NATIONAL SCIENCE FOUNDATION

Notice of Intent To Seek Approval To Establish an Information Collection

AGENCY: National Science Foundation.

ACTION: Notice and request for comments.

SUMMARY: The National Science Foundation (NSF) is announcing plans to request clearance of this collection. In accordance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), we are providing opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the submission requesting that OMB approve clearance of this collection for no longer than three years. **DATES:** Written comments on this notice must be received by November 13, 2007 to be assured of consideration. Comments received after that date will be considered to the extent practicable.

Comments: Comments are invited on (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed

collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical or other technological collection techniques or other forms of information technology.

SUPPLEMENTARY INFORMATION:

Title of Collection: Evaluation of the National Science Foundation-National Institutes for Health Bioengineering and Bioinformatics Summer Institutes (BBSI) Program.

OMB Number: 3145-NEW.

Expiration Date of Approval: Not applicable.

Type of request: Establish an information collection.

Abstract: The National Science Foundation (NSF) and the National Institute of Bioinformatics and Bioengineering (NIBIB), a new component of the National Institutes of Health, established a jointly funded program run by NSF called the Bioengineering and Bioinformatics Summer Institutes (BBSI) Program to begin creating a supply of professionals trained in bioengineering and bioinformatics. This workforce initiative complements research and education efforts in these fields funded by both agencies and constitutes a high profile effort to meet the anticipated human resource needs for bioengineering and bioinformatics.

The program is designed to provide students majoring in the biological sciences, computer sciences, engineering, mathematics, and physical sciences with well planned interdisciplinary experiences in bioengineering or bioinformatics research and education, in very active 'Summer Institutes'; thereby increasing the number of young people considering careers in bioengineering and
