

ENVIRONMENTAL PROTECTION AGENCY

[Regional Docket Nos. V-2005-5, FRL-8501-7]

Clean Air Act Operating Permit Program; Petition for Objection to State Operating Permit for Walnut Street

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final order on petition to object to Clean Air Act operating permit.

SUMMARY: This document announces that the EPA Administrator has responded to a petition asking EPA to object to a Clean Air Act (Act) operating permit issued by the Wisconsin Department of Natural Resources. Specifically, the Administrator granted in part and denied in part the petition submitted by the Sierra Club to object to the operating permit for Wisconsin Department of Administration's Walnut Street Heating Plant (Walnut Street).

Pursuant to section 505(b)(2) of the Act, a Petitioner may seek in the United States Court of Appeals for the appropriate circuit judicial review of those portions of a petition which EPA denied. Any petition for review shall be filed within 60 days from the date this notice appears in the **Federal Register**, pursuant to section 307 of the Act.

ADDRESSES: You may review copies of the final order, the petition, and other supporting information at the EPA, Region 5 Office, 77 West Jackson Boulevard, Chicago, Illinois 60604. FOR FURTHER INFORMATION CONTACT: Pamela Blakley, Chief, Air Permits Section, Air Programs Branch, Air and Radiation Division, EPA, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, telephone (312) 886-4447.

SUPPLEMENTARY INFORMATION: The Act affords EPA a 45-day period to review, and object to as appropriate, operating permits proposed by state permitting authorities. Section 505(b)(2) of the Act authorizes any person to petition the EPA Administrator within 60 days after the expiration of the EPA review period to object to a state operating permit if EPA has not done so. A petition must be based only on objections to the

permit that were raised with reasonable specificity during the public comment period provided by the state, unless the petitioner demonstrates that it was impracticable to raise issues during the comment period, or the grounds for the issues arose after this period.

On May 24, 2005, EPA received a petition from the Sierra Club requesting that EPA object to the Title V operating permit for Walnut Street. The petition raised issues regarding: (1) Conditions for monitoring air pollutants; (2) language related to credible evidence; (3) the practical enforceability of permit conditions; and, (4) limits marked not federally enforceable. The petitioner alleged that the proposed permit is legally inadequate because the permit: (1) fails to include conditions that meet the legal requirements for monitoring; (2) contains conditions that violate the requirements related to credible evidence; (3) contains conditions that violate EPA policy requiring a permit to be practically enforceable; and, (4) limits federal enforceability and illegally makes the limits not federally enforceable.

On November 5, 2007, the Administrator issued an order granting in part and denying in part the petition. The order explains the reasons behind EPA's conclusion.

Dated: November 20, 2007.

Bharat Mathur,

Acting Regional Administrator, Region 5.
