

public comment period. EPA is hereby extending the comment period, which was set to end on July 30, 2007.

III. What is the Agency's Authority for Taking this Action?

Section 4(g)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, directs that, after submission of all data concerning a pesticide active ingredient, the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration. Further provisions are made to allow a public comment period. However, the Administrator may extend the comment period, if additional time for comment is requested. In this case, the Humane Society of the United States and the Animal Protection Institute have requested additional time to develop comments. The Agency believes that an additional 23 days is warranted.

The request would not terminate the last benzyl benzoate products registered for use in the U.S. EPA intends to grant this request at the close of the comment period for this announcement unless the Agency receives substantive comments within the comment period that would merit its further review of the request, or unless the registrant withdraws their request within this period. This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

II. Background on the Receipt of Request to Cancel and/or Amend Registrations to Delete Uses

This notice announces receipt by EPA of a request from registrant S.C. Johnson and Son, Inc. to cancel and to terminate uses of two benzyl benzoate product registrations. Benzyl benzoate, a member of the benzyl derivative family, is an insecticide/miticide used to control dust mites in carpets, mattresses, upholstery, and on furniture, as well as for control of mites on dogs. In a letter dated June 6, 2007, S.C.

Johnson and Son, Inc. requested EPA to cancel affected product registrations identified in this notice (Table 1). Specifically, on January 13, 2000, S.C. Johnson and Son, Inc. issued an immediate voluntary recall of Allercare Dust Mite Powder (Raid Product 319) and Allercare dust Mite Allergen Spray for Carpet and Upholstery (Raid Product 420). The recall was prompted by numerous reports of adverse health reactions in human and pets exposed to the products. S.C. Johnson and Son, Inc. has requested the cancellation of the registrations of two products, Raid Product 319 and Raid Product 420. The products have not been marketed since the 2000 recall. The cancellation will include no existing stocks provisions.

III. What Action is the Agency Taking?

This notice announces receipt by EPA of a request from a registrant to cancel benzyl benzoate product registrations. The affected products and the registrant making the request are identified in Tables 1 and 2 of this unit.

Under section 6(f)(1)(A) of FIFRA, registrants may request, at any time, that their pesticide registrations be canceled or amended to terminate one or more pesticide uses. Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, section 6(f)(1)(C) of FIFRA requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or
2. The Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The benzyl benzoate registrant has requested that EPA waive the 180-day comment period. EPA will provide a 30-day comment period on the proposed requests.

Unless a request is withdrawn by the registrant within 30 days of publication of this notice, or if the Agency determines that there are substantive comments that warrant further review of this request, an order will be issued canceling the affected registrations.

IV. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request.

V. Procedures for Withdrawal of Request and Considerations for Reregistration of Benzyl Benzoate

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**, postmarked before August 24, 2007. This written withdrawal of the request for cancellation will apply only to the applicable FIFRA section 6(f)(1) request listed in this notice. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and

which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action.

If the request for voluntary cancellation is granted as discussed above, the Agency intends to issue a cancellation order that will allow persons other than the registrant to continue to sell and/or use existing stocks of cancelled products until such stocks are exhausted, provided that such use is consistent with the terms of the previously approved labeling on, or that accompanied, the cancelled product. The order will specifically prohibit any use of existing stocks that is not consistent with such previously approved labeling. If, as the Agency currently intends, the final cancellation order contains the existing stocks provision just described, the order will be sent only to the affected registrants of the cancelled products. If the Agency determines that the final cancellation order should contain existing stocks provisions different than the ones just described, the Agency will publish the cancellation order in the **Federal Register**.

II. Introduction

Section 4(i)(5) of FIFRA as amended in October 1988 (Public Law 100-532), December 1991 (Public Law 102-237), and again in August 1996 (Public Law 104-170), requires that all pesticide registrants pay an annual registration maintenance fee, due by January 15 of each year, to keep their registrations in effect. This requirement applies to all registrations granted under section 3 as well as those granted under section 24(c) to meet special local needs. Registrations for which the fee is not paid are subject to cancellation by order and without a hearing.

The Food, Agriculture, Conservation, and Trade Act Amendments of 1991,

Public Law 102-237, amended FIFRA to allow the Administrator to reduce or waive maintenance fees for minor agricultural use pesticides when he determines that the fee would be likely to cause significant impact on the availability of the pesticide for the use. The Agency has waived the fee for 182 minor agricultural use registrations at the request of the registrants.

In fiscal year 2007, maintenance fees were collected in one billing cycle. The Pesticide Registration Improvement Act (PRIA) was passed by Congress in January 2004. PRIA became effective in March 2004 and authorized the Agency to collect \$21 million in maintenance fees in fiscal year 2007. In late December 2006, all holders of either section 3 registrations or section 24(c) registrations were sent lists of their active registrations, along with forms and instructions for responding. They were asked to identify which of their registrations they wished to maintain in effect, and to calculate and remit the appropriate maintenance fees. Most responses were received by the statutory deadline of January 15. A notice of intent to cancel was sent in mid-February to companies who did not respond and to companies who responded, but paid for less than all of their registrations. Since mailing the notices, EPA has maintained a toll-free inquiry number through which the questions of affected registrants have been answered.

Maintenance fees have been paid for about 15,730 section 3 registrations, or about 96% of the registrations on file in December. Fees have been paid for about 2,193 section 24(c) registrations, or about 86 percent of the total on file in December. Cancellations for non-payment of the maintenance fee affect about 466 Section 3 registrations and about 255 Section 24(c) registrations.

The cancellation orders generally permit registrants to continue to sell and distribute existing stocks of the canceled products until January 15, 2008, one year after the date on which the fee was due. Existing stocks already in the hands of dealers or users, however, can generally be distributed, sold or used legally until they are exhausted. Existing stocks are defined as those stocks of a registered pesticide product which are currently in the U.S. and which have been packaged, labeled and released for shipment prior to the effective date of the action.

The exceptions to these general rules are cases where more stringent restrictions on sale, distribution, or use of the products have already been imposed, through Special Reviews or other Agency actions. These general
