In addition, the FCC must be notified when normal operation is resumed. No further authority is needed for limited operation or discontinued operation for a period not exceeding 30 days. Should events beyond the licensee's control make it impossible for compliance within the required 30-day time period, an informal written request shall be submitted to the FCC requesting the amount of additional time that the licensee deems necessary. The data is used by FCC staff to temporarily authorize a limited operation or a discontinuance of operation.

An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be

submitted on or before September 7, 2007. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0855.

Title: Telecommunications Reporting Worksheets.

Form Nos.: FCC Forms 499-A and 499-Q.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit and not-for-profit institutions.

Number of Respondents: 5,625 respondents; 36,068 responses.

Estimated Time per Response: 15 minutes—25 hours.

Frequency of Response: On occasion, quarterly, and annual reporting requirements, recordkeeping requirement, third party disclosure requirement.

Obligation to Respond: Mandatory.

Total Annual Burden: 273,129 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: The Commission will allow respondents to certify that data contained in their submission are privileged or confidential commercial or financial information and that disclosure of such information would likely cause substantial harm to the competitive position of the entity filing the Worksheet. If the Commission receives a request for or proposes to disclose the information, the respondent would be required to make the full showing pursuant to the Commission's rules for withholding from public inspection information submitted to the Commission.

Needs and Uses: The 60-day Notice for this collection was published as an extension. Since that publication, however, the U.S. Court of Appeals of the District of Columbia Circuit issued a decision and the Commission issued an order affecting this collection which requires that the collection now be submitted as a revision. Specifically, on June 1, 2007, the U.S. Court of Appeals of the District of Columbia Circuit, in *Vonage Holdings Corp. v. FCC*, generally affirmed the 2006 *Contribution Methodology Order*. The Court, however, vacated the pre-approval requirement for traffic studies submitted by interconnected VoIP providers and the interim suspension of the carrier's carrier rule. Later, on June 15, 2007, the Commission released an Order requiring interconnected VoIP providers to contribute to the Telecommunications Relay Service (TRS) fund. The revised 2007 FCC 499-A and 499-Q forms and instructions contained in this submission incorporate the changes required by the *Vonage Holdings Corp. Decision and TRS Contribution Order*.

The Federal Communications Commission (Commission) requires telecommunications carriers and other providers of telecommunications to contribute to the Universal Service Fund (USF) and other funds. Contribution revenue data, as well as other information, are reported by carriers and other providers of telecommunications on FCC Forms 499-A and 499-Q. Accompanying these forms are instructions on how to report revenue. This revision is necessary to incorporate the changes required by the *Vonage Holdings Corp. Decision and TRS Contribution Order* and will go into effect with the November 1, 2007 quarterly filing of FCC Form 499-Q.

Respondents: Business or other for-profit entities.

Number of Respondents: 560.

Estimated Time per Response: 0.017–52 hours.

Frequency of Response: Recordkeeping requirement; On occasion reporting requirement; Quarterly reporting requirement; Third party disclosure requirement.

Needs and Uses: On November 29, 1999, the Community Broadcasters Protection Act of 1999 (CBPA), Pub. L. No. 106–113, 113 Stat. Appendix I at pp. 1501A–594–1501A–598 (1999), codified at 47 U.S.C. 336(f), was enacted. That legislation provided that a low power television (LPTV) licensee should be permitted to convert the secondary status of its station to the new Class A status, provided it can satisfy certain statutorily-established criteria. The CBPA directs that Class A licensees be subject to the same license terms and renewal standards as full-power television licenses and that Class A licensees be accorded primary status as television broadcasters as long as they continue to meet the requirements set forth in the statute for a qualifying low power station. The CBPA sets out certain certification and application procedures for LPTV licensees seeking Class A designation, prescribes the criteria LPTV licensees must meet to be eligible for Class A licenses, and outlines the interference protection Class A applicants must provide to analog, digital, LPTV and TV translator stations.

The CBPA directs that Class A stations must comply with the operating requirements for full-service television broadcast stations. Therefore, beginning on the date of its application for a Class A license and thereafter, a station must be “in compliance” with the Commission's operating rules for full-service television stations, contained in 47 CFR part 73.
