AGENCY: Federal Energy Regulatory

ACTION: Final rule.

SUMMARY: The Federal Energy Regulatory Commission (Commission) is revising its regulations governing qualifying small power production and cogeneration facilities (QFs), to eliminate the exemption of QFs from the requirements of section 215 of the Federal Power Act. From a reliability perspective, there is not a meaningful distinction between QF and non-QF generators that warrants a generic exemption of QFs from reliability standards.

DATES: Effective Date: The rule will become effective June 25, 2007.
