On October 2, 2007, the Department of Energy (DOE) received an application from RBS for authority to transmit electric energy from the United States to Mexico as a power marketer. RBS has requested an electricity export authorization with a 5-year term. RBS does not own or control any generation, transmission, or distribution assets, nor does it have a franchised service area. The electric energy which RBS proposes to export to Mexico would be surplus energy purchased from electric utilities, Federal power marketing agencies, and other entities within the U.S.

RBS will arrange for the delivery of exports to Mexico over the international transmission facilities owned by San Diego Gas & Electric Company, El Paso Electric Company, Central Power & Light Company, Sharyland Utilities, and Comision Federal de Electricidad, the national electric utility of Mexico.

The construction, operation, maintenance, and connection of each of the international transmission facilities to be utilized by RBS has previously been authorized by a Presidential permit

issued pursuant to Executive Order 10485, as amended.

DOE notes that RBS shall have no authority to export electricity to Mexico until the conclusion of this proceeding and the issuance of an order granting authority to export.

*Procedural Matters:* Any person desiring to become a party to these proceedings or to be heard by filing comments or protests to this application should file a petition to intervene, comment or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the Federal Energy Regulatory Commission's Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with DOE on or before the dates listed above.

Additional copies are to be filed directly with Paul Stevelman, Esq., Managing Director and Deputy General Counsel, RBS Greenwich Capital, 600 Steamboat Road, Greenwich, CT 06830 AND Brian Chisling, Esq., Senior Counsel, Simpson Thacher & Bartlett LLP, 425 Lexington Avenue, New York, NY 10017-3954.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to the National Environmental Policy Act of 1969, and a determination is made by DOE that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system. Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at [http://www.oe.energy.gov/permitting/electricity\\_imports\\_exports.htm](http://www.oe.energy.gov/permitting/electricity_imports_exports.htm), or by e-mailing Odessa Hopkins at [Odessa.hopkins@hq.doe.gov](mailto:Odessa.hopkins@hq.doe.gov).
