisory committee members, updates on operational challenges, intelligence briefing, and pre-decisional policy decisions. During the closed portions of the meeting, various speakers from Customs and Border Protection, United States Secret Service, Intelligence and Analysis, Policy Directorate, Management

Directorate, and the Transportation Security Administration will discuss planning efforts for the transition in administrations, potential changes to airport security, border security, potential areas to focus the Quadrennial Homeland Security Review, and the challenges faced by the United States Secret Service in a presidential election year. The discussion will involve discussions of law enforcement and airport security procedures of Department of Homeland Security components. The nature of the discussions could lead to premature disclosure of information on Department of Homeland Security actions that would be "likely to significantly frustrate implementation of a proposed agency action."
